those facing the Englishmen, only one of whom, W. H. MacDonald, pleaded guilty.

## EVIDENCE NEARS END

Judge Ulrich in the course of argument to-day with Monkhousé as to whether he would be allowed to make a statement, indicated the evidence would be completed by to-morrow night. Afterward will come lengthy speeches by the prosecution and defence. The verdict is expected about Tuesday. If found guilty, the Britishers will be liable to the death penalty. Typical of the testimony was the state examination to-day of P. E. Oleyk, one of the eleven Russians who has pleaded guilty. Oleyk said he was born in Russia, but was educated and worked in America. Later he worked in England.

When he returned to Russia he met Monkhousé and was employed by his firm at a salary of 600 rubles (\$800), said Oleyk, but he was "instructed to keep a separate account in a London bank" in case his house was searched.

Oleyk denied to the prosecutor he was preparing to escape to England, although he said he feared difficulties in connection with sabotage. He said Monkhousé and L. C. Thornton both had told him not to mention defects in Metropolitan-Vickers machinery, in the interests of the firm.

LIMITS SET  
Then Oleyk offered to give the names of a "sabotage group," indicating he would name others than the accused, but the prosecutor told him to give the "facts" only of sabotaging of which he had personal knowledge.

"I was concerned with Charles Nordwell, who was sabotaging in the Don Basin," Oleyk testified. (Nordwell is one of the English defendants.)

"I spied for Thornton in the factories on military matters," he added, "but I was not a spy." He added: "When I was on my way to the Far East, Thornton asked for information about the movements of troops, but these reports were of no interest to Metropolitan-Vickers, so I believed Thornton and Nordwell were working for some other organization."

The court sat again this evening.

STOPPED BY JUDGE  
It was at the start of to-day's session of the trial that Judge Ulrich, chief of the six British judges, defended themselves against charges of espionage, sabotage and bribery, made his dramatic protest.

Catching the prosecution and court entirely off guard, Monkhousé arose in the prisoners' dock and in Russian requested permission to make a statement.

Judge Ulrich nodded assent. Monkhousé, grey-haired, middle-aged, square-jawed six-footer, declared he wished to speak in English. Judge Ulrich at first objected, but finally consented.

Then Monkhousé referred specifically to yesterday evening's testimony of L. A. Sukorchin, who had accused L. C. Thornton, one of the British defendants, of plotting to paralyze Russian industries and government activities in the event of war. He also referred to the testimony of "other Soviet citizens."

"After listening to the statements of Soviet citizens yesterday and the day before," he said, "I am clear to me that this is a frame-up against the Metropolitan-Vickers Company engineers, based on evidence of terrorized prisoners," Monkhousé said.

Judge Ulrich interrupted in Russian. "But Sukorchin did not mention you in his testimony," the judge said. Monkhousé replied: "As I understand the law, I have a right to make a declaration here on this evidence."

Judge Ulrich rejoined: "Declarations are not permitted and you may say everything you wish in your last speech," evidently referring to the questioning the court gives every prisoner just before the verdict is announced.

Monkhousé, however, continued in English: "I know from my own experience when I was arrested and subjected to eighteen hours' continuous examination."

Judge Ulrich interrupted with: "I cannot permit you to make a statement in behalf of all the accused British prisoners. You will be questioned to-day and to-morrow, since you wish to make a declaration, and will have an opportunity then to say what you wish."

Monkhousé walked back to the prisoners' dock as the next witness, M. D. Kravennikov, thirty-five, was called. COURT SURPRISED  
Monkhousé's flat declaration the trial was a "frame-up" temporarily upset all the proceedings.

It was the second vigorous attempt of the British to fight back at the charges made against them, and it threw the courtroom into momentary confusion. Gaps of surprise swept the audience. Trial, heavy-set Prosecutor A. Vishinsky and his overbearing assistant, Roginsky, half rose in their seats as the amazed interpreter sput-

TECHNOCRACY  
BACK WITH BEER

Automat Bartender Serves  
Foaming Stein When Nickel  
Is Put in Slot

New York, April 15.—With beer back, the brewers are experimenting with extra-special beverages for the top-hat-and-ermine trade. While ordinary brews may sell for a nickel a glass, a few allegedly superior varieties will bring twenty-five cents, the toll being levied on the beer and even fifty cents in the big hotels.

Many a debbie and dandy is trying to cultivate a taste for the strange liquid which seems slated, for the first time, for social prestige. Costly taprooms are being installed in some of Park Avenue's palatial houses. In one building two wealthy bachelors occupying a second-story "club" from which draught beer will flow through copper pipes into both their kitchenettes.

Theatre managers are hoping they will be permitted to sell it between acts, fearful that, otherwise, diversionists will flock to the beer gardens for refreshment and vaudeville entertainment. Most of the London playhouses, and some of those in Paris, have bars with the barmaids who also serve up sparkling gossip about the stars in the show.

American managers are certain that, as of now, there will be a place next door to each theatre, with buzzers to announce the end of intermissions. As literally scores of Broadway promoters plan to exploit it, the City Way fears that it may be turned into Beer Alley. In addition to various parlors and gardens, the street may be filled with beer gardens.

For a nickel in the slot of a shiny machine, the customer sees a paper coming into place and a foaming liquid. Then the foam is scraped off the top and a revolving platform brings the cup before a little door, which clicks open and the beer is poured into the cup.

The Scotch Cup, final and wet, was played to-day. Scotch League first division schedule and only five games were played. While Motherwell were losing to Celtic in the cup game, Rangers increased their league lead over the cup losers to three points, splitting a 1 to 1 game with Aberdeen.

AKRON INQUIRY  
NEARS ITS END  
(Continued from Page 1)

In the face of weather that was "unfavorable" but that did not make it "impossible," the trial of the shipwrecked crew of the *Albatross* continued to-day. The ship's five survivors subsequently testified the port engine was moving in its out-rigger mount because the plate holding it to the supporting struts had sheared completely across. This was discovered en route back from the futile sea search.

And the blimp, facing the danger of having the motor drop into the sea, limped back to the coast for an emergency landing that ended disastrously.

## NEW PASSENGER PLANE SHRINKS U.S. A THIRD

A speedier new era in transcontinental air travel is expected through development of the "flying panatela" plane, above. The plane, developed after tests with a U.S. bomber, has a cruising range of 165 miles an hour with ten passengers and crew. It can hit a top speed, without wind help, of 182 miles an hour, a little better than three miles a minute. Sixty such planes, their two motors built into the low wings, now are being constructed for transcontinental service. The chart below shows how the planes would cut one-third of the time now required between San Francisco and New York.

ARSENAL WIN  
SOCCER TITLE

(Continued from Page 1)

Tottenham Hotspurs kept just a point behind the second division leader Stoke City, when both teams won to-day. Stoke triumphed 2 to 1 at Chesterfield and Tottenham pulled out a 2 to 0 win at Swansea Town.

The Scottish Cup final and wet, was played to-day. Scotch League first division schedule and only five games were played. While Motherwell were losing to Celtic in the cup game, Rangers increased their league lead over the cup losers to three points, splitting a 1 to 1 game with Aberdeen.

THREE DIE IN  
PRAIRIE FIRE

(Continued from Page 1)

Cousens, Keough and Seth Lawrence farms. Toll of livestock was still unlisted to-day, with only one horse known to have perished. Farm machinery, being prepared for seeding operations due to start soon, also was damaged.

The blaze, breaking out late yesterday afternoon from an unknown cause, was brought under control in the evening.

The deaths to the Devalerios girls and their mother were said to have come through the trio racing from their car into a cloud of smoke that hid the flames.

As high wind fanned the blaze, the three jumped from the car as it stalled. Devalerios, as he stepped from the car, was engulfed by the black smoke and overcome. Only a few yards away his two daughters died and his wife suffered burns.

Regaining consciousness, Devalerios found the fire had passed and he saw the two bodies and his injured wife lying nearby. The car had not been touched by the fire.

Mrs. Devalerios was rushed to the hospital here, where she succumbed to her burns this morning.

Protest From German  
Government Before  
Cabinet of Britain  
(Continued from Page 1)

ment that Ambassador Leopold von Hoesch was ordered to-day to protest to Great Britain.

The long distance wires were kept busy when the decision was being made that the ambassador must protest in the name not only of the Foreign Office, but of the entire government of the Reich.

The ministers were described as painfully surprised because Sir John Simon, as British Minister for Foreign Affairs, did not object to the criticism of Germany voiced by members of the House.

"Just imagine that any member of the Reichstag raised the Irish issue on the floor. Don't you suppose the German Foreign Minister would have called him down?" a government spokesman said.

Smart—From  
MORN TO NIGHT

Smart, the day long, will you be if you wear this black silk ensemble with its smart printed cut lining and blouse and fresh, stiffened white pique gardenia. The costume has a box jacket with cuffs of the flowered print attached. Remove the jacket at bedtime and you have a sleeveless frock of a conventional flower-printed crepe top, cut with a kerchief cross-over front treatment and a cape back. The little veiled hat is black, too.

BY CELTIC ELEVEN

(Continued from Page 1)

to one of his men to clear out of the goal area. Instead the ball hit the Motherwell player and bounded back to McCrory, who was waiting uncovered before the Motherwell goal-mouth. He promptly shot it in for the only score of the match.

The crowd had lots of excitement, but the soccer displayed was no more than the ordinary league brand. Celtic had the advantage most of the time, and the pressure on the Motherwell goal was much heavier than at the other end of the field.

Motherwell had plenty of scoring chances and should have got a draw had Stevenson and McCrory, Motherwell sharpshooters, been in their best form.

CELT FORWARDS BETTER  
The Celts played along the right wing too heavily, but the Celtic forward line showed better than their opponents. The Celtic halfbacks were definitely superior, but the Celtic pair of fullbacks, Hogg and McGonagle, had a bad day.

McCrory's covering up, Kennaway in the Celtic nets would have been beaten several times.

Although his goal was a lucky one, McCrory deserved credit for taking fullest advantage of the best chance he got.

In the very first minute the Celtic goalie had a narrow escape. With the Motherwell line pressed in, but Murdoch was slow shooting and Kennaway managed to smother the ball, eventually clearing it.

The first corner the Celts obtained nearly resulted in a goal. McCrory in the Motherwell nets just tipping McStay's header over the bar.

Stapler sent a dazzling shot to the Motherwell nets that was neutralized by Thomson's offside.

Hogg slipped in the grease and McCrory got clear through the Celtic net with a lovely angle shot, but Kennaway throwing himself at full length saved at the expense of a corner.

Napier followed with a shot that grazed McCrory's post and then Motherwell brought it to the Celtic end of the field with two dangerous raids, the net results of which was a corner.

MISS CHANCES  
Twice O'Donnell missed chances on the Celtic goal, while Napier, who seemed to have a goal on his mind, missed a chance when a goal seemed imminent. Celts were on top by this time, but they were a bit lucky when Stevenson raced down the Celtic goal and got away a strong shot which again brought Kennaway to full length on the ground. The ball struck his hand and swirled over the bar, which was a tough break for Motherwell.

It was the Motherwell goalie's turn again in a minute or so, but McCrory made a fine save of the shot headed in by Napier off Thomson's corner. Almost immediately after McCrory had to have a terrific free kick from Napier.

Neither set of forwards played very constructive football, but the individual dashes with Celtic having the advantage kept the big crowd in an uproar.

On a fine piece of play McCrory got in on the Celtic goal, but his cross shot was missed by both McCrory and Ferrier, who were waiting in front of the nets. Kennaway then kicked away a free kick from McCrory.

Play veered around the Motherwell nets and McCrory flatted away a hard cross shot from O'Donnell.

McCrory scored two minutes after the start. Scott Thomson, second striker, and racing to the Motherwell nets when he was tackled by Ellis and lost the ball. He got it back and ran into Mackenzie, who took the ball and drove the ball back into the goal area where it hit one of his own men. The ball rebounded to Celtic's center-forward, McCrory, who was right in front of the nets and was not covered. McCrory promptly hoisted it past the astonished McCrory in the Motherwell nets.

Celtic resumed an inspired attack, settling down to the best football of the match. McCrory was called on to save brilliantly twice from Alex Thomson and from Napier, but both occasions more goals seemed imminent. Napier was brilliant with wonderful footwork and driving power.

Motherwell got going again and McCrory spotted the ball past his own goal after the Motherwell forwards had pressed right in. Kennaway, however, saved brilliantly from McCrory's header on a corner kick.

The Celts were soon back around the Motherwell nets although an excursion by Murdoch put the Celtic goal in jeopardy. Kennaway colliding twice in succession with his own halfback, McCrory.

Back again at the other end McCrory saved brilliantly with fifteen minutes to go from Celtic's shot.

The teams follow:  
Celtic—Goal, Kennaway; fullbacks, Hogg and McGonagle; halfbacks, Wilson, McStay and Gostown; forwards, Edward, H. Thomson, A. Thomson, McCrory, Napier and O'Donnell.

Motherwell—Goal, McCrory; fullbacks, Crapnell and Ellis; halfbacks, Wales, Blair and Mackenzie; forwards, Murdoch, McCrory, McCrory, Stevenson, Stevenson and Ferrier.

INFANT LOST LIFE  
Kitchener, Ont., April 15 (Canadian Press).—Harold Arnold Levan, thirteen-month-old son of Mr. and Mrs. Levan, died of a heart ailment after he had been pulled from a bathtub overflowing with scalding water. The infant was left in the tub while the mother attended to work in the yard, and it is believed another child turned on the hot water tap.

Henry Ford says he still believes in high wages—and so do a lot of folks, even more than before they took their

## DEMONSTRATION IN JERUSALEM

Associated Press  
Jerusalem, April 15.—Numbers of veiled Moslem women yesterday staged a demonstration against Viscount Allenby, leader of Great Britain's forces in Palestine in the Great War, on account of his activities in connection with the Y.M.C.A., which Moslem quarters here regard as a missionary organization.

They formed a long procession which marched through the streets of the old city to the Mosque of Oreg, where speeches were made. Arab newspapers have been attacking Lord Allenby in Palestine on a special mission to dedicate a new Y.M.C.A. building in Jerusalem, which cost \$208,000. He is to speak at the dedication service next Tuesday.

### NEW CHURCH RECTOR

### WILL NOT BE AMBASSADOR

Washington, April 15. (Associated Press).—Mayor James M. Curley of Boston yesterday rejected the United States ambassadorship to Poland because, he said, he felt he was needed more at home.

## Planting The Narrow Strip

By JOHN HUTCHISON, F.R.H.S.

The narrow strip in the small garden is often a problem, but it is a problem that can be surmounted with a little thought. It may be planted with annuals. These are very popular among gardeners who have but little room for their gardening, because they allow so many experiments to be tried each year. Whereas one person will like to fill the narrow strip with perennials, which will grow with the minimum of attention, another will chafe against having his strip so taken up that they flourish without help. So, for the gardener who yearns for a number of new things each year, annuals are best.

It must be remembered, however, that the strip will be dreary in winter unless a background of evergreens is provided. These may be planted either in a straight line behind the annuals or they may be set in groups, coming forward in some places and thus making bays which can be planted with the annuals.

**CONTINUOUS ATTENTION**  
The cultivation of annuals is a method of gardening which means the most work and the least expense. It is, therefore, suited to the man who likes to "potter" in the garden. Those who take up the cultivation of annuals seriously will have a wonderful show of bloom in the summer months. Annuals are not the plants for the idle gardener or the person who is content with one hour and indifferent for two; who grudges no pains in choosing in choosing his plants, but neglects the plants when once they are set out. Annuals must be studied and their individual requirements entered in a notebook. We seldom see happy annuals well grown. If one were to plant petunias, for instance, and they were given at least two feet between each plant in a narrow border, the result would be that they would look like small rhododendrons. The real truth is that annual plants are seldom given enough room in which to develop and the ground is seldom made rich enough. Do not go in for annuals unless you are prepared to treat them with respect. Don't plant them haphazard just because they are cheap.

Among the taller plants which may be used for the purpose under discussion are sunflowers, sweet peas, annual hyacinths, annual lupines, African marigolds, zinnias and sweet alyssums.

Annuals of between eighteen inches and two feet in height may be used for filling the strip and may be used in a mix. Shrivies, poppies, petunias, salpiglossis, tagetis, calceolarias, aster, stocks, clarkias, godetias, and annual linum.

**EDGINGS**  
For the edging of the strip such low growing things as annual alyssum, pansies and violas may be used with success.

Of course, the strip need not be planted altogether with annuals. It is quite a good plan to use perennials and annuals together. In fact, it is probably the best way of planting a strip. The annuals will carry on the bloom after some of the perennials have passed their best, so that the strip may be kept in bloom over a very long period.

If a narrow strip is planted with a selection of good perennials such as phloxes, delphiniums and Michaelmas daisies, for the taller kinds, with carnations, pinas, gallardias and coropis, and among these the annuals are interplanted, the result will be all the better.

**CONIFER BACKGROUND**  
The background may be of evergreen conifers such as junipers, cypresses or other subject that may be fancied. The dark green of the foliage of these shrubs will set off the color of the strip as nothing else can.

Another way of planting a narrow strip is to use one subject only. The result will be a great splash of color during the blooming period, but, when this is over, it is the end.

Perhaps the best way of all is to plant the strip partly with perennials and partly with annuals and to plant bulbs in the fall of the year for early spring bloom. These may be removed and new ones put in after they have flowered. The bloom may be lengthened by planting gladioli between the plants in the spring and these will keep the strip gay until quite late in the fall.

A very pretty strip can be made by planting dwarf polyantha roses such as Orleans, Edith Cavell and a dozen others. This strip will take very little work to keep going all summer long.

## WHEN FREIGHT CARS LEFT RAILS IN ONTARIO

Railway officials said a split rail made it possible for the above picture to be taken. The accident happened on the Canadian National line at Fifteen-Mile Creek, three miles west of St. Catharines, Ont. Fourteen cars were derailed, thirteen of them rolling down a fifty-foot embankment, one ending in the creek. The rest were strewn along the right-of-way. No one was injured, as the train broke almost in the middle of the line and the tail end cars were brought to a stop before the caboose reached the broken rails. Working crews had the track cleared after a delay of seven hours. Picture shows some of the cars scattered over the side of the embankment.

## SACRAMENTO IS SCENE OF FIRE

Aged Chinese Burned to Death in California City

Associated Press  
Sacramento, Cal., April 15.—Headquarters of the Chinese Benevolent Association were destroyed and five adjoining stores damaged in a fire here yesterday evening that took the life of a seventy-year-old Chinese and threatened death to nearly 300 others.

Firemen found the body of Ye Fong, 70, as soon as they were able to enter the smoke-filled structure containing the association headquarters. The building, a city landmark for almost forty years, was used in part as a home for elderly Chinese members of the society. Firemen said as many as 300 often were housed there.

All available fire equipment was called out to battle the blaze in the heart of Sacramento's Chinatown, situated adjacent to the business district and near the waterfront.

Origin of the fire was not determined. Unofficial estimates placed the loss at \$30,000.

### MAN LOSES LIFE

Wilfrid, Ont., April 15. (Canadian Press).—Discovery of charred human remains in the ashes of a barn in this Muskoka village led to the belief that a five-year-old boy, James Bagshaw, a bachelor farmer, was burned to death some time Tuesday evening. Bagshaw had been left alone at the farm while his relatives visited Sunderland.

## TWO WOMEN ON LONG FLIGHTS

Associated Press  
Kupang, Dutch East Indies, April 15.—Mrs. Harry Bonney, cousin of Bert Hinkler, noted Australian pilot, who was lost last January on an England-Australia flight, arrived here today from Port Darwin, Australia, on a flight to England.

She is attempting to beat the women's record for the distance—twenty days—set by Mrs. Amy Johnson, Mollison.

Seoul, Korea, April 15.—Maryse Hitt, French woman pilot, and her mechanic, who are flying to Tokio, arrived here tonight from Shanghai.

## BIG PROTEST IN NEW YORK

Associated Press  
April 15.—A vast throng of white persons and negroes and police numbered at nearly 10,000 packed Union Square here for three and a half hours yesterday in a mass meeting protesting the conviction of Heywood Patterson in the Alabama assault case.

One hundred uniformed policemen patrolled the park and others were concealed in nearby office buildings, but there was no disorder. The crowd cheered the speakers, sang the "Internationale" and dispersed quietly.

Among the speakers were Arthur Garfield Hays, counsel of the American Civil Liberties Union; Joseph Brodsky, counsel to the International Labor Defense; Professor Donald Henderson and Jennie Patterson, mother of the prisoner.

It is reported a bill is being prepared to provide for the next Congress providing compensation for golf widows.

## SODA WATER HAS BIRTHDAY

Priestley, Minister's Son, Discovered It While Playing Around a Brewery

Liquor Frauds in New Forms Being Encountered By New York Drinkers

New York, April 15.—This month should have been an especially significant one for historically-minded prohibitionists, and not because of the passage of the beer bill either. For, although everyone seems to have overlooked it, it appears to be the centennial anniversary of the birth of the discoverer of "soda water."

His name was Dr. Joseph Priestley, and he was a Nonconformist English minister who made science his avocation. One day he was putting around the brewery that was next to his parish house in Leeds, and found that the carbonic acid gas coming from the fermenting vats could be combined with water. It had a pleasant, tangy taste, so Dr. Priestley called it "soda water" and served it to his friends as a novelty.

Later Dr. Priestley found out how to produce pure oxygen, and in 1794, when he came to New York, he was feted as a great scientist. Then he moved to Northumberland, Pa. Up to the time of his death in 1804, he never dreamed of the commercial possibilities of carbonated water—the beer and ale business being what it was.

**BOTTLED FRAUD**  
One of the near-beer and sandwich shops in the Times Square district did a record business the other day; may still be doing it, in fact. It started in the morning when a customer, drinking a "bottle" of near-beer, wondered if there was any sig-

nificance in the fact that there was no label on the bottle. "Yeh," said the quick-witted counterwoman, who knew that the moist label had just happened to slip off the bottle, "that's the real stuff, and it'll cost you four bits. We figure they won't bother us, now the law is changed."

The customer ordered another bottle, sneaked his lips, and went out to spread the word around. The concessionaire snatched all the labels off their stock of innocuous beverage, and sold hundreds of bottles. Along about evening, though, the sidewalk loungers, who had been dropping in frequently, were agreed that the new stuff was certainly "non-intoxicating in fact."

Another drink-swindle story going the rounds concerns the disillusionment of a Broadway spender who paid for a seventy-five-gallon barrel of mellow old Bourbon whisky. It was offered him by a simple-looking ruralite from New Jersey, who had a straightforward story about how the stuff had been in his cellar for many years, and why he had to sacrifice it for only \$750 cash.

The spender was cautious, to a degree. He insisted on sampling the liquor and having it tested. The analysis was convincing: "A pure and palatable Bourbon, at least fifteen years old." The customer paid over the money and made sure that the barrel delivered was the same barrel he had sampled.

Then he gave a little party for about a dozen friends. They drank the contents of a quart decanter he had drawn from the barrel, and complimented his sagacity. Then the Big Spender went down to fill the decanter again. He came back looking rather pale. There wasn't any more whisky.

He and his friends took an axe to the barrel. They found it contained exactly seventy-four gallons and three quarts of water. Down around the spigot, inside the barrel, was a cleverly constructed little bukhaid; capacity one quart.

## BLACK SNAKE SURPRISES POLICE

Jake Awakes in Broadway Ash Can, Peers Out to Jolt Patrolman

After Shedding Winter Coat Wanderer Is Taken to S.P.C.A. Hospital

New York, April 15.—Jake, a four- and one-half-foot black snake, awakened yesterday noon and found himself in strange surroundings. Where he had been the night before is a mystery, but there he was, in a refuse can, placed by the Department of Sanitation at the southwest corner of Broadway and Thirty-sixth Street.

It was no place for a snake, and Jake, gathering what will-power and self-respect he had left, spent the next hour and a half dressing himself of the remnants of his winter coat. It was shabby, and beginning to show a greenish tinge. That accomplished, he started out for some place where he could find a mate.

The morning paper in the ash can reminded him of what he had had the night before was not the McCoy. At exactly 1:30 p.m. fate and the arm of the law intervened. Patrolman Tait of Traffic C. young, ruddy-faced and alert, happened along as Jake reached his head out of the top of the refuse can. He looked at Jake and looked around. Everything else seemed normal. It probably was a snake, said Patrolman Tait, and he phoned for the A.S.P.C.A.

William Ryan and Gerald Keston of that organization took Jake in charge by the simple process of using a forked stick and a pair of blueproof gloves. Ryan and Keston confessed later that they did not know if black snakes were poisonous and were taking attitude was that the "ing was a menace, and the story should be hushed up.

Jake spent the night at the A.S.P.C.A. hospital at Avenue A and Twenty-fourth Street and probably will be transferred to the Bronx Zoo, where there is no 32. Inquiry at the zoo brought the information that Jake's probable age, judging from his size, was about three years; too young for beer, anyhow.

## RAIL SEIZURE PLANS REPORTED

Moscow Paper Says Japanese Mean to Oust Russians From Line in Manchukuo

Associated Press  
Moscow, April 15.—Soviet government organ published a special dispatch from China, Siberia, today charging "Japanese circles" in Manchukuo had decided on definite seizure of the Chinese Eastern Railway on May 1, which is one of the Soviet Union's main holidays.

The Chinese Eastern Railway was built through Manchuria by Russia more than thirty years ago for access to the Pacific Ocean. It has been jointly operated in the last year by Russia and Manchukuo.

The China dispatch added that Japanese already were preparing the ground for the action by making trumped up demands for the return of engines and freight cars not belonging to the Chinese Eastern Railway. These were withdrawn by the Soviet government during suspension of traffic due to the Manchurian conflict, the destruction of bridges and the arrest of Soviet citizens in Manchukuo, it said.

## MAN IS CHARGED WITH ABDUCTION

White Plains, N.Y., April 15.—George Cooper Jr., twenty-five, alleged to have lured two artists' models to his home on the pretext he wanted them to pose, was held in \$25,000 bail today on charges of abduction and assault.

The models, Mrs. Louise Croothoff and Miss Mary Louise Harper, said Cooper had engaged them through an agency, driven them to his home from the railroad station and then taken them to the attic and kept them bound and gagged there four hours while he read a book. Later he untied them and drove them back to New York.

Cooper explained he was "too shy" to ask a girl for a date, and "just wanted their company," he expressed surprise when they brought the charges against him, saying they had been "perfectly friendly on the way to New York."

Cooper was unable to raise the bail yesterday and was sent to jail.

## Orders Swamping Chicago Breweries

Associated Press  
Chicago, April 15.—Local brewers today reported the return to customers of \$250,000 because of inability to fill their orders for beer. One brewer said:

"It's all very hopeless. We are behind in our orders more than 200,000 cases and thousands of barrels."

Suspenders are universally worn in Trinidad.

## FERNAND RABIER DIES IN PARIS

Associated Press  
Paris, April 15.—Fernand Rabier, former vice-president of the French Senate, died today.

M. Rabier was re-elected to the Senate last fall. He formerly served as a deputy and was vice-president of the chamber for a time.

## COMMISSIONER SEEKS DAMAGES

Associated Press  
Fort Angeles, Wash., April 15.—County Commissioner Ben Arndt, Fort Angeles newspaper publisher, has struck back at his recall foes by filing a \$50,000 damage suit against thirty-four prominent business men of Fort Angeles.

Arndt, who had filed the recall charges against him, was charged with having entered into a fraudulent agreement for the purchase of \$2,547 worth of lumber to construct a bridge for the county, and with having bought an automobile for which no appropriation had been made. Commissioner Arndt denies the truth of the charges.

In connection with the lumber purchase, Basil Rose, Fort Angeles merchant, is under arrest on a second degree perjury charge, accused of having sworn to a bill and received warrants for \$2,547 to pay for the lumber when none of it had been cut.

Arndt filed his suit yesterday.

THEY WORK STEADILY

Six men are constantly employed working the private looms belonging to the Marquess of Bute, England, making tapestries for his castle. The coarsest tapestry costs \$10 a square foot.

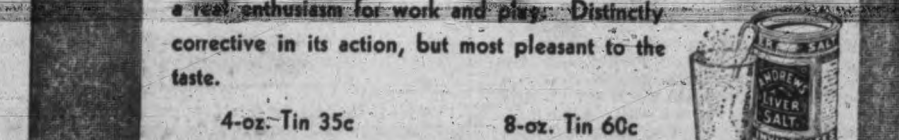

## Have you the hungry zest of youth?

IT IS easy to be keen for your meals and suffer no ill effects afterwards—when you are a youngster at school. It is not very difficult, even now, if you are willing to learn the secret which Andrews brings. Zest is your natural heritage.

The occasional headache, the occasional "off-color" day is the danger signal to the wise man or woman. Call upon Andrews to keep your system swept free of toxic poisons. Do not be content with feeling "fairly well." Let a sparkling draught of Andrews show you the way to renewed appetite, a real enthusiasm for work and play. Distinctly corrective in its action, but most pleasant to the taste.

## MOVED LIKE A DOLL

Had to be Helped Off with His Coat

### NOW AS ACTIVE AS EVER

How happy this man must feel to be strong and fit again, after being a victim of rheumatism for so long. "It is many years now," he writes, "since I was first laid up with chronic rheumatism. Then I had to go about with two sticks. I worked in misery until five years ago. I could only move like a wooden man by turning round altogether. I could not get my coat off without my wife's help. But, thanks to Kruschen Salts, which I have taken regularly now for five years, I am as active as a young man of 25."—E. H.

Why continue to get only temporary relief from rheumatism when you can obtain lasting comfort and remove the cause of your rheumatic torment with Kruschen Salts? Here is a plain statement of the facts—Two of the various salts of which Kruschen is composed dissolve the needle-pointed crystals of uric acid which have settled in your joints, causing them to swell, ache and inflame. Other ingredients of Kruschen assist Nature to flush out these dissolved crystals through the natural channels. Other ingredients

## SPRING SHOW CUP COVETED

Competition to Be Keen This Year For Victoria City's Award

Competition at the Spring Flower Show this year for the challenge cup presented by the City of Victoria will be keener than ever before. The cup, which is awarded to an affiliated society staging the best entry in the class for district displays, is one of the most important competitions at the spring show. Each entry consists of a display of outside-grown flowers, shrubs and plants occupying a space eighteen feet by six feet in area and built up on a series of tiers to a height of over six feet.

## SIDE GLANCES

By George Clark

"They don't think of nothing but fashions! Why can't women be like us men, and all dress the same?"

## COACH BUILDERS' CONTEST

Lesson Twenty-one

By FRANK C. BIESS  
Technical Director, Fishery Body  
Craftsmen's Guild

It is evident that the quality of craftsmanship which will be displayed in the 1933 Napoleon coach models in the \$85,000 competition sponsored by the Victoria Times and the Fishery Body Craftsmen's Guild will greatly surpass that in the previous guild competition.

A question frequently asked relates to the fellow shoe block and plates. There are several ways in which detail may be worked, and it is left to individual choice which method is used.

One suggestion is to cut the fellow

block out as a part of the fellow rim itself. In this case, the plates would be made to cover the sides of the shoe, as shown in sketch "A" of illustration No. 45.

When a turned block is used, the plate construction will be somewhat different, as shown in sketch "B". Casting the fellow shoe and spoke shoe plates in one way of handling these details, but care will be taken to avoid having the detail stiff and clumsy, a criticism offered by the judges last year.

A method of making dies for the plates which is simple, effective and within the ability of any boy to make, is shown in illustration No. 46. A piece of steel or fairly heavy brass is cut and filed to shape and fastened to the end of a piece of wood by means of a screw, the head of which is used as a part of the central design.

These cross-sectional views of the fellow shoe illustrate two methods which may be used in making up this detail. Note that the plates are applied on both sides of the fellow rim. This also applies to plates spoke shoe.

of 3c per pound on the malted barley used in the manufacturing of their respective products, i.e., beverage malt extract, and malted barley. The new ruling places an additional tax of 50c per pound on beverage malt extract and nothing on brewery beer. In other words, this tax, which it is now proposed will increase the government's revenue, will have exactly the opposite effect. The tax has raised the price of malt syrup so high that it is now beyond the means of the users to purchase, and the result has been the closing down of this entire industry with its consequent loss of revenue for the government and, what is far worse, unemployment for thousands of those affected.

Some 60 per cent of the independent malters in the Greater Toronto area alone there are at least 1,000 workers who depend for a living entirely on the sale of this product. These men have all been sentenced to unemployment by this new tax.

All business runs on credit, and hundreds of thousands of dollars' worth are involved in this business, little of any of which will be collectable.

The home-brewing interests do not share the view of the government. They are supplying a new product which has been demanded by and has been within the reach of the pockets of Canadian Canadians, and they are utterly at a loss to understand why they have been made the victims of what they cannot but think is a flagrant piece of class legislation.

The subjects of this sign usually have good intellects, and many succeed in making a good living out of it.

Those who have celebrated it as a birthday include William Lincoln Homestead, 1886, mining engineer, and Charles Chaplin, 1889, screen comedian.

Adverse planetary aspects seem to dominate the day according to astrology. This should be a day of preparation for future events.

Women are subject to unfavorable planetary influences while this rule continues.

Those in public office may be subject to unjust criticism for envy will be prevalent at this time.

For many months women have been under a great deal of stress and strain in their relations to the business and professional world. The seers counsel patience and wise procedure in public affairs.

All the arts are under unfavorable influences. It is indicated that musicians, painters and actors should devote attention to improving their technique.

While the summer is to provide employment for many artists, especially in the autumn, it is to be the time when several demands for them will be made.

There is a good sign for writers and editors. New principles will win success, if it is promulgated.

The eastern coast of the United States and the West Indies should now benefit greatly, due to the kindly influence of Jupiter.

Persons whose birthdate it is have the privilege of a year of measure that may tempt too much extravagance. Women may

occupy too much attention on the part of certain men.

Children born on this day probably will be imbued with love of life and ship to make much of their opportunities. The subjects of this sign usually think much of appearance.

Pierpont Morgan, capitalist, was born on this day, 1817. Others who came into the world on this day include Arthur Bennett Bennett, 1816, architect, and Samuel Austin Allibone, 1816, bibliographer.

Atlanta, Ga., April 10.—Robert E. Coleman, who served four years on a chain gang for a crime he did not commit, was pardoned yesterday by Governor Eugene Talmadge.

Coleman was convicted of slaying his bride and was sentenced to life imprisonment. James Starks, a negro, serving a term for burglary, on Thursday told officers he had beaten Mrs. Coleman to death with a poker the night of March 14, 1929.

He said Mrs. Coleman had thrown a chair at him when he went to her home and "talked to her."

Questioning of Starks resulted from a "tip" given by another negro under sentence of death for another murder.

## Regimental Orders

### FIFTH (B.C.) COAST BRIGADE, C.A.

Duties for week ending April 22: Orderly officer, Lieut. Ridgeway-Wilson; next for duty, Lieut. W. B. Barker. Orderly sergeant, Lieut. J. A. Aikin; next for duty, Lance-Sergeant E. Stanleigh. Orderly bombardier, Lance-Bombardier C. A. Porter; next for duty, Lance-Bombardier F. H. Foster.

All units of the brigade will parade under their respective battery commanders at the armories on Tuesday, April 18, 1933. Fall-in at 7:35 p.m. Dress: drill order (khaki).

The annual camp will be held at Port Macaulay as follows: 55th and 56th heavy batteries C.A. Friday, June 16, to Wednesday, June 28. Battle practice Saturday, June 24, held in conjunction with R.C.A. Macaulay and Belmont batteries being manned.

Gunlayers and depression rangefinders' examinations will be as follows: At the Armories 8 p.m. June 6 and 13; at Port Macaulay 10 a.m. June 11, 1933.

Members of the brigade intending to participate in rifle shooting on Heala Range may draw rifles. Bonds for same must be endorsed by officers commanding batteries.

The following extracts from A.P. and R. Nos. 3464 of 1933 are republished for the information of all concerned: Fifth (B.C.) Coast Bde.—55th Heavy Battery—to be Lieutenant: Second Lieut. (sup.) C. A. Smithwhite, Jan. 15, 1933. Lieut. (sup.) N. A. Robertson is absorbed into the establishment 12th Heavy Battery (How.) (Attd.). To be Lieutenants: Second Lieut. C. W. Barker, Feb. 3, 1933. Second Lieut. W. H. O. Lambert, Feb. 4, 1933. 56th Field Battery, C.A. (Attd.). To be Lieutenants: 2nd Lieut. F. Ridgeway-Wilson, Feb. 2, 1933.

Anti-aircraft Section—to be Lieutenant: Second (sup.) T. McGimsey, Feb. 9, 1933.

The commanding officer takes this opportunity of congratulating members of the rugby team in winning the Cowichan challenge trophy. The Victoria Rugby Union is holding a dance at the Shrine Auditorium on Monday, April 17, at which all cups and trophies will be presented by the district officer commanding M.D. XI. All members of the brigade are requested to attend. Dress: mufli.

S. R. BOWDEN, Capt. and Adj.

### FIRST BATTALION (IGH C.L.F.) THE CANADIAN SCOTTISH REGIMENT

Duties for period ending April 25:

Orderly officer for week ending April 22, Lieut. H. T. Scott; next for duty, Second Lieut. R. E. M. Yernburgh. Orderly sergeant for week ending April 22, Sgt. D. Richards; next for duty, Sgt. V. Harford.

The company will be fallen in ready for inspection by the O.C. at 8 p.m. Tuesday, April 18. (Markers will report to the O.C. or in his absence to the orderly sergeant, at 7:35 p.m., the company being formed in close column at five paces). Personnel posted to the "recruits" pool will fall in on the left of the platoon by which recruited.

A voluntary parade is being conducted from 8 to 10 p.m. on Thursday nights for the purpose of training all ranks in infantry drill and tactics.

Training on Tuesday, April 18, will be carried out by platoons in accordance with that laid down in the syllabus posted on the company notice board. Subjects: "Systems of Reference" (lecture), gun drill (T.O.E.D.) and immediate.

Following are the points obtained by platoons in the spare parts test, conducted on the evening of April 11, 1933: No. 1 Platoon 84 points, No. 2 Platoon 96 points, No. 3 Platoon 100 points.

Rules governing the conduct of the competition for the Victoria Day Celebration Committee Shield, to be competed for in Victoria or vicinity on

## Orderly officer, Lieut. B. H. Lamont, next for duty, Lieut. R. H. Allen. Orderly sergeant, Lieut. G. Shinnar, next for duty, Lieut. J. Warburton; orderly corporal, Cpl. C. Hartigan; next for duty, Cpl. C. Plowright.

The battalion will parade as follows: Monday, April 17, at the Armories, at 8 p.m. Dress: drill order.

Thursday, April 20, at the Armories, at 7:30 p.m. Dress: drill order.

Training, Monday, April 17—A voluntary parade in preparation for the D.O.C.'s inspection will be held. All specialists and any men needing extra drill are requested to attend.

The annual inspection of the battalion by the District Officer Commanding will be held at the Royal Athletic Park (weather permitting) on Thursday evening. The inspection of specialist groups will be held in the Armories after the battalion parade.

The Officer Commanding requires a full turnout of all ranks.

All ranks in possession of text books on loan from the orderly room must return same immediately as they are required for inspection.

Transfer to reserve—The following extract from District Orders is published for information: "Canadian Scottish Regiment, First Bn. Capt. R. O. Christy is transferred to the Fifth Reserve Bn., effective December 21, 1932."

Discharges—The undermentioned having completed their enlistments are honorably discharged: Pte. C. Nichols, "A" Company, 13-4-33.

Leave of absence—The Officer Commanding has granted leave of absence to the undermentioned from 13-4-33 to 1-5-33: Lieut. J. V. Byrne, Lieut. C. Forbes, Lieut. G. Paradise.

Promotions—To be A-Cpl. Drummer, Drummer A. Ramsey, 13-4-33.

O. J. WEILER, Capt. and Adjutant.

## BATTALION, C.M.G.C.

Orderly officer for week ending April 22, Lieut. H. T. Scott; next for duty, Second Lieut. R. E. M. Yernburgh. Orderly sergeant for week ending April 22, Sgt. D. Richards; next for duty, Sgt. V. Harford.

The company will be fallen in ready for inspection by the O.C. at 8 p.m. Tuesday, April 18. (Markers will report to the O.C. or in his absence to the orderly sergeant, at 7:35 p.m., the company being formed in close column at five paces). Personnel posted to the "recruits" pool will fall in on the left of the platoon by which recruited.

A voluntary parade is being conducted from 8 to 10 p.m. on Thursday nights for the purpose of training all ranks in infantry drill and tactics.

Training on Tuesday, April 18, will be carried out by platoons in accordance with that laid down in the syllabus posted on the company notice board. Subjects: "Systems of Reference" (lecture), gun drill (T.O.E.D.) and immediate.

Following are the points obtained by platoons in the spare parts test, conducted on the evening of April 11, 1933: No. 1 Platoon 84 points, No. 2 Platoon 96 points, No. 3 Platoon 100 points.

Rules governing the conduct of the competition for the Victoria Day Celebration Committee Shield, to be competed for in Victoria or vicinity on

## EMPLOYMENT OF WIVES OPPOSED

Ward Seven Sanitarium Ratepayers yesterday evening appointed a delegation to interview the School Board and protest against employment of married women teachers whose husbands are also employed in other posts.

E. Wilkinson, president, James Pickard, secretary, and H. H. Grist compose the delegation, which will see the board at its next meeting.

The theme of the protest is that when a woman, whose husband is also receiving a salary sufficient for living needs, is employed in the schools, she could be replaced by someone in greater need of employment. In cases where the husbands are out of work, the employment of a married woman might be overlooked.

The association yesterday evening also appointed committees to handle a dance which will be sponsored at the Mount View High School auditorium to raise funds for needy children.

May 24, 1933, also rules for the recruit and Forster Cup matches have been issued by the commanding officer. A copy of the conditions to be observed has been posted on the company notice board.

It should be noted that the recruit and Forster Cup matches will be conducted at Mission, B.C., on June 3.

Results of past training should be obtained at T.O.E. (gun drill) on Tuesday, which will determine the personnel best fitted to represent A Company in the competitions referred to above.

## NEW TAX MAKES THOUSANDS IDLE

Home Brew Levy Imposed By Ottawa Kills Whole Malt Syrup Business

Grocery Stores and Other Retailers Hit as Home Owner Is Deprived

Toronto, April 15.—The federal government, through its new tax of 50c per pound on beverage malt syrups, has assisted the breweries and their retail departments, the various provincial governments, to establish a virtual monopoly in the supplying of beer to the Canadian citizen.

Over a period of ten years the use of malt syrup in the manufacture of home-brewed beer has grown by leaps and bounds, some 4,000,000 pounds sold last year for this purpose is an indication that at least some few citizens are satisfied with their home-made beverage, just as the housewife is satisfied with her home-made cakes (incidentally, why not legislate against home-baking?)

The growth of this industry has directly and indirectly provided employment for thousands of Canadians, from the Canadian farmer who grows the barley and who must supply some 250,000 bushels of malted barley yearly for this purpose, down through the manufacturers, brewers and retailers who make a living by supplying these goods. The hop growers and dealers, can manufacturers, suppliers of cartons, labels, caps and growlers, and a printed design to go with the business, all will be affected; and the Canadian laboring man, indicated by the 200,000 or more permits for home-brewing issued by the excise department, will have taken away from him the right that has been his since Confederation.

Up to the time of his new tax the brewers and the manufacturers of beverage malt syrup paid an excise tax

## Uncle Ray's Corner

A Little Saturday Talk

A short-while ago, I was sitting in my office thinking of what I might write for you to read on this April day. Then my eyes wandered to a large drawer containing hundreds upon hundreds of letters from readers. These letters have been handled by my helpers, and have been sent to those who enclosed returned envelopes, but they have been saved for me to look over again during my "extra" time.

Coming to the drawer, I took out a large number and went over them one by one. Many of the letters say, "Please send me the Surprise Leaflet" or "I enclose envelope for Forty Good Riddles Leaflet," with only a few other words; but others are long. Here is part of one in which a young reader describes himself:

"I am eleven years old. I have dark hair, dark eyes and dark complexion. I weigh seventy-four and one-half pounds. For pets I have a little white kitten called Doodle-bug, a dog called Stubby and a cow called Jane."

A neatly written letter from a boy contains this paragraph: "I like the idea of boys and girls telling others about the value they find in our part of the paper."

Another reader has typewritten his letter and starts it: "Dear Mr. Ray. He ends it, 'Yours for friendship, Henry Borow.' Henry may be interested to know that the "Ray" comes from my first name, not from my family name.

The next letter before me was written by a little girl. She does not tell her age, but I should guess that

she is eight years old. At the end she writes, "Love, Lois." An assistant has marked the letter to show that a Surprise Leaflet was mailed to Lois. I return envelope which she sent; but I am sorry that Lois did not put her name on the letter itself.

When you write a letter to me, be sure to give your full name and your full address on the sheet inside the envelope; and also write your address to the outside of the envelope, in the upper left-hand corner.

Would you like to join our 1933 Scrapbook club? It is not too late, and we shall welcome you as a member. Enclose a stamped return envelope, and ask for a leaflet telling how to make a Corner scrapbook.

Use This Coupon to Join Our New 1933 Scrapbook Club:

Care of (Name of City)

Dear Uncle Ray: I want to join the new 1933 Uncle Ray Scrapbook Club and enclose a stamped envelope carefully addressed to myself. Please send me a Membership Certificate, a leaflet telling how to make a Corner scrapbook of my own, and a printed design to paste on the cover of my scrapbook.

Up to the time of his new tax the brewers and the manufacturers of beverage malt syrup paid an excise tax

which, up to date, he has enjoyed the

privilege of making for his own consumption.

According to astrology this is not a fortunate day in planetary direction. Adverse aspects are active.

The morning hours are read as auspicious for many artists, especially in the afternoon. The subjects of this sign usually have good intellects, and many succeed in making a good living out of it.

Discussion of money matters may be especially unfortunate to-day. It is well to forego the work of the week just past.

There is a sign believed to encourage deceit and lack of truth in human affairs. The seers warn that those who are inclined to argue, quarrel may be readily attacked, especially those who depart from frankness find it easy to deceive themselves and others.

Warning is given that dangerous propaganda will affect many whose minds are undisciplined and thoughtless.

Persons whose birthdate it is have the privilege of a year of measure that may tempt too much extravagance. Women may

occupy too much attention on the part of certain men.

Children born on this day probably will be imbued with love of life and ship to make much of their opportunities. The subjects of this sign usually think much of appearance.

Pierpont Morgan, capitalist, was born on this day, 1817. Others who came into the world on this day include Arthur Bennett Bennett, 1816, architect, and Samuel Austin Allibone, 1816, bibliographer.

Atlanta, Ga., April 10.—Robert E. Coleman, who served four years on a chain gang for a crime he did not commit, was pardoned yesterday by Governor Eugene Talmadge.

Coleman was convicted of slaying his bride and was sentenced to life imprisonment. James Starks, a negro, serving a term for burglary, on Thursday told officers he had beaten Mrs. Coleman to death with a poker the night of March 14, 1929.

He said Mrs. Coleman had thrown a chair at him when he went to her home and "talked to her."

Questioning of Starks resulted from a "tip" given by another negro under sentence of death for another murder.

# Easter Music At Churches To-morrow

## SERMON ON THE MOUNT

Eleventh Successive Easter Sunrise Service at Mount Tolmie To-morrow

The Easter Sunrise Service, originated by Rev. Dr. Clem Davies, on Easter Sunday, 1923, on Mount Tolmie, will be held to-morrow morning at 7 o'clock, on Mount Tolmie. This will be the eleventh successive service. The Fifth Coast Brigade Band, under the direction of Charles Raine, will play the music for the hymns, the following being in the order of service: "Easter Hymn," "Hail to the Lord's Anointed," "All Hail the Power of Jesus Name," "Low in the Grave He Lay," "The Day of Resurrection."

The Easter scripture reading will be read responsively by the congregation and minister. The episcopal form of order of service will be partly followed from the Prayer Book with the call to repentance, the general confession and absolution. Dr. Davies will deliver the sermon with "Immortality" as the theme. The utmost simplicity will rule the gathering for the worship. A large chorus will stand in front of the platform, below the cross, and with the band will lead the singing. They have taken My Lord Away (Stainer).

Appropriate to the spirit of Easter-time, the evening service at the City Temple to-morrow will take the form of a lecture-sermon by Dr. Clem Davies on "The Passion Play: In Picture and Story." The story will be illustrated by lantern slides.

Ira D. Sankey's great hymn, "Beneath the Cross of Jesus," will be sung as a duet by Miss Dorothy Butledge and Alva Wetherell, both festival medalists. As a contralto solo, Miss Violet Wilson will sing the spiritual, "Were You There When They Crucified the Lord?"

Musical features of the morning service will be a mezzo-soprano solo, "Hosanna" (Granger), by Miss Dorothy Parsons, recent gold medalist, and two solos by the boy soprano, Master James McVie, who will render "Beautiful Isle of Somewhere" (Pearle), and "My Task" (Ashford).

## DESCENDANTS OF ISRAEL THEME

W. H. Blackaller will address the Victoria British-Israel Association Tuesday, at 8 o'clock. The subject will be "Anglo-Saxons Are Not the Descendants of Israel, What Nation Is?" The meeting is under the auspices of the Federation of Canada and will be held in the Macabees Hall, 724 Fort Street.

## Anglican Services

Festal Evening—7.30 o'clock.

## EASTER TEA

Wednesday, April 19  
3 to 6 p.m.

## Germany and Jews Biblical Prophecy

"Germany and the Jews" will be the subject of E. E. Richards' address on Monday, at 8 o'clock, in the Campbell Building, Douglas Street. Mr. Richards will speak on the question from the point of view of the "Ten Tribes House of Israel," and in the light of Biblical prophecy, supported by world events now taking place. The address will be illustrated by lantern slides.

## LIFE OF JESUS WILL BE SHOWN

Lantern Slides Will Illustrate Seasonable Theme at Fair-field Church

All the services in Fairfield United Church Easter Sunday will be special, with Dr. Henry, the minister, in the pulpit. At 11 o'clock in the morning Easter Communion will be celebrated. The sacrament table is open to all Christians and Easter Sunday is an appropriate time for Thanksgiving and fellowship.

At 2.30 p.m. there will be an open session of the Sunday school. Lantern slides of events in the life of Jesus will be shown and explained. The Sunday school scholars and all adults who care to share in an Easter offering are asked to bring at least one fresh egg. Later the eggs will be used in welfare work.

In the evening at 7.15 there will be the usual congregational song service, with Dr. Henry giving a short address on "If Christ Be Not Risen." Music appropriate to the Easter season will be a special feature of the day's services. In the morning Mrs. W. S. Moore will sing "I Know That My Redeemer Liveth" (Handel), and the choir will give the anthem, "They Have Taken My Lord Away" (Stainer).

The musical programme at the evening service is as follows: Solo, "Redemption" (Parry); recital, "The Gates of the Temple" (Knappe); Mrs. H. Bennett's anthem, "Hark Unto Me, My People" (Bullman); male chorus, "Christ Arose" (Lowry); trumpet solo, "There is No Death" (O'Hara); Master Alex. Ward's recital, "Hosanna" (Granger).

A special appeal is being made on behalf of financial needs, and all who can are asked to show appreciation for the gift of God's grace in the Easter message, by making a gift for His cause. The mothers of the children of the Day Mission are invited to visit the band Monday afternoon in the school hall.

## EVANGELISTS AT ST. PAUL'S

Fraser Brothers Attracting Large Audiences Each Night

The mission conducted by the Fraser brothers, Scottish evangelists, at St. Paul's Presbyterian Church, has continued to draw large and attentive audiences each evening during the week. Interest is growing in these able exponents of the gospel, who excel both in the gripping argument of their preaching and in the exquisite melody of their singing. Mrs. Fraser, also, has a voice of exceptional depth and sweetness.

The special programme on Easter Sunday will commence with a sunrise service, under the auspices of the Young People's Christian Endeavour, at 7 o'clock.

At 11 o'clock worship, Robert Fraser will be the speaker, his subject being "The Joy of Easter." In the afternoon, at 2.30 o'clock, there will be a special young people's service, which is open for all adults and friends, when gifts of eggs from the members of the Sunday school will be received for the benefit of the Protestant orphanage. The children are also asked to bring flowers on Saturday afternoon for the sick and shut-ins.

The whole of these services will be taken by the Fraser brothers, who, with Mrs. Fraser, will preach and sing, assisted by the choir. It is hoped to have the newly-renovated organ reinstated for Easter Sunday. Special parts from New York have been added, and the instrument is in first-class condition. On Monday night six Prince Consort lectures will be given, a special lantern lecture in St. Paul's, showing 100 beautiful slides, illustrating Scotland in history and romance.

## MUSIC FEATURED AT JAMES BAY

United Church Programme Under Direction of Chris Wade

Easter music will be a feature of the Sunday evening service at James Bay United Church. The programme, which will be under the direction of Chris Wade, will be as follows: Orchestra voluntary, "L'Oracolo Suite" (Leon); instrumental trio, Mendelssohn's trio in D minor, "Molto Allegro Agitato"; violin and piano, Beethoven's concerto in D minor, "Christus, der Erlöser"; vocal solo, "Resurrection" (Florence Gunn); anthem, "There is a Green Hill Far Away" (J. Booth); duet for two violins and piano, Beethoven's concerto in D minor, "Christus, der Erlöser"; vocal solo, "Resurrection" (Florence Gunn); anthem, "Still, Still With Thee" (C. Forrester).

Rev. W. R. Brown will conduct the service and deliver a short sermon on the subject, "The Darkest Hour Is Before the Dawn." The Sunday school will meet at 11 o'clock, and there will be a special rally of all departments. In the senior department Justin Gilbert will lead the discussion on the Resurrection. The mid-week meeting will be on Wednesday evening, at 7.30 o'clock.

## CHRIST IS RISEN

"Christ the Lord is risen today," Sons of men and angels say. Raise your joys and triumphs high; Sing, ye heavens, and earth reply.

—Charles Wesley

## CANTATA AT FIRST BAPTIST

Message of Easter Will Be Given in Sermon and Song

Special Easter services will be held both morning and evening at the First Baptist Church on Sunday. The message of Easter will be given in both sermon and song, and the church will have floral decorations in keeping with the day.

The evening service will be almost entirely choral, and will consist chiefly of excerpts from Mander's "Olivet to Calvary," a cantata which recalls simply and reverently the scenes which marked the last few days of the Saviour's life on earth, and some of the reflections suggested thereby.

At the morning service Rev. G. A. Reynolds will speak on "The Resurrection of Jesus," and in the evening the subject will be "My Personal Recollection."

Morning service—Solo, "I Know That My Redeemer Liveth" (Handel), Mrs. R. McIntosh; solo, "The Resurrection" (Shelley), Mrs. H. Lasenby; choir, "Hallelujah" (Smart); male quartette, "Did He Die for Me?" (Wilson), Messrs. Honeychurch, Dinmore, Richardson and McEwan; solo, "The Holy City" (Adams), Stanley Honeychurch.

Evening service—Solo, "Easter Eve" (Gounod), Miss H. Barr; solo, "Hosanna" (Granger), Miss Edith Howell; excerpt from "Olivet to Calvary," choir, "O'er the Steep of Olivet," solo, "Before Jerusalem," Mrs. McIntosh and Miss Barr; solo, "Another Temple," Mrs. McIntosh; choir, "Bow Down Thine Ear," choir, "O Thou Whose Sweet Compassion," solo, "O There Ever Loneliness Like His" (Mrs. McIntosh); choir, "The March to Calvary," choir, "We Declare Unto You Glad Tidings," solo, Miss Freda Spencer.

## DECORATIONS AT ST. JOHN'S

Easter Lilies and Spring Flowers Beautify Church

St. John's Church will be beautifully decorated with masses of Easter lilies and spring flowers for the Easter services, which will consist of Holy Communion at 7.15 a.m., Holy Communion at 8 a.m., morning prayer, and Holy Communion at 11 a.m., and a festival evening at 7.30 p.m.

The rector, Canon F. A. P. Chadwick, will preach at the 11 o'clock service on the subject of the "Resurrection of Christ." At the evening service Ven. Archdeacon Laycock will be the preacher.

The music for the day will include the organ prelude for the morning service, "I Know That My Redeemer Liveth," from Handel's "Messiah," and the organ recital before the evening service will include the "Alleluia Chorus" from Handel's "Messiah." The Kyrie will be by Mendelssohn and the Sanctus by Plummer, the Te Deum being sung to the festival setting by Villiers Stanford. The anthem will be "They Have Taken Away My Lord," by Sir John Stainer, and the Magnificat and Nunc Dimittis by Christopher Marks.

The Sunday school and A.Y.F.A. Bible class will assemble at 10.45 and attend the morning service in the church. The Spiritual Science Temple will stage a discussion at 3 o'clock to-morrow at 1406 Douglas Street. At 7.30 there will be a joint service at the First Spiritual Church; Broad Street, on Monday at 7.30 o'clock a joint social will be held for members and friends of the two churches, at 1406 Douglas Street. There will be games, cards and dancing for the young folks. Ladies will take refreshments. STRANGERS MADE WELCOME.

## IMPRESSIVE DAY PLANNED

Services of Outstanding Solemnity at Metropolitan Church Sunday

Easter Day will be celebrated in Metropolitan Church in two services of outstanding beauty and solemnity. The pulpit will be decorated with a profusion of flowers for the occasion which will give the services the floral touch so appropriate for this great festival of the church.

The services will be choral morning and evening, with brief Easter homilies by the pastor, Rev. E. F. Church. Special features will be the dedication of the acousticon, recently installed by the Temple Shrine Band and used for the first time Sunday morning. This will be followed by a reception service for new members and Holy Communion.

The evening service will have as one of its musical devotions the singing of the "Hallelujah Chorus," with the background of the illuminated Cross. The musical programme of the day is very rich in the beautiful music of Easter time, and Metropolitan's great choir will be heard at its best. The programme for the day follows: Morning—Anthem, "Light's Glittering Morn" (West); solo, "Angels Roll the Stone Away" (Prindle Scott), Miss Mary Pley; Evening—Anthem, "O Saviour of the World" (Moore); solo, "Hosanna" (Granger); Miss Dorothy M. Parsons; anthem, "When Mary Through the Garden Went" (Stanford); choir, "Hallelujah" (Handel).

For half an hour previous to the evening service Edward Parsons will play a special Easter organ recital on the Metropolitan's great organ, including "The March to Calvary" from "Olivet to Calvary" (Mauder); fantasia on "The King of Love" (Wood); "An Easter Prelude" (Barton); and "Andante Cantabile" from "Fifth Symphony" (Tchaikovsky).

The junior church will meet at 11.05 a.m. and the theme will be "Eton, the Christian." The number attending is growing every Sunday and all the boys and girls that are not attending any other service are invited to attend.

On Monday evening one of the most interesting programmes of the season will be given, which will attract a number of those who were awarded first class honors in the Musical Festival will take part in "Festival Review." The public is invited to attend.

## BAPTIST CHURCH

FIRST BAPTIST CHURCH, QUADRA AT 11 Mason St.—Rev. G. A. Reynolds. Morning service, 11 o'clock. Evening service, 7.30 o'clock. Easter services and music at both services.

## CHRISTADELPHIAN

ORANGE HALL, COURTNEY STREET—Morning, 11 o'clock. Evening, 7.30 o'clock. "Britain in Prophecy." All are welcome.

## GOSPEL HALL

OAKLANDS GOSPEL HALL, COR. HILL—Morning, 11 o'clock. Evening, 7.30 o'clock. "Britain in Prophecy." All are welcome.

QUAKER MEETING HOUSE, PERN ST.—off Port St.—Meeting for worship 11 a.m. Sunday school, 12 a.m.

## SPIRITUALIST

SONS OF ENGLAND HALL, BROAD ST.—First Spiritual Church and Spiritual Science Temple joint Easter services. Open circle 3 p.m.; 7.30 Rev. F. Frampton, Mrs. Johnson, Mrs. Blackett, flower messages Mrs. Frampton, Mrs. Burny.

## THEOSOPHY

VICTORIA INDEPENDENT THEOSOPHICAL SOCIETY, Jones Building, Fort St.—No meeting on Monday, on account holiday.

## THE VICTORIA THEOSOPHICAL SOCIETY

Metropolitan Building, opposite post office. Subject: "Easter's True Meaning."

## JOINT SERVICES WILL BE HELD

Joint Easter services will be held Sunday by the First Spiritualist Church and Spiritual Science Temple, in the Sons of England Hall, Broad Street. There will be an open circle at 3 o'clock in the afternoon and at 7.30 o'clock addresses will be given by Rev. Flora Frampton, Mrs. Johnson and Mrs. Blackett. Flower messages will be given by Mrs. Frampton and Mrs. Burny. Solos will be rendered by Mrs. Charles Muir and Mr. Glover.

## SERMONS ON RESURRECTION

Will Be Preached at Both Alliance Services

At the morning service at the Christian and Missionary Alliance, Yates Street, the pastor will preach on the Resurrection of Jesus Christ, showing the necessity of Christ being raised from the dead in fulfillment of prophecy and in finishing the work the Father gave him to do. At the evening service the pastor will preach on the Resurrection of Jesus Christ. The choir will sing Easter hymns at both services.

## Presbyterian Church in Canada

"Forasmuch as the Assembly of Youthselves Together as the Manner of Some Is"

## SHANTYMEN TO HOLD MEETING

Twenty-fifth Anniversary of Founding of Association to Be Celebrated Thursday

Twenty-five years ago the late William Henderson, an editor of Toronto, realizing the need of Gospel work among the "loggers, sold his business and with the proceeds purchased Bibles and portions, which were given to those who were far removed from the ordinary channels of Christian activity. This movement grew into the Shantymen's Mission, which is definitely interdenominational, and on all its committees, both at headquarters in Toronto and the branches, members of all evangelical churches work together in the common interest of taking the Gospel to the "unreached."

The anniversary meetings are to be held this year at Knox Presbyterian Church, Toronto, for two days, next week, Wednesday and Thursday, when Rev. J. G. Inkerside, formerly of Victoria, will take part.

The local branch will unite with Toronto in a service of prayer, praise and thanksgiving on Thursday afternoon in the Central Baptist Church.

The Fraser brothers, who are conducting a series of evangelistic meetings in Victoria, will be the guest speakers. Percy Wells, Vancouver Island missionary, will relate some of his experiences. G. E. Davidson will preside.

## AGE OLD QUERY TO BE FACED

"If a Man Die Shall He Live Again" Oak Bay Sermon Theme

"The Message of Easter" will be Dr. Gerald Brown's moving topic to-morrow at Oak Bay United Church. Mrs. C. E. McNeill will be the soloist and the choir, under the direction of W. H. Ruffell, will sing "I Know That My Redeemer Liveth," by Handel, and "Break Forth Into Joy," by Barnby. The sacrament of the Lord's Supper will be celebrated at the close of the service.

"If a Man Die, Shall He Live Again" is the age-old Easter query Dr. Switzer will face at the evening service. Can an intelligent, thinking, scientific-minded man of our day sincerely believe in immortality? Dr. Switzer has given a good deal of time to this issue in his New York and Chicago studies. He has addressed several audiences in the United States upon it, and aims to make his presentation both clear and helpful. A quartette will sing "Christ, Our Paschever," by Goss, and the anthem will be "Awake Up My Glory," by Simper, and "God Hath Appointed a Day," by F. W. Pease.

Major Crockett will be the Ophya club speaker on Tuesday evening. He will present an illustrated lecture on "The West Indies." Harold Gelling will give the opening meditation. "Is the Universe Purposeful?" is the topic of the evening service. The two one-act plays, to be presented in the church on April 28, under the auspices of the Women's Association.

## JOY OF EASTER AT CENTENNIAL

Rev. J. C. Switzer Will Occupy Pulpit; Special Music

Easter services will be held in Centennial Church on Sunday. The choir will contribute special music at each service. In the morning Rev. J. C. Switzer will discuss some of the reasons for the joy of Easter. The music will be: Anthem, "On Wings of Living Light" (Matthews); solo, "Love Divine" (Jesep), with solo obligato by A. W. Lucking. The evening topic will be "Practical Fruits That Jesus Really Rose From the Dead." Evening music, anthem, "They Have Taken Away My Love" (Stainer); solo, "A New Commandment," by Maundrell; "Olivet to Calvary," J. Almond; quartette, "Jesus Died for Us" from "Purcell's" "Christ and His Soldiers." Misses Bessie Richards and Della Hollins, Messrs. Dilworth and Cave-Brown-Cave, negro spiritual, "Were You There" (Burleigh); solo, "I Know That My Redeemer Liveth," from Handel's "Messiah." Madame Norma Smythe; anthem, "There is a Green Hill Far Away" (Somerset).

The talk to the children in the morning will be about "The Primrose," and Holy Communion will be held at the close of the morning service.

## CHRISTIAN SCIENCE CHURCH

The subject of the lesson-sermon in First Church of Christ, Scientist, Victoria, Sunday will be "Doctrine of Atonement." One of the Bible texts will be II Corinthians 5:17: "Therefore if any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new." The lesson-sermon will also include the following passage from page 203 of "Science and Health: With Key to Scriptures," by Mary Baker Eddy: "The scientific unity which exists between God and man must be wrought out in life-practice, and God's will must be universally done."

## RURAL CHURCHES OBSERVE EASTER

Special Services at Wilkinson Road and Garden City To-morrow

Special Easter services will be held in the Wilkinson Road and Garden City United churches on Sunday. The morning service will convene in Wilkinson Road Church at 11:15 o'clock, when Rev. Wm. Allan will preach on "A Tomb in Every Garden." The music will include the anthem, "Ye Choirs of New Jerusalem" (Hall), and the duet, "There is a Green Hill" (Gosnell).

New members will be welcomed into church fellowship, and the Sacrament of Baptism and the Lord's Supper will be administered.

A service of Easter music will be rendered in Garden City Church at 7:30 o'clock, with augmented choir. The anthems, "Now Let the Gates of Zion Ring" (Cooke), and "God So Loved the World" (Stainer), will be sung; a duet by Rev. and Mrs. Allan, and solo by Madame Scott-Burritt. Mrs. Feherat and Miss Lillian Reid.

Wilkinson Road Women's Missionary Society will meet for morning prayer and general monthly meeting Tuesday, when Mrs. Saubey will give an address. As this will be the Easter meeting, the C.G.I.T. group will also be in attendance.

On Wednesday evening the Sunday school children and C.G.I.T. group will present an Eastern musical programme and pageant in Wilkinson Road Church, the proceeds to be devoted to the church fund.

On Thursday the combined C.G.I.T. groups of Wilkinson Road and Garden City will go on a hike to the observatory, leaving Wilkinson Road about 10 o'clock.

## FIRST UNITED PRAISE SERVICE

Easter Hymns and Special Music by Choir Arranged

Easter services in First United Church are always of special interest and bring comfort, hope and inspiration to many people. At the 11 o'clock service, Rev. W. G. Wilson, D.D., will preach, taking for his subject "If Easter Failed," and the Holy Communion will be celebrated immediately afterwards.

The evening service will be largely one of praise, the choir, under the direction of W. C. Fyfe, rendering special Easter music, and the congregation joining in more familiar hymns which provide a fitting climax to the service. After the close of this service the Holy Communion will again be celebrated for any unable to attend morning worship.

On Monday afternoon the Women's Missionary Society will hold their Easter thank-offering meeting, the gathering to be addressed by Miss Kinsler from "The House of the Living God," and to help in the work of First United Church, Vancouver. Monday being a public holiday, the young people have cancelled their regular meeting, but plan something exceptional for the week following.

## PROF. BAKER TO SPEAK OF EASTER

Will Broadcast With Appropriate Music Sunday Evening

The Easter service of the Radio Fellowship over C.F.C.T. will begin at 9 p.m. with music appropriate to the day. Prof. Baker will begin to speak at 9:15 o'clock, and patrons are asked to tune in promptly. In an endeavour to make this service of unusual interest and profit, Prof. Baker has selected as his subject St. John's vision of Heaven and Immortality, and he will speak on the text, "And they sang a new song." The celebration of Easter in a new and glorious consciousness will be set over against the limited conceptions of man.

## FOSDICK CHURCH NOT EXPENSIVE

Riverside's Per Capita Only 37 Cents a Year, Second Lowest in Nation

Only Seven Members of Congregation Give More Than \$1,000

New York, April 15.—"An Inexpensive Church" was the topic of the sermon by the Rev. Dr. Harry Emerson Fosdick in the Riverside Church, Riverside Drive and 122nd Street. Judged by the per capita cost of those served by it, he said, the Riverside Church is one of the least expensive churches in the country.

"Many people," he said, "think of the Riverside Church as an expensive church. It would be surprising if a majority of this congregation were not thinking now that, of course, it is an expensive church. Upon the contrary, it is one of the least expensive churches in the United States."

"We can fortunately check ourselves in this regard because a competent study by Dr. Paul Douglass has recently been made of just such factors in our American churches. Here is one congregation where each individual contributes during the year costs more than \$3. Here is another, one of the most efficient city churches in this country, where each individual contributes only 2 cents. Indeed, the least expensive church which Dr. Douglass found was one where the per capita cost for all who came to the church's doors was 35 cents."

"On the basis of the proposed budget we do we stand? At the level of 37 cents. Believe it or not, we are within 2 cents of the lowest per capita average reported in the United States. 'We have been checking the entrances to the various activities of this building and we report that last year about 572,000 people came here. We report further that in caring for them we are maintaining one of the least expensive of any congregation in the United States.'

"Moreover, many people think we are a wealthy church. As a matter of fact, we have a regular church family now—members, affiliates and contributors—of about 2,700 people. There are scores upon scores of students, teachers, chorists, stenographers, business men and women in ordinary positions, and lawyers with moderate practices; just the average gamut of human beings who are craving spiritual fellowship in our life's struggle."

"There are only seven people in this congregation who have given more than \$1,000. There are, however, 900 people who give a dollar a week or less and 360 people who give between one and five dollars a year."

"Of course, we have been affected by the depression. Nevertheless, in the last two years we have reduced our expenses by 18 per cent, and have increased our programme of activities in this building by 38 per cent."

## EASTER MUSIC AT ST. ANDREW'S

Anthems Will Be Sung at Both Services To-morrow

The services at St. Andrew's Presbyterian Church to-morrow will be appropriate to Easter Day. There will be special music by the choir, and the minister, Rev. H. P. S. Luttrell, will preach in the morning on "The House of Many Mansions" (John 14:2), and in the evening on "The Image of the Heavenly" (I Cor. xv 35-49).

The music for the services will be as follows:

In the morning, the soloist will be Miss Isabelle Crawford, who will sing "The Resurrection Morn'" by Rodney. The choir will sing Stainer's anthem, "They Have Taken Away My Love."

In the evening, Mrs. F. W. Hawes and Arnold W. Trevel will sing as a duet, "Hosanna," by Granier. The choir will sing Stainer's anthem, "King of Kings," and for the latter part of the service will sing Part III of the sacred cantata, "God With Us," by Trowbridge.

## Guild of Health To Meet Tuesday

The Guild of Health will meet on Tuesday, April 18, in the chapel of the Memorial Hall, at 8 o'clock. The speaker will be Deaconess Margaret Robinson. Visitors and friends will be welcomed by the members.

## TO COLLECT EGGS VICTORIA WEST

Sunday School Scholars Will Bring Gifts For Sick and Needy

"Sepulcher and Sunrise" will be the subject of the minister, Rev. T. H. Nuttall, at the morning service at Victoria West United Church. The subject for the children's address will be "The Rabbit and the Easter Egg." Sunday school scholars will bring gifts of eggs for the sick and needy.

The evening worship will centre around the theme, "Dead But Alive Forevermore." Easter music at both services.

## BAPTISMS AT CENTRAL CHURCH

Easterless Religions Will Be Subject of Rev. J. B. Rowell

"The Christ We Know and the Christ We Know Not: Easterless Religions or the Risen Christ in Apostolic Ministry" will be the important subject at the Central Baptist Church on Sunday evening, when the pastor, Rev. J. B. Rowell, will preach. There will also be baptism of believers at the evening service.

The subject at the morning service will be "Keeping Tryst With the Risen Christ," followed by the observance of the Lord's Supper.

The Sunday school and Bible classes meet at 9:45 a.m. the prayer service on Thursday at 8 o'clock, and the B.Y.P.U. on Friday at 8 o'clock.

## ELEVENTH ANNUAL SUNRISE SERVICE WILL BE HELD TO-MORROW

Mount Toulmie will again be the scene of the annual sunrise service sponsored by Dr. Clem Davies, pastor of The City Temple. The service will commence at 7 o'clock to-morrow morning. Special cars and busses will leave all terminals at 6 o'clock for Mount Toulmie. The hymnal music will be played by the Fifth B.C. Coast Brigade band. Dr. Davies will deliver the sermon, with "Immortality" as his theme.

## COPPER TARIFF DELAY EXPLAINED

London Concern Says Postponement of British Levies Due to Lack of Production

Postponement of the imposition of a duty of two pence a pound on copper imported by Great Britain, scheduled to have gone into effect on December 1, is due to inability of producers of copper within the British Empire to guarantee a supply of that metal sufficient to meet all needs in the empire at prices no higher than those elsewhere in the world, according to the metals report of Brandeis, Goldschmidt & Co. of London, leading British authorities.

A further factor in deferring the levy, the report intimates, was that "large copper producers outside the United States, to whom the United States market is now closed, immediately served unofficial notice on the empire producers that the latter were not to use the favorable position granted them by empire preference to increase their production, threatening an immediate price war, which, by forcing down world prices, would automatically also lower the price in England."

The report explains that with the big excess of empire potential production the inability to supply the empire needs at world's prices is only temporary, "and the question of an English copper duty may become acute again in the near future, although it is difficult to see how any body could be benefited thereby." The actual production of copper in the British Empire is estimated to be just about sufficient to cover empire needs.

Referring to the United States tariff of four cents a pound on copper imported last June, the report states: "The great progress made in the last few decades in mining and metallurgy, and particularly in that of copper, has come almost exclusively from America, but just as America thirty or forty years ago took the leadership away from the older copper-producing countries, it has now been obliged to yield in turn to more recent areas of production."

"While the imposition of an Ameri-

## HELPFUL SERVICES AT ST. AIDAN'S

Inspiring and helpful Easter services will be held to-morrow at St. Aidan's United Church. The church will be attractively decorated with flowers. The minister, Rev. H. J. Armitage, will conduct the services and will deliver appropriate Easter messages.

The special music will be: Morning, an anthem by the choir, "Hallelujah"; Miss Barbara Dawson will sing "Open the Gates of the Temple." At the evening service the choir will render "The Song of Victory."

## EXPERT TELLS HOW TO BUY CAT

Genuine Black Ones Rare and Costly; Long-haired Blue Persians Difficult to Rear

Reuter's Special to The Victoria Times. London.—There aren't many pure black cats any more. There never were, really. For a cat expert recently reported that most black cats have a touch of rust in their coats, and if you are determined on a genuine black you will have to pay several guineas for it. The thing to beware of, instead of a black cat, is a white one with blue eyes. Usually these cats are deaf. A white cat with golden eyes is all right. Some of the pets most in demand are long-haired blue Persians. They are beautiful and affectionate and cost anything up to fifty guineas. Also, they are delicate and difficult to rear. The diet which blue Persians require is fresh fish, occasionally raw meat, milk food (but not raw milk), boiled rabbit and cereals. They cannot be allowed out at night or in damp or cold weather.

Siamese are harder than blue Persians and thrive on less care. Things to look for when you are buying a cat are: Large round eyes, small ears well apart, short broad muzzles, a long, fine coat, short legs, a short brush tail.

For the third consecutive year the protest against consumption of opium showed an extraordinary heavy decline, the report states. Production from mines last year is placed at 900,000 long tons, compared with 1,320,000 in 1931 and 999,000 in 1932. Consumption of opium is estimated at 895,000 long tons, compared with 1,256,000 in 1931 and 1,053,000 in 1932.

## THEOSOPHICAL SOCIETY

Monday being a holiday, the Victoria Independent Theosophical Society will hold no meeting that evening.

## FRESH EGGS FOR ORPHANS' HOME

Gifts Will Be Made By Sunday School Pupils of Knox Church

At Knox Presbyterian Church, Stanley Avenue, on Sunday, there will be special Easter services throughout the day. At 9:45 a.m. the Sunday school will convene and there will be the annual special gift of fresh eggs for the Orphan Children's Home. At 11 a.m. the minister, Rev. J. S. Patterson, will preach on "Easter Revelations." The guest soloist will be Madame Edith Scott-Burritt, contralto, who will sing "Ho! Shall Feed His Flock" (Handel) and "Hosanna" (Granier). The choir will sing "Christ Being Raised From the Dead" (Gill). At 4:45 p.m. the adult Bible class will meet, under the leadership of R. H. Scoble, and at 7:15 p.m. the song service of Easter hymns will commence, Mr. James conducting the singing.

At 7:30 p.m. Mr. Patterson will take for his theme "The Joy Set Before Him." The choir will sing the anthem, "King of Kings" (Caleb Simper) and Douglas Cobbett will sing the baritone solo, "The Lord Is My Light" (Albritten).

## SUNSET ROAD BAPTIST THEME

Rev. M. S. Richardson Will Be Preacher at Emmanuel Baptist Church

"The Road Into the Sunset," is the theme of the Sunday morning Easter sermon in Emmanuel Baptist Church by Rev. M. S. Richardson.

A farewell sermon will be preached in the evening.

Special music for the day is as follows: Morning—Anthem, "We Declare Unto You Good Tidings" (Mauder); Evening—Anthem, "On Wings of Light" (Matthewson); two choruses from the cantata, "From Olivet to Calvary," will be rendered, "On the Way to Jerusalem," in the Temple.

## "EASTER HERITAGE" AT NEW THOUGHT

Appropriate Sermon Subjects Selected By Robert M. Mobius

"Our Easter Heritage" will be the subject of to-morrow morning's sermon at the New Thought Temple, when the leader, Robert M. Mobius, will conduct the service.

In the evening his subject will be "The Challenge of Easter."

A special vocal and instrumental programme has been arranged by the musical convenor, Mrs. C. A. Wain, for this occasion. The vocalists will be Miss Denison, Alfred Waller and T. Kelway, presenting "The Lord Is My Rock" and "Hosanna," by Granier.

Meetings for healing, prosperity, success and philosophical studies will be held on Wednesday, Thursday and Friday evenings at 8 o'clock.

## EASTER SERVICES AT ST. MARY'S

The following Easter Day services will be held in St. Mary's to-morrow: Holy Communion, 6, 7, 8, 9:30 o'clock, and 12 noon. Matins and sermon 11 o'clock, evensong and sermon 7:30 o'clock. "Christ the Lord Is Risen Again" (Thiman). The senior and junior sessions of the Sunday school are asked to meet in the hall for a service at 10 o'clock. On Monday a service will be a celebration of Holy Communion at 10:30 a.m.

## GORGE AND ERSKINE

Special Easter services will be held at the Gorge and Erskine Presbyterian churches to-morrow. At the Gorge at 11 o'clock the Sunday school will join with the congregation, where the different organized groups will take part in the service. The G.O.I.T. will sing two Easter numbers, the boys' choir one number, and also the boys of the Order of the Burning Bush will take part.

The rite of baptism will also be observed at the beginning of the service. The minister, Dr. A. D. Thomson, will give an Easter message.

The adult Bible class and Sunday school will be held at Erskine at 2 o'clock and the Easter service at 7 o'clock. The choir will sing an Easter anthem. Mrs. Thomson and Mrs. J. C. Warren will sing a duet.

## ROME'S CHURCH BELLS ARE RUNG

Carry Message of Resurrection of Christ on 1900th Anniversary

By John Lloyd, Associated Press Staff Writer

Rome, April 15.—Tidings of joy were broadcast by Rome's church bells at noon to-morrow. For the thirteenth hundredth time the glad message of Christ's resurrection went out to the world.

It announced the ending of Lent and the period of deep mourning that began on Holy Thursday. The faithful may now give themselves over to rejoicing.

To-morrow will see the return of one of the church's most important annual events, after sixty-three years of abandonment. Pope Pius will follow the custom of his old-time predecessors by saying Easter mass in St. Peter's and blessing the populace outside from the balcony's balcony.

## BANDS TO PLAY EASTER MUSIC

Salvationists Will Hold Special Services To-morrow

Adjutant Shaw, of Vancouver, and Adjutant Sharp, of Victoria, will lead all the meetings to-morrow at the Salvation Army Citadel, Broad Street. Special Easter services will be held at the usual hours of commencement, and the senior and junior brass bands, with the songster brigade, will render appropriate music. The congregational singing of Easter hymns will also be a feature of the meetings. The two adjutants will again lead a public meeting on Monday night in the citadel at 8 o'clock. Both of these officers are attached to the finance department of the Salvation Army. Adjutant Shaw being stationed in Vancouver, and Adjutant Sharp in Victoria for the Vancouver Island district. Other city officers will assist them in the Easter services.

## LUTHERAN CHOR TO GIVE PAGEANT

"And They Were Afraid" Will Be Subject of Rev. T. A. Jansen's Sermon

At Grace English Lutheran Church Easter services will be held at 11 a.m. The pastor, Rev. T. A. Jansen, will preach on the subject, "And They Were Afraid." Special music will include a solo, "Search Me, God," by Miss Albertine Miller, and an anthem by the choir, "Now Let the Vault of Heaven Resound." An Easter carol service will be held at 7:30 p.m. The Sunday school and choir will render a pageant, "Dariusness, Dawn Day." The special music will include a solo, "There is a Green Hill Far Away," E. E. Gower; solo, "O Perfect Life of Love," Miss Christine Schmelz; duet, "Abide With Me," Christine Schmelz and Luther Jansen.

## For the up-building of ADOLESCENT CHILDREN

Doctors in 52 countries have Great Faith in Fellows' Syrup. Delicate or undernourished children quickly respond to the body-building powers of Fellows' Syrup.

The mineral elements in Fellows' are just what every growing boy and girl needs. Calcium to build good, red blood, phosphorus to promote sound growth of bone and muscle, iron, quinine, sodium, potassium and manganese, all the elements that make for vitality and vigour are scientifically compounded in this time-tried tonic. Fellows' Syrup aids digestion and assimilation and helps the body to obtain full benefit from the food taken. It is the only preparation of its kind which has been endorsed by the medical profession for more than 60 years. At your dealer's! Two sizes.

## FELLOWS' SYRUP. COMPOUND OF HYPOPHOSPHITES

World Famous SYRUP.

## SUITING THE MEN TO THE MOMENT

**Double-breasted Models Lead the Parade**

By JULIA BLANSHARD

Clothes may or may not make the man this Easter but the right suit, topcoat and hat will do a lot to inspire confidence this spring.

The better new suits are handsomely tailored, with those well-fitted shoulders that set a man up. Double-breasted suits are the suits of the moment, but there are always men who feel better in single-breasted ones, so, these abound.

Cheviots, fine imported tweeds, finely striped men's suitings, Glen Urquhart plaids and other worsteds go into these suits. Gray is a good spring color this year, as are the slightly lighter navy blues. Tans also are good, with some of the novelty fabrics having brown undertones.

**TROUSERS HIGH, PLEATED**

With the single-breasted suits, trousers are apt to be the high, English cut, pleated to be worn with suspenders. Double-breasted suits may have plain trousers, wearable with either belts or suspenders.

One of the outstanding new suits that will appear in numbers about Easter time, is a double-breasted Glen Urquhart plaid suit, in gray tones, particularly good with the new pin striped shirtings and the new specially styled colored striped or club striped ties. The trousers of this suit are plain, to be worn with a belt.

With it, a new snapped brim hat, the hat that will be approved by style

**Gray Worsteds In High Favor For Spring**

conscious sportsmen and springy men.

Smart and suitable for spring wear is a single-breasted gray cheviot suit, styled with three button closing, peaked lapels and piped pockets. The trousers are pleated and have a high rise, to be worn with suspenders.

**TOPCOATS IN VARIETY**

The shirt of finely striped blue and white shirting, has the new correctly tabbed collar of self-material, and one of the new silk repp neckties has blue and white stripes, too.

With this suit goes a lightweight new spring hat, smartly proportioned, with a snapped brim that will appeal to smart business men about town as well as university men.

Topcoats for Easter and other spring occasions come single-breasted or double, in handsome cheviots, tweeds, Saxones and Shetland wools. They, too, have peaked lapels and that custom-tailored look about the shoulders.

With this coat goes a new flaring hat of exceptionally fine quality, correctly proportioned for town wear this spring.

(Suits and topcoat from F. R. Triple & Co., New York)

Alberta's output in January totalled 70,356 barrels, consisting of 65,585 barrels of crude naphtha and 1,183 barrels of light crude oil from the Turner Valley field, 2,938 barrels of light crude from the Red Coulee field and 650 barrels of heavy crude oil from the Wainwright field.

ADVERTISE IN THE TIMES

## Provincial I.O.D.E. Will Meet In Mainland City

Annual Sessions to Be Held in Hotel Georgia April 19, 20 and 21

Mrs. Curtis Sampson to Preside; Many Victoria Delegates Going

Members of I.O.D.E. chapters from all parts of British Columbia will assemble at the Hotel Georgia, Vancouver, on Wednesday, Thursday and Friday of next week for the twentieth annual meeting of the Provincial Chapter. Mrs. W. Curtis Sampson, of Victoria, provincial president, will preside at all sessions, and among the members of the executive committee going from Victoria for the meeting will be: Mrs. A. F. Griffiths, Mrs. P. E. Corby, Miss Irene Terry, Miss A. H. Cooke, Miss Hildebrandt (Nanaimo), Mrs. Gordon Smith, Mrs. W. H. Nelson, Mrs. L. A. Genge, Mrs. David Miller, Mrs. Tyrwhitt Drake and Miss J. Crease.

Delegates from the Victoria primary chapters going over will include Mrs. A. N. Mout, Mrs. Kylie Symons, Mrs. T. A. Johnston, Mrs. F. H. Wright, Mrs. A. E. Hopkins, Mrs. H. G. Bolt, Mrs. W. Ellis, Mrs. B. H. Tyrwhitt Drake, Mrs. R. Shanks, Mrs. T. R. Myers, Mrs. A. H. C. Phillips, Mrs. F. J. Boughton and Mrs. H. K. Prior.

The agenda follows:  
WEDNESDAY EVENING, APRIL 19  
8:30 o'clock—"God Save the King"; salutation of flag; prayer; silent tribute to members who have passed away during the year; resolution of loyalty to The Most Excellent the King and Queen; recognition of loyalty to their Excellencies the Earl and Countess of Beaulieu; address of welcome, regent, Vancouver Municipal Chapter; reply; appointment of committees; announcement; minutes of the last annual meeting; address on Empire topic; adjournment.

THURSDAY, APRIL 20  
Morning session: 9 to 10—Registration of delegates at Hotel Georgia. 10 o'clock—Prayer; "God Save the King"; correspondence; roll call; decision on headquarters of Provincial Chapter for the next two years; report of resolutions committee; election of twenty-five provincial councillors; Vancouver, Victoria, Burnaby, Chilliwack and Prince Rupert.

Afternoon session: 2:30 o'clock—President's address; annual reports of Provincial Chapter; the executive, Mrs. P. E. Corby; the treasurer and auditor, Miss J. Terry; educational and war memorial, Miss A. B. Cooke; the organizing secretary, Mrs. R. J. Sprout; the records secretary, Mrs. D. E. Saunders. Reports of standing committees: Work in India, child welfare, distinguished visitors, constitution, National Council of Education, adjournment. Evening session: 7:45 o'clock—War memorial, Mrs. A. B. Cooke; the organizing secretary, Mrs. R. J. Sprout; the records secretary, Mrs. D. E. Saunders. Reports of standing committees: Work in India, child welfare, distinguished visitors, constitution, National Council of Education, adjournment.

FRIDAY, APRIL 21  
Morning session: 9:30 o'clock—"God Save the King"; announcement of election of officers; reports of such provincial primary chapters as are represented by delegates; election of eight national councillors; reports of standing committees: Navy League, War Memorial, League of Nations, I.O.D.E. Girl Guides chapters, films; adjournment.

Afternoon session: 2 o'clock—Secretary's synopsis of reports of unrepresented chapters; decide place of next semi-annual provincial meeting; decide place of next annual meeting; election of delegates to national annual meeting; announcement of election of eight national councillors; financial budget, 1933-34.

Election of provincial representatives on the following national sub-committees: Navy League, work in India, press and publicity, constitution, child welfare, immigration, war memorial (third member), distinguished visitors, I.O.D.E. Girl Guide chapters, League of Nations Society, also, Alexandra Rose, Films, National Council of Education. Suggestions for work of the order and new business; vote of thanks; "God Save the King."

AND NOW COMES THE MAY QUEEN

**\$250,000 PEARL NECKLACE LOST**

New York, April 13. (Associated Press)—A \$250,000 necklace of matched pink pearls disappeared mysteriously last Wednesday from the neck of the socially prominent Mrs. Theresa L. Noble.

Mrs. Noble is the wife of Dr. Eugene A. Noble, secretary of the Juilliard Foundation.

Mrs. Harry C. Briggs of Vancouver will arrive in Victoria tomorrow on a visit to friends here.

## MISS DEVLIN COMING HOME

Young Victoria Pianiste Who Delighted Paris Critics May Give Recital

Fresh from her recent triumphs in Paris, where she gave a piano recital at the Salle Chopin on March 10 which was a triumph, Miss Margaret Devlin, brilliant young Victoria musician, is on her way back from France to visit her mother, Mrs. H. N. Devlin, of Victoria, and will probably give a recital early in May.

Miss Devlin went abroad several years ago to continue her piano studies under noted European teachers and has made considerable progress, to judge by the flattering notices given by leading Paris critics following her recital.

The critic of Comedie says of her playing: "Miss Margaret Devlin in her recital revealed fine pianistic talent. Her interpretations of Gluck, Scarlatti, Couperin were rhythmic, were full of subtle nuances. She gave herself with much abandon to the original arabesques of 'Chatterbox' and 'Godswaddy', and very skilfully interpreted the limpidity and movement of Ravel's 'Jeu d'Eau'. One predicts a very fine future for this young artist."

An audience of about 500 attended the recital, which was given jointly by Marie-Louise Lantier, pianist, and Joy MacGowan, singer, and following her recital Miss Devlin was invited by the noted French critic, Henri Frenkel, to play in one of his concerts.

**I.O.D.E. Daffodil Tea To Be Held At "Sissinghurst"**

"Sissinghurst," the beautiful home of Mrs. Crow Baker, 63 Gorge Road, is being lent to H.M.S. Resolution Chapter, I.O.D.E., for a daffodil tea on Saturday afternoon, April 22, from 4 to 6 o'clock. This lovely spot is named after the famous Sissinghurst Castle in Kent, England, which was built before the time of Henry VIII, by Sir Richard Baker, an ancestor of the late Mr. E. Crow Baker. The Victoria "Sissinghurst" was built in 1888 and is one of the beauty spots of the city, with its wide sweep of lawns, the stately old trees, and the woods fringing the Gorge water.

Among the giant trees is a black walnut that was planted twenty-five years ago by the late Sir Henri Joly de Lotbiniere when he was the Lieutenant-Governor of British Columbia. There are many copper beeches, a cedar from India, and sequoia from California.

The gardens will be at their best with many tables of daffodils through the woods and among the trees and shrubs. Tulips and hyacinths will be in bloom, and make vivid splashes of color at the end of the vistas of velvet lawns.

Tea will be served in the billiard hall, where family portraits and trophies will give an air of interest. There will be a plant stall and a candy table, the proceeds of the affair going to the chapter's work in the Peace River.

Adopters on an opportunity to see one of the very beautiful gardens of Victoria, patrons will feel that they have made it possible for the chapter to transmit the gold of the daffodils into the gold of service for this isolated part of the province.

Junior Catholic Women—The annual meeting of the Junior Subdivision Catholic Women's League will be held on Friday evening, April 21, at 7:30 o'clock in the library of the Bishop's House.

Mrs. C. H. Willis, Erie Street, who has been visiting in Vancouver, has returned to Victoria.

Major-General Lindsay and Dr. Lindsay of Pasadena, California, passed through here yesterday on their way to visit in Vancouver.

Mr. and Mrs. R. Murray, Monterey Avenue, Oak Bay, left on Thursday afternoon for Vancouver to spend the holidays with friends on the mainland.

The Misses Doris and Patsie Rines entertained at the tea hour this afternoon at the Colwood Golf and Country Club in honor of Miss Constance Code.

Mr. and Mrs. R. E. Cieri, Oxford Street, have as their guests for the week-end, Miss Caldwell of Nanaimo and Miss Ross of Vancouver.

Mrs. T. A. Anderson of Winnipeg has arrived in the city to visit her brother and sister-in-law, Mr. and Mrs. Joseph A. Merrick of the Uplands.

Mr. Philip Willis, of Vancouver, is spending the Easter holidays with his parents, Dr. and Mrs. S. J. Willis, Fort Street.

Mrs. George Guy has received word from Liverpool, England, of the death of her aunt, Miss Clara Collins, on March 28. Miss Collins visited in Victoria some years ago.

Mr. Gordon A. Campbell, St. Patrick Street, with his son, Craig, who are holidaying in California, were guests at the Hotel Sir Francis Drake, San Francisco, this week.

Mr. and Mrs. Godfrey Smith, accompanied by Mr. and Mrs. Angus Galbraith and Miss M. J. Galbraith, are spending the week-end motoring up the Island.

Mr. Guy M. Shaw of Oliver Street, has left for Vancouver en route to Montreal, on his way to England. He will be a passenger sailing by the liner Montclair next Friday.

Mrs. Healy-Kerr of Victoria will leave tomorrow for Seattle, en route to Montreal, from where she will sail next week by the liner Montclair for England to spend the summer months.

Mr. and Mrs. Robert Crawford, who have been the guests of Mrs. Margaret Stewart, Albany Road, during their recent visit to Victoria, have returned to their home in Winnipeg.

Mrs. D. L. Synthe of Dallas Road, will sail from Victoria this evening by the liner Emma Alexander to spend some time in San Francisco. Later in the season she will leave for England.

Miss Betty Allan and Miss Ruth Henderson of Vancouver are spending the Easter week-end in Victoria, the guests of Mrs. Allan's parents, Mr. and Mrs. William M. Allan, Dallas Avenue.

Mr. and Mrs. G. H. Bates of Esquimalt Road will be among the Victorians sailing this evening by the liner Emma Alexander on a vacation trip to California cities.

Mr. and Mrs. Cedric Gyles of Vancouver, accompanied by their two children, Cedric and Jacqueline, are visiting Mrs. Gyles' parents, Mr. and Mrs. E. H. Rider, 141 Beach Drive, for the Easter holidays.

Mrs. Susie Pipes, Mr. Michel Penha and Mr. Ralph Tinsley of the Neak-han-ile string quartette will arrive in the city on Tuesday morning and will spend several days as guests at The Angela, Burdett Avenue.

Mr. and Mrs. Goulding Wilson, St. Charles Street, accompanied by their daughter, Miss Kathleen Wilson, and their son and daughter-in-law, are spending the holiday at their summer home at Shawanigan Lake.

A party of Duncan people arrived in Victoria to-day to sail this evening for San Francisco by the liner Emma Alexander. In the party are Mrs. Thomas McEwan, Miss A. S. McEwan and Miss A. V. Staples.

Major and Mrs. Palmer and the Misses Palmer of Vancouver came over from the mainland yesterday and left to-day for Qualicum. They will return to their home in Vancouver via Nanaimo.

General Sir Percy and Lake Lake of Newport Avenue will leave Victoria on Tuesday for Montreal, from where they will sail April 29 by the liner Duchess of Atholl for England to spend the summer months. En route east they will visit in Winnipeg and Toronto.

For the week-end, Mr. and Mrs. F. B. Pemberton have as their guests at their farm, "Pemberlea," Cowichan Station, Mr. and Mrs. L. G. Duke and their two children, Mr. and Mrs. F. J. D. Pemberton, Mrs. Herbert Gray, Miss Betty Ward, Miss Cicely Holmes and Mr. Lindley Crease, K.C.

Mrs. Lawrence Hercher, who has been spending the last two months in Boston, Montreal and other eastern centres, has been visiting in Winnipeg since Wednesday as the guest of Col. and Mrs. Hugh Osier, en route for her home in Victoria.

Mrs. Harry J. Davis of Newport Avenue, accompanied by his daughter, Miss Angela Davis, left this afternoon for Vancouver, en route to Montreal, from where they will sail next Friday by the liner Montclair for England. Mr. Davis will return to Victoria in three months, but Miss Davis will remain in England for a year as the guest of her aunt, Mrs. Walter Pease, Moulton Hall, Yorkshire.

Mrs. Lennox Irving, who is lending her beautiful home on Pough Bay Road, to the younger set for a dance in aid of the funds of the Canadian Red Cross on Wednesday evening, is arranging a few tables of bridge for those guests who do not care to dance. Tables may be arranged through Mrs. Irving or through the conveners of the dance, the Misses Jeannette, Lennox, and Betty Bechtel. Miss Kathleen Wilson has been assisting with the sale of the dance tickets, for which there has been a big demand, and everything points to the party being an outstanding success, both from the social and financial standpoint.

Mrs. Henry Wolters of Oakland, California, arrived in Victoria yesterday on a visit to her brother-in-law and sister, Mr. and Mrs. George S. Brown, Beach Drive, having come to Victoria to attend the wedding of her niece, Miss Doris Brown, to Mr. C. W. Wray, that will take place this evening. Mr. and Mrs. Brown have also as their guests, Dr. and Mrs. Kresne of Portland, Oregon, who arrived in Victoria yesterday by motor, and Miss Thelma of San Francisco.

Queen Alexandra Review No. 1 held at the home of Mrs. E. McAllister, 112 Cambridge Street, on Wednesday. The tea tables were daintily decorated with lilies, daffodils and blossoms. Mrs. D. W. Barnett and Mrs. F. Ricketts poured tea. The guests were entertained by the following programme: String trio, Mrs. Fuller, Mrs. J. F. Jones, Mrs. Kent, vocal solo, Miss Clara Jeeves; monologue, Mrs. R. Vallant, accompanied by Miss E. Vallant; piano solo, Miss E. Vallant. The advertisement competition was won by Mrs. Vallant, Mrs. Fuller and Mrs. Hugh. The committee responsible for the arrangements was composed of Mrs. J. F. Jones, Mrs. Kent, Mrs. Thompson, Winter, Laxton, Laird, Taylor, Todd and Mattison.

Miss Lorraine Farquhar, 2180 Beach Drive, on Wednesday evening entertained the staff of the Sir James Douglas School at a farewell party in honor of Miss Beatrice Porter, 640 Superior Street, whose marriage to Mr. Andrew Alexander, St. David Street, will take place on April 28. The spacious rooms were most attractive in their spring-like color scheme of yellow and green, and the table artistically charming with its primrose favors, forsythia centerpiece and yellow tapers. Following refreshments, Principal W. H. Wilson, with a very appropriately worded speech, presented Miss Porter on behalf of the staff, with a beautiful table lamp as a token of their regard and esteem. The guests were Mr. and Mrs. W. H. Wilson, Mr. and Mrs. R. V. James, and Misses B. Porter, J. Gordon, W. Greig, S. Hildebrandt, E. MacNaughton, T. Schneider, E. Smith, E. Thompson, M. Yard (Spring Ridge School), and Messrs. Lewis J. Clark (Victoria High School), and Cecil Chaffin.

Miss Florence Livingstone, the worthy guest of the Order of Eastern Star of British Columbia, was the guest of honor at a delightful tea given by the five chapters of Victoria in the Duke of Kent private dining-room at the Empress Hotel Thursday afternoon. The chapters represented included Queen City, Victoria, Ruth, Esquimalt and Esquimalt Bay Chapters, and the tables, beautifully decorated with daffodils, were presided over by the five worthy matrons, Mrs. A. M. O'Neil, Mrs. Florence, Mrs. M. Jeffrey, Mrs. C. Johnston and Mrs. J. H. Meles. The decorations were in charge of the associate matrons, Mesdames White, L. Eason, Goddard, Kelly and Williams. The souvenir baskets given to the grand officers and artists were the handiwork of Mrs. D. L. White. Early in the proceedings, Mrs. J. H. Meles, on behalf of the combined chapters, presented Miss Livingstone with a beautiful basket of mauve stocks, pink roses and snapdragons, to which Miss Livingstone graciously responded. A musical programme was enjoyed, the artists being Mrs. Mabel Corbett, Miss Nellie Scowcroft, Miss Stratford, Madeline Scott-Burritt and Mrs. S. Dawe. The accompanists were Mrs. Grace Deaville, Miss Merle North, Miss G. White and Miss Clough. On behalf of the chapters, Mrs. A. J. Houston expressed appreciation to the artists and their accompanists.

Among the Victorians spending the week-end at Qualicum Beach, where the Oxford Group "house party" is in progress are: Mr. Douglas Aitken, Mrs. Margaret Ames, Mr. Archibald, Mr. J. Audain, Mrs. Bale, Miss Phyllis Barton, Mr. and Mrs. Bashford, Mr. and Mrs. E. G. Beaumont, Mr. R. P. Bishop, Miss Innes Bodwell, Mrs. M. Wingfield, Mr. M. A. W. Bridgman, Miss A. Campbell, Miss Georgina Cheekley, Miss Crafer, Miss Phyllis Curtis, Mrs. R. S. Day, Mrs. E. M. Beatt, Mr. A. M. D. Fairbairn, Miss Gordon, Mrs. B. G. Goward, the Messrs. Isabel and Katherine Goward, Mrs. Hamilton, Mrs. Wilfrid Hart, Mrs. Louise Hicks, Miss Barbara

Hinton, Mr. and Mrs. R. Hinton, Miss Dorothy Hinton, Mr. and Mrs. J. H. Hinton, Mrs. W. M. Hotham, Mr. G. Hotham, Mrs. Mildred Keales, Mrs. King, Miss Eva Kirby, Mr. Thomas Leeming, Mrs. A. McCallum, Mrs. M. G. McCarroll, Mr. W. L. McIntosh, Mr. M. McKennie, Miss Gene McLeod, Mrs. Duncan McTavish, Mr. R. B. Macmillan, Mr. James Mead-Robins, Miss Mona Miller, Mrs. Milligan, Mr. Douglas Morris, Mr. Stanley E. Moore, Mrs. Gladys Nixon, Mr. and Mrs. Sydney Olver, Miss Joy Phillips, Miss Daphne Pooley, Mr. and Mrs. Eric Quainton, Miss Havenhill, Mrs. L. A. Rees, Mrs. Ralph Rice-Jones, Miss F. Robertson, Miss Margaret Sanderson, Mr. C. R. Schaff, Miss Enid Sealey, Major and Mrs. K. B. Spurgin, Mrs. W. R. Steer, Miss Marie M. Stewart, Mrs. Sullivan, Miss Barbara Twigg, Mrs. A. R. Walsh, Mrs. S. H. Wain, Miss Marjorie Wain, Mr. W. C. Warren, Mr. W. H. Warren, Mr. and Mrs. H. H. Wilcox, Miss G. Edna Whaley, Mrs. Hester Wilkinson and many others.

Mrs. Margaret Stewart, Albany Road, is spending the Easter holidays with her brother and sister-in-law, Mr. and Mrs. Forbes Perkins, in Vancouver.

**When a recipe calls for MILK use ST. CHARLES**

Whenever a recipe calls for milk follow the advice of hundreds of thousands of Canadian women and use Borden's St. Charles. You will find it is not only economical and handy but that there is rich cream in every drop which gives a new delightful flavor to your cooking. Borden's St. Charles milk is nothing more or less than the pure full cream milk of selected Canadian cows. Nothing is added, and nothing but 60% of the moisture is removed. Every drop of St. Charles is sterilized and hermetically sealed under the most ideal conditions and comes to you pure, sweet and wonderfully wholesome. Use it regularly for your puddings and desserts. Add creamy blandness to your soups and creamed sauces and you and your family will be delighted with the rich new flavor of your cooking.

## Cathedral Guild Spring Bazaar Next Wednesday

The Women's Parish Guild, Christ Church Cathedral, will hold their springtime bazaar in the Memorial Hall on Wednesday, April 19, at 2 p.m. Everything for the home will be for sale at the many stalls.

Following is a list of stalls: Novelty stall, with many new beautiful articles; gift stall, under the convenship of the Junior Women's Parish Guild; paper stall, crepe paper, novelty tally cards, dressed dolls, etc.; babywear stall, everything for the wee tot; apron stall, many new designs; linen stall, place to buy gifts for the bride; miscellaneous stall, new and antique articles; 10-cent stall, chiefly for the children; candy stall, a delicious assortment; food stall, every class of food, such as bread, buns, cakes, pickled meats, etc.; afternoon tea, dainty and appetizing, will be served. Flowers and plants will also be on sale.

Typographical W.A.—At its monthly meeting held Thursday afternoon the Typographical Women's Auxiliary arranged for a card party to be held on Saturday, May 6, at the home of Mrs. Griffiths, 3223 Quadra Street.

Lake Hill Card Party—The Lake Hill Women's Institute will hold a card party on Monday evening in the Community Hall.

## ACTRESS WED TO MUSICIAN

Middle-aged Turkish Star  
Bride of Young Viennese,  
Who Turns Moslem

Associated Press  
Istanbul, April 15.—Bedina Mourvli Hanim, Turkey's pioneer actress, now in middle age, has married a young Viennese musician who became a Moslem to win her hand.

The actress battled with the police of her relatives to win her way on a stage where only Armenian and Greek women were allowed to appear. Now she has lived to see the day when the republic by law reserves the Turkish stage solely for Turkish actors and actresses.

Bedina Hanim still is the leading lady of the Istanbul Municipal Theatre.

Her romance with the young Viennese pianist, Ferdinand von Statzer, instructor at the Istanbul Conservatory, provided, however, she still retains some old customs. She refused to marry him unless he became a Moslem.

## SOCIAL AND PERSONAL

Mr. and Mrs. W. H. Harper, who were guests at the Bepon Hotel, have left via Vancouver and Edmonton, for their home in Winnipeg.

Mr. J. P. Collins of the Standard Life Assurance Company, Vancouver, and Mrs. Collins, are in Victoria for the Easter week-end.

Mrs. Albert E. Rowland, with her two children, Wallace and Margot, is a visitor in the city from Vancouver, and is the guest of her cousin, Mrs. Austin King, 1123 Bay Street.

Mrs. A. Mossop entertained at her home, 1258 Park Terrace, on Thursday evening at a miscellaneous shower in honor of Miss Phyllis King, a popular April bride-elect. The many beautiful and useful gifts were concealed in a prettily decorated hat box. Mr. J. Mossop and Mr. and Mrs. A. Stafford entertained with musical numbers, after which a dainty supper was served. Those present were: Mesdames Nicol, McDuff, Porter, Stafford, Morgan, Leaman, Levy, Quinn, Hibbert, G. Hiquelbran, Michel, J. Hiquelbran, Tait, Jordan, Thomas, Balnave, Phillips, Ball, A. Nunn, R. Nunn, Longley, McDowell, Sinnott, Brian, Fraser, Misses J. Burnett, W. Gove, D. Scott, V. Ireland, M. Morgan, M. Breckenridge, A. Balnave and T. McDonald.

Victoria Girls' Council—An Easter vesper service was held in the Ladies' Parish of the First Baptist Church on Thursday, from 4 to 5 o'clock, under the auspices of the Victoria Girls' Council. Miss Lillian Parfitt led the worship service. The Easter message was delivered by Mrs. E. F. Church, who told of the "Pilgrim's Journey." A story was told by Miss Rose Parfitt, and Miss Elsie Cross presided at the piano.

## News of Clubwomen

Chapter to Meet—The Sir Matthew Baillie Begbie Chapter will meet at headquarters on Friday next at 2:30 o'clock.

St. Saviour's Old-time Dance—St. Saviour's Men's Auxiliary are making preparations for their Easter Tuesday "old-time" dance. Their patrons are always sure of a very happy time at these real get-together gatherings.

Florence Nightingale Chapter—A special meeting of the Florence Nightingale Chapter I.O.D.E. will be held in the headquarters on Tuesday evening at 8 o'clock, when all members are urged to attend.

Daughters of St. George—Britannia Lodge, Daughters of St. George, will hold its monthly business meeting in the S.O.E. Hall on Wednesday at 7:30 o'clock. The meeting will be followed by a card party for members and friends, and refreshments will be served.

Commodore Broughton Chapter—At the meeting of the Commodore Broughton Chapter, I.O.D.E., held on Thursday evening, the members assumed responsibility for the supply of milk to another family, additional to the family already supplied. It was also decided to undertake the repainting of the furniture presented to the Orphanage last year for one of the rooms. To augment the chapter's funds, an Empire period writing desk set made by the regent, Miss Michaela, will be disposed of by the members. The meeting took place in the chapter headquarters, Union Building.

It was also decided to undertake the repainting of the furniture presented to the Orphanage last year for one of the rooms. To augment the chapter's funds, an Empire period writing desk set made by the regent, Miss Michaela, will be disposed of by the members. The meeting took place in the chapter headquarters, Union Building.

Commodore Broughton Chapter—At the meeting of the Commodore Broughton Chapter, I.O.D.E., held on Thursday evening, the members assumed responsibility for the supply of milk to another family, additional to the family already supplied. It was also decided to undertake the repainting of the furniture presented to the Orphanage last year for one of the rooms. To augment the chapter's funds, an Empire period writing desk set made by the regent, Miss Michaela, will be disposed of by the members. ## SCHOOL TO FILMS

Betty Furness, New York school girl discovered by a movie scout a year ago, is back in Hollywood to start a new picture after a vacation in New York.

## BARRICADE TO HOME RAISED

Associated Press  
Hastings, N.Y., April 15.—The barricade was raised to-day at the humble home of little Helen Vasco, whose parents had threatened to pour boiling water on anyone who sought to bring medical attention to the child.

John Vasco, the father, announced he was reconciled to having a tumor removed from Helen's left eye even though the operation would cost the sight of that eye. If the appellate division of the Supreme Court upholds an order of the children's court directing the operation, the father will comply.

"Law knows best," he said, after removing the barricade from his front door. "If law says take a child's eye away, all right."

He disclosed, however, that although he was resigned to the operation, his wife was obstinate. He said he had stayed home from work yesterday to try to convince her.

"My wife unready to say all right yet," he said. "My wife insane with many people. They drive Anna, Helen's twin sister, sick. Why don't people let us alone? They're our children."

It was a sudden fever contracted by Anna, the second of the two-year-old twins to become ill, which precipitated the barricade and the threats to use boiling water. Previously the parents had merely refused permission for the operation on Helen. To-day Anna was reported entirely recovered.

## Your Baby and Mine

By MYRTLE MEYER ELDER

Write Mrs. Elder in detail about your problems of child care. A self-addressed, stamped envelope should be sent with your letter to Myrtle Elder in care of this newspaper.

## GOOD TRAINING REQUIRES PLEASURE

MOTHERS accept the responsibility of keeping the baby clean and dry the first year of his life. After that, each month which does not see training for cleanliness completed leaves the mother increasingly annoyed and agitated.

UNSUCCESSFUL METHODS

Habit training in many families consists of scolding and shaming and punishment. It is incredible and unbelievable to the mother that the child can be so immune to her constant scolding and shaming and punishment that training programme completely askew. They do not work with the majority of children. The battle becomes a test of the relative strength of the mother's demands and the child's desire to do as he pleases.

Only when habit training returns to an unemotional, patient repetition of desirable acts does it begin to be effective. It is difficult for a mother who has been tearing her hair because her child won't "well" to accept the responsibility for cleanliness which she bore uncomplainingly the first year. But when she does, she finds, surprisingly, that the child stops talking about what the child must do, and takes him to the toilet every hour for urination. Twenty minutes after dinner is a natural time for evacuation.

## PLEASANT ATTITUDE

The child may not wait for the mother's attentions, at first, but will continue his irregular toilet habits. However, if the regularity persists day after day and the mother assumes an exceedingly pleasant, even artificially pleasant attitude toward these ceremonies, the child is influenced to fall into this pattern of toilet activity since there is no particular reason to combat.

The fact that the mother works successfully in nursery schools with all kinds of small children, indicates that it could be transferred to the home with equal success. Remove such actions from the realm of naughty behavior and impress the child with the obvious fact that he is just wasting his own time not to conform to the regular habits his mother is carrying out.

Stubborn resistance usually results from throwing the burden upon the child too early and punishing him for his lapses. Mothers know from their own experience that such methods seldom work.

## SERENADERS FROM HONOLULU TO-NIGHT

TO-NIGHT

## KITCHEN

Perhaps one of the cheapest time and labor-saving conveniences in the kitchen is a good-sized pair of sharp shears. We all want—have electric choppers and mincers, but most of us can have a pair of strong sharp shears that will chop small amounts easily and well.

Celery and peppers are quickly cut for salads. Sift each stalk of celery with several gashes, then cut crosswise. The celery can be cut as fine or coarse as wanted.

There is no danger of making those unsightly scars on one's thumb when shears are used in place of a knife. So often when dicing meats and vegetables with a knife the pressure against the thumb of the left hand is great enough to slightly cut the skin. This makes an excellent place for stains from fruits and vegetables to settle and fine black lines through the end of the thumb are the result.

HANDY FOR STEAK, BACON

Lettuce is easily shredded; tops cut from beets, green onions trimmed and grape fruit prepared by means of the shears.

In trimming round steak and cutting the rinds off bacon the shears work twice as fast as a knife and with less danger of cutting the fingers.

An easy way to prepare fresh pineapple is to slice it across with a large knife and then "peel" each slice with the shears. Eggplant can be prepared this way too.

Canned fruits and marshmallows are easily prepared for desserts when slipped with shears. Dip shears in water to prevent sticking while cutting. After using shears they should be washed and gilded and lightly rubbed with any salad oil before putting away. Keep them in a drawer away from the children because they must have sharp points and be sharp on the edges if they give the most satisfactory results.

Use the shears to prepare the marshmallows, nuts and fruit in the springtime desserts.

SPRINGTIME DESSERT

One-half pound marshmallows, 1 cup whipping cream, 1 cup candied cherries, 1 cup candied pineapple, 1 cup pecan nut meats, 4 tablespoons powdered sugar, 1 teaspoon vanilla, few grains salt.

Cut fruit in small pieces. Cut marshmallows in quarters. Whip cream until firm, add sugar and vanilla and fold in prepared marshmallows, fruit and nuts. Turn into a mold and let stand on ice several hours to chill and become firm.

MONDAY'S MENU  
Breakfast—Chilled tomato juice,

# SPRING Cleaning

**Curtains**  
Curtains respond beautifully to our new and better process—they hang straight.

**Blankets**  
The refreshing cleanliness of blankets washed the NEW METHOD way will delight you.

**Pillows**  
When you send your blankets send your pillows as well.

**Cushions**  
Cushions, like pillows, require refreshing—now is a good time to send them.

**Upholstered Furniture**  
Chesterfield sofas, lounges, etc., require special treatment; they are safe handled by our experts.

**Chesterfield Covers**  
Let us restore the color and bright cleanliness to your furniture covers—ready for spring.

**Rugs and Carpets**  
You will be pleasantly surprised at the renewed attractiveness of rugs when cleaned the NEW METHOD way.

Just phone Garden 8166 and we will call for these furnishings. Because of the prompt service we take pride in giving, you will not find it inconvenient to have these home things cleaned.

## "The Tangle"

A Novel by

H. LAWRENCE PHILLIPS

Author of "Cap'n Benny" and "A Friendless Millionaire"

## CHAPTER VII

Manson was at this time about eight-and-twenty, and had already something of a name in the "inner circles" of having an almost uncanny instinct as far as crime and the criminal was concerned. Yet nothing conveyed the idea of a detective, or suggested a successful crime investigator as far as outward appearance was concerned.

He was well set up, but no more so than the ordinary athletic Englishman; his was a very ordinary-looking face, redeemed by a pair of merry grey eyes and a large mouth well stocked with white, serviceable-looking teeth. He looked younger than his years, and his ever-ready laugh, which witnessed to his keen sense of humor, created a sense of boyishness utterly at variance with his profession, while it led to confidences which he found extremely useful in his work. A head covered with curly golden hair completed the picture of juvenility which he presented.

He came of a good stock and had been to a good school, where he had acquired the sobriquet (in allusion to his hair) of "Curly Greens." While there he had been fast to Gray, who was several years his senior.

At school he had displayed less interest in the heroes of Greece and Rome than in modern detective fiction, and early decided to emulate the latter's achievements. So it was that with the quiet, dogged resolution which was characteristic of him, when demobilized with a captain's rank and Military Cross and bar, he quietly disappeared from his usual circle of friends, who, wondering what had become of him, failed to recognize him in the uniformed officer who sometimes passed their shoulder to shoulder in the street.

However, the opportunity of doing so did not wait for long. A clever piece of work caused him to be transferred to the number of plain clothes men, where he soon made good. Sent down to investigate the theft of Lady Barnston's pearls, the Chief Constable had asked him to lend his services for the purpose of his investigations into the Calumbe mystery.

Many of these details were known to Gray, and those which he was ignorant of Manson told him as they smoked their pipes together after lunch. He had found Gray reading a letter that had just arrived, which he declared to be of trivial importance, and indeed dismissed from his mind immediately.

Yet, had they known, it had a considerable bearing on the case. It was from Miss Montalt, written the night before, to say that she had to leave by an early train next morning, and would the Vicar kindly arrange for the flowers in the church.

"That is the sort of thing the poor person has to put up with. She could have told me all this when I met her on the way to the station," laughed Gray, handing his visitor a match.

"Now tell me all about yourself and show it is that my tag 'Curly Greens,' alias Captain Manson, M.C., is here in the disguise of a 'bobby.'"

"Now," he continued, "as a 'bobby' I want your assistance. Tell me all that you know about Mrs. Lisle and her sister."

At that question Manson thought that he perceived a subtle change in the Vicar's manner.

"Funny chaps these padres are," he said to himself; "he thinks his parish in disgrace and doesn't like to talk about it."

Indeed, Gray was feeling as though on tenter-hooks. Knowing what he did, he feared lest others should share

that knowledge, and anything that he might say might fasten suspicion upon the innocent. It was with difficulty, therefore, that Manson extracted information, and felt that he was in the position of a barrister examining an unwilling witness.

At last he asked the question which Gray had been dreading: "Where were you when you went over the house with Birks, did you see anything out of the way—I mean other than what was to be seen there now?"

"What have you found, by the way?" replied Gray, fencing with the awkward query.

"Enough to make me think that you have had a couple of curious parishioners at the 'Landens.'"

"There's genuine surprise in the Vicar's face as he heard this pronouncement."

"What are you talking about? Two more quiet or peaceful people one could not desire."

Manson grinned at the Vicar's words. "Oh! you dear old innocent! A burglar's outfit and a quantity of stolen jewelry suggests activities strangely at variance with the character you are giving the ladies."

"Good-gracious, man, what are you saying?" cried Gray in a state of consternation, and listened with open-mouthed amazement as Manson told him the history of his finds.

"What on earth does it mean?" he exclaimed.

"Time will show," replied "Curly Greens" as he knocked the ashes from his pipe and prepared to get back to the scene of the crime. "At present I am wondering whether the job I am supposed to be engaged upon links up with this, and whether in solving one mystery I shall solve the others. We even though the theft of Lady Barnston's jewels may not come into this matter, I fancy that I am justified in giving a certain amount of my time to this case. But I can't stay long over it unless I can find a connection. Her ladyship is a personal friend of the Home Secretary, and he has been worrying us no end in the matter."

"You haven't told me about them," said Gray, immensely relieved to find that he had no more unpleasant questions to answer, and seeking to avoid his friend's dangerous subject.

"The facts are simple. Lady Barnston had a house party, and there were some very distinguished guests among the number, so she sent out all her jewelry to cut a dash. Among these was the famous 'Barnston necklace,' a very wonderful collection, I understand, of fine Brazilian stones, and valued at five hundred thousand pounds. Her maid under her supervision, had got them out, and laid them ready for her adornment on the dressing table. A belated guest arriving, Lady Barnston went off to receive her, leaving the maid, and a few moments afterwards she also was called away by her mistress to attend to some minor want of the guest. The maid was not absent more than five minutes—mistress and maid are agreed upon that—but when she returned the necklace had vanished—the rest of the jewelry was untouched—and there is not the slightest clue to the thief."

"How about the maid?"

"Of course that was the first question. However, she was a staid body of fifty to sixty, of unimpeachable rectitude, and all her time accounted for, we had to dismiss her from our minds. Moreover, we went through her room and things most carefully."—Manson

(To Be Continued)

grinned—"never suspect anyone of innocence in such matters."  
"Did anyone get in from the outside?"

"Again the obvious. But the windows were shut and fastened, and careful investigation yielded no trace of a ladder; and though the path under the window was hard gravel, some traces must have been left."

"Was it hidden in the room for removal later?"

"You are coming on; that isn't quite so obvious a guess, but it won't do all the same. Every square inch was examined, and pretty thoroughly, I can tell you."

"That seems to bring it back to the house. How about the rest of the servants?"

"I don't know, but every one has a satisfactory alibi, none were anywhere near the room."

"What a tough problem. You are checked at this time, 'Curly Greens.' Manson's grin appeared in appreciation of the Vicar's leg-pulling.

"It looks like it, but you never know your luck. But here I am gossiping with you, and I should be back at the 'Landens' browsing round, and trying to find out something more about your 'quiet, peaceful parishioners.'"

"His last dig at Gray he took his departure, leaving him with much to consider. Manson found the Inspector waiting his arrival, with the plaster cast of the footprint which he had been asked to make. He had not overrated his ability in such matters, and received well-deserved praise for the photos soon."

"What is his report?"

"Yes, he's been at last, kept us long enough waiting for him as usual."

"Told us what we knew before. The bullet passed through the jugular, and death must have been nearly instantaneous. She seems to have been shot at close quarters, and less than half an inch would have been missed, poor soul."

"Manson looked very interested, and pondered the information for a moment. 'What does that suggest to you, Inspector?'"

"Darned if I know, except that the shooting must have been pretty bad."

"Or unintentional."

"The Inspector stared. 'How do you make that out?' he asked."

"I don't make that out," said Manson, grinning at the other's expression. "I only say that it suggests a possibility that the wound was the result of accident rather than intention, and that has been in my mind ever since I saw the body myself. I noticed the marks which the doctor has evidently made his opinion upon, and could not understand such a wound at such close range if Mrs. Lisle was shot intentionally."

"The poor soul might have struggled and deflected the shot."

"That is a possibility that I considered, but you will have noticed that the body suggested no sign of a struggle."

"The room is pretty much upside down anyhow."

"That is so, but you will also have noticed that by where the body lay there was a fancy table which was bound to be upset, if we assume a struggle, and it is untouched."

"Her 'looked' impressed, but not convinced, by the reasoning."

"Well, have it your own way," he replied. "Come along and have a look at the jeweler's shop. I've phoned through to our headquarters and asked them to go through their files and send me along as soon as possible a list of any hauls made recently from jewelers or elsewhere, that we may try to identify the articles."

Manson nodded approvingly. "That's good. If we can identify them it will be a great help. Make out a list as descriptive as possible, and we will send it on to the 'Yard' for them to go through."

(To Be Continued)

NEWS APPEAL BY  
RADIO STATION

Sioux Falls, S.D., April 15.—An appeal from the temporary injunction restraining radio station KSOO from using Associated Press news dispatches without authorization was on file in federal district court today, thus placing the case before the circuit court of appeals.

The appeal was taken from an order issued by Judge James D. Elliott March 14, prohibiting the radio station from using Associated Press news items for twenty-four hours after their first publication. Arguments on the appeal are expected to be heard at the fall term of circuit court.

In issuing the temporary injunction Judge Elliott upheld the right of the Associated Press to protect its news report from unauthorized use, ruled that it was not a monopoly operating in unreasonable restraint of interstate commerce and declared appropriation of its news by the radio station constituted unfair competition.

## MAN DIES OF INJURIES

Hull, Can., April 15. (Canadian Press)—Sixth victim of the Canadian match factory fire, Leo Larouche, thirty-nine, died here yesterday from injuries and burns received in the blaze, which snuffed out the lives of five young girls March 15 last. There are still six of the injured in a hospital here, all recovering.

## Victoria Daily Times

MEMBER ADVERTISING BUREAU CIRCULATION

TELEPHONE CLASSIFIED ADVERTISING  
8 a.m. to 9 p.m.—Circulation E4175  
Advertising E4176CLASSIFIED ADVERTISING RATES  
5¢ per word per insertion.  
Minimum charge 25¢.  
10¢ per line per month.  
Minimum charge \$2.50.Deaths, \$1.00 first insertion and \$1.00 succeeding insertions.  
Funeral notices, in Memorial notices and Card of Thanks, \$1.50 per insertion.

In computing the number of words in an advertisement, estimate groups of three or less figures as one word. Dollar marks and all abbreviations count as one word.

In estimating the number of lines in an advertisement, count five words for the first line and four words for each line thereafter. This is not an absolute guide to the number of lines in an advertisement, but a guide to the length of the individual words.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one issue. Any claim for refund of money or omission must be made within thirty days from the date of the same, otherwise the claim will not be allowed.

Advertisers who desire to have their notices appear in a box at the Times Office and forwarded to their private address. A charge of 10¢ is made for this service.

Subscribers wishing their addresses changed should notify this office for each line of their new address. If your time is missing, phone E4175 before 9 a.m. and a copy will be sent by special messenger.

CIRCUS STORY AT DOMINION

**Buster Crabbe Has Leading Role in "King of the Jungle" Which Opened To-day**

Taking its place as one of the best thrill pictures of the year, "King of the Jungle," which opens at the Dominion Theatre to-day, provides great entertainment for all classes. Buster Crabbe plays the part of the lion man. Part of the story is laid in the African jungle, but later shifts to America. Raiding and marauding with his lions, Crabbe is captured with them and then goes to America with a circus. There is great action in the picture and many thrills, notably the elephant stampede when the circus is threatened by fire and the lion man saves the animals. Francis Des, Ronald Cosey and Irving Pichel are also members of the splendid cast in the picture.

FINE DANCE PROGRAMME

**Most Popular Dance Hits Selected For Firemen's Ball Next Friday**

All the latest fox trots and waltzes, with one steps introduced for variety, have been selected by the Firemen's Ball committee for the big annual dance which will be held at the Empress Hotel next Friday evening.

The programme of twenty dances will be as follows: "Mardi Gras" fox trot, "Buy Canadian" fox trot, "Fit As a Fiddle" waltz, "Bird Songs at Eventide" fox trot, "Just An Echo" fox trot, "Foreword To Arms" waltz, "I Wake Up Smiling" fox trot, "The Girl in the Little Green Hat" supper waltz, "Play Fiddle Play" fox trot, "Vas Villat du Haben" waltz, "A Boy and a Girl Were Dancing" fox trot, "The Playing With Fire" fox trot, "You Little So and So" waltz, "Rock a Bye Moon" fox trot, "The Moon Song" fox trot, "Sweethearts Forever" waltz, "Masquerade" one step, "Scotch Fantasy" fox trot, "Let's Put Out the Lights" home waltz, "Save the Last Dance for Me."

Al Prescott's fourteen-piece orchestra, which will again do the musical honors, is engaged in rehearsing the music in readiness for the dance. The dance programme are just off the press. On the cover is a reproduction of the latest type of motor fire pump. Members of the committee announce that ticket sale is proceeding rapidly, the indications being that the dance will attract as many this year as was the case last year.

VANCOUVER ISLAND EGG-LAYING CONTEST

COMPETITION WILL CLOSE IN APRIL

Where To Go To-night

**As Advertised**  
On the Screen  
Capitol—"The Bitter Tea of General Yen," starring Barbara Stanwyck. Columbia—"Tom Mix in 'Flaming Guns,'" starring Tom Mix.  
Dominion—"King of the Jungle," starring Buster Crabbe.  
Empire—"The Love Contract," a British picture.  
Playhouse—"Edna Best in 'Lady Panniford's Folly.'"  
Crystal Garden—Swimming and dancing.

EMPIRE THEATRE

Undoubtedly Winifred Shottler is endeavoring herself to the film-going public. Her whimsical, charming, saucy dimples and demure prettiness place her in a category apart from the screen blond type, and in "The Love Contract," the British and Dominion's film on the bill at the Empire Theatre she justifies her rise to stardom by the really excellent performance she gives in the role of a girl chafeur in love with her employer.

To-day's Birthdays

**SATURDAY, APRIL 15**  
Raymond C. Van Drueten, 2087 Crescent Road, Victoria (6).  
Hilda Catherine Jutehison, 2637 1/2 Quadra Street, Victoria (7).

## NEWS IN BRIEF

George Love was fined \$30 in the City Police Court this morning for driving to the common danger.

After a slight indisposition, Magistrate George Jay resumed his place on the city police court bench this morning.

Good talent has been secured for the Army and Navy Veterans' smoking concert starting at 8 o'clock this evening. Prizes will be distributed.

Lee Wah Hoon, Chinese, pleaded guilty in the City Police Court this morning to a charge of being in possession of opium-smoking paraphernalia and was fined \$50.

D. Grogan will speak on "Why the students of Oxford and other universities have declared against war" at the open forum, 567 Yates Street, Sunday evening at 8 o'clock.

Rev. Alan Gardiner will preside over the extension examinations of Queen's University to be held at St. Saviour's rectory at 9 o'clock on Monday morning.

Soloist at the Easter dinner at the Empress Hotel to-morrow evening will be Mrs. Dorothy Parsons, mezzo-soprano, at the recent Musical Festival. Special music will be played by the hotel orchestra.

The Spanish Welfare is making an urgent appeal for a single bed and mattress, baby's high chair, cook stove, clothing and potatoes for needy families. Those wishing to help are asked to phone E 9301.

A grand Liberal dance and social rally next Friday evening, April 21, on the eve of the Victoria City Liberal nominating convention, will be staged in the A.O.F. Hall, 760 Cormorant Street. Arrangements for the affair are in the hands of Charles Ashorn, president of Ward Three Liberal Association. A five-piece orchestra will play.

As the Main Exhibition Building at the Willows Park will be required for the championship basketball play-offs for the week of April 24, the annual Vancouver Island Spring Flower Show, held under the auspices of the Victoria Horticultural Association, scheduled for April 28 and 29, will be transferred to the Horse Show Building by permission of C. B. Carley, lessee.

The weekly meeting of St. Paul's Anglican Young People's Association was held on Wednesday night. The members attended a church service before the meeting. On Wednesday, April 26, at 8 p.m., in the parish hall, Jack Alwyn, of the local council, will give a lecture, with the aid of moving pictures, on the proceeds going to the restoration fund. Members were reminded of the A.Y.P.A. dance to be held on Friday, April 21.

**HELMETS DUE NEXT MONTH**

City Police Will Switch Headgear With New Summer Uniforms

Victoria policemen will parade forth in their summer attire, which includes helmets to replace the present caps, about the middle of May, Chief Thomas Hestley said this morning.

The helmets, of a new and advanced design, will arrive about the first of the month and will be adopted by the uniformed street men at the same time they don their regular spring tunics.

The modern-type helmets, light but smart, are made in England, where twelve police forces have already adopted them. New Zealand police are also wearing them, but the Victoria force will be the first in Canada to take to the new design.

**Bureau Parking Results in Fine**

The first prosecution for non-observance of the no-parking area in front of the Victoria and Island Publicity Bureau entrance on Government Street came before Magistrate George Jay in the City Police Court this morning.

After a lengthy debate the City Council decided last month to give the bureau a restricted parking strip, for the convenience of tourists. The offending motorist said he had seen the signs "Reserved for Tourists," but did not realize their full significance. He was fined \$2.

**ARRAIGNED ON FRAUD CHARGE**

Henry Wilson, aged twenty years, of Calgary, was arraigned before Magistrate George Jay in the City Police Court this morning on a charge of obtaining money by false pretences. He pleaded not guilty and was remanded to April 18.

He was arrested on a warrant sworn out as a result of information given by Father C. Evans, alleging the accused had obtained \$4 by misrepresentation.

**FUNERAL TUESDAY**

Funeral services for Mrs. Jessie Dicks, of Sooke, will be held at McCull Bros' Funeral Home on Tuesday afternoon at 2:30 o'clock. Rev. John Johnson will officiate, and interment will be made in Royal Oak Burial Park.

**TOIL**

By HELEN WELSHIMER

There must be tasks somewhere for men to do. And to buy lamp glass and roof tiles. A Carpenter in Nazareth long ago. Said laborers are worthy of their hire.

LIFE still is good—not all the work is done. Fields wait untilled, tall trees too near the sky. Hold dreams of houses close against the earth—There must be visions or the people die.

PRIDE goes when men are weary with the search. So easily a tired heart breaks in two... We bring to prayers for conquest or for wealth—Dear God, please give each one some work to do!

## DAFFODIL AND HYACINTH SHOW

Annual Spring Show of Royal Oak Women's Institute Drew Big Crowd

The annual spring daffodil and hyacinth show of Royal Oak Women's Institute was held Wednesday afternoon in Royal Oak Hall with a large attendance.

Mrs. J. B. Munro opened the show at 3 o'clock and was presented with bouquet of flowers by little Jane Prosser.

Among the guests were Mayor Leeming of Victoria, Reece Crouch and members of the beaches and parks and cemetery committees.

Mr. Whitehead judged the flowers, while the domestic science exhibit was judged by Mrs. Nimmo, the cooking being donated to the institute in aid of the funds.

The conveners for the various sections were: Flowers, Mrs. Grieve and H. H. Reid; domestic science, Mrs. T. Hutchinson and Mrs. Hoole; plants, Mrs. H. H. Reid and the tea, Mrs. Wilkinson, Mrs. J. Reid, Mrs. Cliff and Mrs. Coffey.

Prizes were awarded in the following classes: For most points gained in Class 1, daffodils—1, Mrs. H. Reid; 2, Mrs. W. Heil. Bowl of long trumpet daffodils—Mrs. W. Heil. Bowl of short trumpet daffodils—Mrs. H. C. Oldfield. Best stems hyacinths—Mrs. Oldfield. Collection of hyacinths—1, Mrs. Gray; 2, Mrs. Heil. Bowl of spring blooms—Mrs. Oldfield.

Domestic science: Pies—1, Mrs. Hugh Campbell; 2, Mrs. T. Gray. Layer cake—1, Mrs. J. Reid; 2, Mrs. W. Heil. Shortbread—1, Mrs. D. Grieve; 2, Mrs. McQueen. Tea biscuits—1, Mrs. W. Heil; 2, Mrs. J. Reid. Marmalade—1, Mrs. Hoole; 2, Mrs. J. Reid. Best cushion—Mrs. Bassett. Fancy apron—Mrs. Grieve. Work apron—Mrs. Watson. Special, best iced cake—Mrs. A. Robinson.

**NOTED WOMEN COMING HERE**

Lady May and Violet Vanbrugh to Arrive on Aorangi Next Week

Among the distinguished passengers arriving in Victoria on the Ma Aorangi on Thursday next will be Lady May and Miss Violet Vanbrugh. They will spend several days in Victoria before continuing their journey overland to England.

Lady May is the wife of Sir George May, famous British economist, and chairman of the May commission appointed by the British Government, and on whose findings various economies were adopted by the Nationalist Government.

Miss Vanbrugh is the famous English actress, who is well known to British theatregoers, and was formerly the wife of the late Arthur Bourchier, London actor and producer.

**Langford**

An informal gathering was held Wednesday evening at the home of Norman Brown, Goldstream Road, to discuss the organization of the People's Movement. It was decided to choose a temporary executive to carry on until April 21, when a meeting will be held in Lutton Hall for organization.

**PIONEER NURSE DIES ON MAINLAND**

Vancouver, April 15.—Miss Eugenie O'Connor, a member of the first graduating class and for many years a nurse at the General Hospital, died at that institution Friday following a long illness. Deceased was born at Ingersoll, Ont., and came to Vancouver thirty-three years ago.

She was one of three nurses in the first graduating class at the old hospital at Cambie and Pender Streets in 1902. Since that time she has held many positions on the staff. She retired a year ago because of ill-health. A sister, Mrs. Eva Rice of London, Ont., survives.

**TELLS HOW VENOM OF SNAKES ACTS**

Sensations experienced after being poisoned by a deadly snake are described by John Ryan of Glasgow, who was bitten recently at the zoo there by a green mamba. His description of what was supposed to be a parcel of harmless reptiles.

Within half an hour of being bitten a weird tingling sensation stole gradually over his limbs, back and chest, and a bewildering state of mind ensued in which he was completely unconscious yet unable to comprehend the activities around him.

"I was able to walk, but could not sit," he said. "I was in full possession of my senses, knew where I was, could respond to questions, and could move my limbs, but for all I felt I might have been completely paralyzed."

"I can truthfully say that no anaesthetic could have acted more potently in rendering me fully unconscious of my faculties."

"I can distinctly remember getting no sleep that night, but after the surgeon had cut open my hand to clean the wound and bound a ligature around my arm I began to sit up and take notice. I became 'merely ill' and sensation returned."

A Real Surprise

A patient rang the bell of a doctor. "Can I see the doctor?" asked the patient.

"Couldn't you come to-morrow night?" asked the wife.

"No, that's busy," inquired the patient.

"No," said the wife, with a winning smile, "but you are his first patient and I'd like to surprise him to-morrow, as it's his birthday."

Experience Is Costly

Herbert—She says she thinks she can learn to love me.

Albert—Well, that seems encouraging, and still you don't look happy.

Herbert—No, I took her out last night, and the first lesson cost me my whole week's wages.

## Birthday Greetings Are Extended To-day To—

MISS JESSIE A. ALEXANDER  
GORDON OGILVIE  
GEORGE HUGHES  
GEORGE PINNINGTON  
EDWARD GEORGE BARTON  
JAMES D. WEST

Gordon Ogilvie, manager for Victoria of the Wiggy chain of grocery stores, is celebrating his birthday to-day. Gordon hails from Scotland and has traveled extensively in western Canada. Before coming to Victoria he resided in Vancouver for a number of years. He is married and a proud father of two young sons. He is a member of the Gyro Club and the Chamber of Commerce. He plays a good game of golf.

George Hughes is celebrating a birthday to-day. Mr. Hughes was born in Paisley, Scotland, and came to Victoria over twenty years ago. He joined the staff of the British Columbia Electric Railway Company on his arrival here and is paymaster for that company. He follows soccer, basketball, baseball and bowling and is considered an authority on facts and figures relating to all sports, particularly old country soccer.

Miss Jessie A. Alexander, stenographer at the Parliament Buildings, is celebrating her birthday to-day. She is a keen golfer and plays at the Macaulay Point Club. Miss Alexander is a member of the Hurmony Club. She resides with her parents and four sisters at 827 Queen's Avenue.

George Pinnington, 403 Hillside Avenue, will celebrate his twenty-first birthday to-morrow. He came here three years ago from France and is already a popular figure among the youth of the northern part of the city. He is the son of the clever stage star who is known as the "Nellie Wallace" of Victoria.

Edward George Barton, "Eddie," as he is familiarly known to a host of friends, celebrates a birthday to-morrow. He was born in Paines, Saskatchewan, but has lived the greater part of his life in this city. He is in the insurance business, having been on the staff of P. R. Brown, since for the last twelve years. He is also an enthusiastic angler and huntsman and an ardent lover of music.

James D. West, 1890 Haultain Street, is receiving birthday greetings to-day. He has been a resident of the city for the last forty years and for the last twenty-six years has been employed as foreman of the plumbing department of the Canadian Pacific Railway.

**FUSILIERS MAKE REUNION PLANS**

Former Members of 88th Battalion Prepare For Annual Banquet

To make plans for their annual reunion, former members of the 88th Battalion are requested to attend a meeting in the auditorium of the Britannia branch of the Canadian Legion on Tuesday evening starting at 8 o'clock.

It is proposed to hold a banquet on similar lines to previous reunions which have been so successfully held by the ex-Fusiliers. A date for the annual ex-Fusiliers' reunion will be set at the meeting to which the committee extends invitation to all former 88th Battalion veterans.

**Colwood**

The April meeting of the Women's Auxiliary of the Colwood Church was held Wednesday afternoon. Satisfactory arrangements were made with regard to the organ fund. Mrs. J. W. Little and Mrs. G. Harris were hostesses.

A silver tea and display of antiques will be held Wednesday afternoon, April 19, in Colwood Hall, under the auspices of the Colwood Women's Institute. A musical programme in the evening will be given by the Women's Institutes and all interested are invited to attend.

**TELLS HOW VENOM OF SNAKES ACTS**

Sensations experienced after being poisoned by a deadly snake are described by John Ryan of Glasgow, who was bitten recently at the zoo there by a green mamba. His description of what was supposed to be a parcel of harmless reptiles.

Within half an hour of being bitten a weird tingling sensation stole gradually over his limbs, back and chest, and a bewildering state of mind ensued in which he was completely unconscious yet unable to comprehend the activities around him.

"I was able to walk, but could not sit," he said. "I was in full possession of my senses, knew where I was, could respond to questions, and could move my limbs, but for all I felt I might have been completely paralyzed."

"I can truthfully say that no anaesthetic could have acted more potently in rendering me fully unconscious of my faculties."

"I can distinctly remember getting no sleep that night, but after the surgeon had cut open my hand to clean the wound and bound a ligature around my arm I began to sit up and take notice. I became 'merely ill' and sensation returned."

## BAND CONCERT IN PARK SUNDAY

Victoria Musicians' Association Planning Two Concerts a Week For Season Here

The first band concert of the season will be given to-morrow afternoon in Beacon Hill Park by the Victoria Musicians' Association, conducted by James M. Miller.

It is the intention of the Victoria Musicians' Association to present two open-air concerts each week during the coming season. The majority of the concerts will be financed by the city, as usual, but in order to make the season's programme complete the Musicians' Association plan to raise money by staging a mammoth variety and musical revue at the Royal Victoria Theatre on May 8 and 9. There will be a score of sensational acts and an orchestra of fifty musicians.

The programme for to-morrow afternoon's concert, which will commence at 2:30 o'clock, is as follows: Easter hymns; march, "The Sun God"; Zohle; selection, "High Jinks"; Freeman; valse, "Castina Tanze"; Gung; characteristic, "Algerian Song"; Ketebeby; overture, "Ruyanaka"; Weber's waltz, "Espagnole"; (a) Guadalupe; (b) Quasada; (c) Las Palmas; (d) Palencia; reverie, "The Sacred Hour"; Ketebeby; march, "The Ballet 'Les Millions d'Arcequin'"; Dirgo; (a) reconciliation polka; (b) serenade; grand selection, "Lucia di Lammermoor"; Donizetti; and march, "Soldiers' Life"; Hubert.

**MRS. F. WEBB CHIEF FACTOR**

Native Daughters Hold Election of Officers; Installation on April 26

The Native Daughters of B.C. Post No. 3 held its regular monthly business meeting in the New Thought Hall recently. Mrs. Cecil Davies, chief factor, presided. Final arrangements were made for the visit of the delegates to the grand post meetings of Native Sons and Daughters to be held in Ladysmith next week. Plans for a banquet for the members on April 26 at 7 p.m. were completed. The installation ceremony and a social time will follow. The members received word that the post had won the Patterson Cup for floor work.

The annual meeting and election of officers for the ensuing year took place. The following members were elected to fill the various offices: Chief factor, Mrs. F. Webb; past chief factor, Mrs. Cecil Davies; vice-factor, Mrs. J. A. Lorrimer; chaplain, Miss Lillian Smith; treasurer, Mrs. R. Daisel; secretary, Miss Jean Lorrimer; chief guide, Mrs. J. King; assistant guide, Miss Marjorie Gillies; inner sentinel, Mrs. F. Pomeroy; outer sentinel, Miss Laverne Neelands; auditor, Mrs. A. C. Grant; historian, Mrs. W. Kinsman.

A vote of thanks was tendered the retiring officers and the pianist for their work throughout the last year.

**Overnight Entries For Tanforan**

First race—Spreckles course: Phusy 121, Cajon 116, Mountain Fire 103, Tobacco 111, Kay Dugan 101, Gleaming Star 116, Flying Ace 106, All Feet 106, Charming Lady 111, Ruffian 111, Meadow King 108, Western Mark 111, Second Race—Spreckles course: Jim's Dream 101, Dupee 108, Missive 116, On Bobby 116, Afridi 111, Birdie Wrack 111, Del Welles 111, Bopstop 111, Miss Sage 109, Principality 109, Leano 106, Salinas 93.

Third race—Spreckles course: Sun B 107, Chub 112, Don Alvaro 117, Pretty Monk 104, Calome 101, Moane Keala 107, Chazman 113, Golden Sun 112, Hand to Hand 100.

Fourth race—Spreckles course: Lady Conard 107, Miss Cheyenne 98, Shasta Buxton 112, Barbara Leda 98, Woolf Meeter 105, Durango 103, Bud Brown 105, Lamp Black 107, Bon Moon 108, J. W. Grant 107.

Fifth race—Mile and one-sixteenth: Sophist 108, Portnesia 108, Gratian 109, Quiver 107, Southard 106, Huddersfield 113, Longus 114.

**Helen Moody Says Men Much Better**

**Weismuller Would Defeat Helene Madison By Nine Seconds in 100 Yards**

By ROBERT EDGREN

Miss Maureen Orentt candidly admits that Bobby Jones is the only mere man golfer she doesn't feel she can meet on equal grounds. But why make Bobby Jones an exception? We seem to remember an occasion when Walter Hagen played a seventy-two hole match with Bobby and beat him 12 up and 11 to play. This was the same year Bobby won the British open, the U.S. open and the medal in the U.S. amateur. As Walter Hagen is among the other golfers Miss Orentt feels she could meet on equal grounds, and as he gave Bobby the worst beating of his career, why shouldn't Miss Orentt believe she could do the same thing? What that girl lacks is confidence.

As a general rule woman athletes champions can hardly rival men in performance because they are not proportioned for the human limit in strength and speed.

For instance, champion Rena McDonald, Boston, has put the eight-pound shot 32 feet 7 inches. Leo Sexton of the N.Y.A.C. has moved the sixteen-pound shot record up to 53 feet 1/2 inch. Probably Sexton could throw an eight-pound shot like an apple.

**STELLA WALSH FIFTEEN YARDS BEHIND**  
Stella Walsh, best woman short-distance runner, won the Olympic 100 metres in 19.9 seconds. Eddie Toan won the men's Olympic 100 metres in 10.3 seconds. Stella would be running fifteen-and-a-half metres behind Eddie at the finish—which is pretty fast for a woman runner. Miss Walsh has run 100 yards in 10.8 seconds—women's world record. Frankie Wykoff's world record is 9.4 seconds. Frankie would lead Stella 14 yards at the finish if both ran at their best speed.

Babe Dirlikov won the women's javelin-throwing event with 143 feet 4 inches, a record and a sensation. Matti Järvinen, Finland, won the men's javelin throw with 228 feet 7 inches. This was about ninety-five feet farther than Babe's throw, and Babe was reputed to be the huskiest of all women athletes. Lillian Copeland threw the smaller women's discus 133 feet 2 inches. John Anderson heaved the 4½-pound discus 162 feet 4½ inches.

Jean Shiley, Philadelphia, Olympic champion, has cleared 5½ inches in the running high jump. A splendid performance. George Spitz of the N.Y.A.C. is world's record holder at 6 feet 8½ inches, which is a little more than a foot and three inches higher. A foot in the high jump is like a foot on the end of your nose, as the saying goes. High jumping being a natural physical performance, not a matter of skill or strength like weight-throwing events, it gives a fair line on the difference between men and women athletes.

To take another natural sport, how about Helene Madison, most sensational of all women athletes last year, great swimmer who cracked every world's record (for women) that she went after from 100 yards to 1,000 metres, and finished her amateur career undefeated? Helene swam 100 yards in sixty seconds. Marvellously fast, but Johnny Weismuller's time for the same distance was fifty-one seconds, which is quite a bit faster.

**WOMEN LACK DISTANCE IN GOLF**

Many women golfers play an almost perfect short game, but they are all handicapped by physical inability to back the putt or great distances with driver or brassie, which cuts out the possibility of their offering real competition to the top flight of men golfers. Miss Joyce Weisner, British world champion who retired because she had no real competition, and who has played on equal terms with some of the best British players, may be the only exception to the rule. Her skill overcomes lack of distance.

Helen Wills Moody, queen of the world tennis courts for several years and still invincible in her class, developed her fine game by playing with men. She has no idea that she can defeat the best male competitor, however. In fact she says candidly that she cannot, and she is absolutely right. She doesn't make Vines the sole exception, either, for she says that any top rank player can defeat the women players of the same rank, simply because men have more reach and strength and can move faster and are physically better adapted to the requirements of sport competition. We will enjoy Helen's playing just as much as ever for all that, and while there are a few men players who could defeat her because of their merely physical advantages there are thousands who couldn't.

**U.S. TRACKS NOT FITTED FOR METRIC SYSTEM**

The United States A.A.U. is a lot of opposition when it has to change through a change from yards to metres for U.S. sport competition. This action was little less than silly, taking all angles of the question into consideration.

The metric system is superior to that used in the U.S., but the American system of measuring in inches, feet, yards and miles is so established in many countries that there is little chance it will ever be changed. In the U.S. all land, and all construction work is laid out on the old English standard

## P. J. Mulqueen Entains East

Vancouver, April 15.—Greatly improved in health, P. J. Mulqueen, chairman of the Canadian Olympic Committee, left for Toronto yesterday afternoon.

Mulqueen was taken suddenly ill here last Monday evening at the conclusion of the annual meeting of the Canadian Amateur Hockey Association, but has shown steady improvement during the last few days.

## JACK MATSON WINS MEDALIST HONORS IN B.C. AMATEUR

(Continued from Page 14)

consistent championship form for such a well-known player. He took 84 in the morning and 81 in the afternoon for a total of 165, but since scores of 178 were sufficient to get among the first thirty-two in the field of fifty, young Black is still to be reckoned with in the coming match play.

Another sudden reversal was that of Art Beasley, who led the field in the morning with a 74 to put him in second place, and added a 79 in the afternoon for a total of 153.

One score of 173 qualified, E. Wright, defeating W. H. Newcombe in a play-off.

**CRICKETERS TO MEET TUESDAY**

The Victoria and District Cricket League executive will hold a special meeting at the Y.M.C.A. on Tuesday evening at 8 o'clock to draw up the 1933-34 season and discuss plans regarding the visit of the English test team due to pass through Victoria on its way home next week. All teams are requested to have delegates at the gathering.

Victoria's difficulties over grounds appeared solved to-day, it was announced by Percy Payne, vice-president of the cricketers, will be all right to use Work Point pitch, through the courtesy of Brigadier J. Sutherland-Brown.

As applied to U.S. sports, every running track and sport field or swimming tank in the country is laid out in yards, and it is not until the metric system is used in the Olympic games. But U.S. athletes have shown that they can break records in metres, and that they are not handicapped in Olympic competition by having run their previous races over slightly different distances. There were twenty-three events in the recent Olympic meet. Sixteen were won by athletes accustomed to compete where the metric standard was not used.

The only argument in favor of a change to metric measurement is that it is used in the Olympic games. But U.S. athletes have shown that they can break records in metres, and that they are not handicapped in Olympic competition by having run their previous races over slightly different distances. There were twenty-three events in the recent Olympic meet. Sixteen were won by athletes accustomed to compete where the metric standard was not used.

The metric system is superior to that used in the U.S., but the American system of measuring in inches, feet, yards and miles is so established in many countries that there is little chance it will ever be changed. In the U.S. all land, and all construction work is laid out on the old English standard

# Comparison of Men and Women Athletes in Several Sports

## WEST INDIES CRICKETERS TO START ENGLISH TOUR

George Headley, Known As the "Black Bradman" Among Players Who Will Take Part in Four-month Engagement; Three Test Matches Will Be Played

London, April 15.—With the "Ashes" won from Australia and safely tucked away, all England is now looking forward to the tour of the West Indies cricket team this summer. The visitors arrive tomorrow with a four-month tour ahead of them that will include three test matches.

The last meeting of England and the West Indies saw an All-Jamaica team win three unofficial test matches. Early in 1931 a team chosen by Lord Tennyson visited the West Indies. Of that visit the one thing that will go down in history was the showing of the youthful George Headley.

So well did the "Black Bradman" play in the series that he scored 723 runs in four innings and as he was not out twice he secured the remarkable average of 361.5.

Headley will be among those landing to-morrow.

Although he will not be twenty-four until May 30, he has a wonderful repertoire of strokes, both orthodox and unorthodox.

In addition to playing all the counties, the visitors will play three tests. The first will be at Lord's, June 24 to 27; the second at Old Trafford, July 22 to 25; and the third at The Oval, August 12 to 15. The tour opens with a two-day match against the Club Cricket Conference at Gatford Bridge.

**Championship Play At Uplands Course**

To-morrow, at the Uplands Golf Club, the opening two rounds of match play in the last B.C. championship. The draw and starting times follow:

Championship Flight  
8.45—A. Dorrell vs. A. Woodcraft.  
8.45—A. E. Irish vs. G. S. Carr.  
9.15—J. V. Barnes vs. W. E. Cook.  
9.15—D. P. Buchanan vs. Alan Ritchie.  
9.40—A. V. King vs. Major W. C. Angus.

9.45—Major F. V. Warner vs. Charles H. Thomas.  
9.45—T. H. McBain vs. L. C. Lytton.  
9.45—J. Lewis vs. S. C. Travis.  
9.45—B. Barnes vs. R. C. Elliott.

First Flight  
9.25—Thomas H. Horne vs. W. Herbert.  
9.30—E. Jackson vs. T. G. Harris.  
9.35—A. G. O'Connell vs. N. H. Lord.  
9.40—T. S. Whittemore vs. R. K. Taylor.

9.45—T. Thirkell vs. W. P. Masters.  
9.50—J. O. Cameron vs. P. Phillips.  
9.55—J. V. Barnes vs. W. E. Cook.  
10.00—E. H. M. Foot vs. R. Dunn.

Second Flight  
10.05—J. H. Regan vs. P. L. Leslie.  
10.10—A. J. Watson vs. E. H. Wells.  
10.15—G. R. Naden vs. W. A. Pendray.  
10.20—J. A. Mackinnon vs. D. E. Fletcher.

10.25—S. Porter vs. B. Waude.  
10.30—D. O. Elford vs. Allan Craig Sr.  
10.35—J. H. Robinson vs. W. J. Johnston.  
10.40—D. A. Nairne vs. J. P. Owens.

Third Flight  
10.45—M. R. Pearce vs. E. Jones.

**POOR PA**

By CLAUDE CALLAN

The attendance at our church is fallin' off. Our preacher still insists on the old price for salvation, while that church in the next block has cut prices.

(Copyright, 1933, Publishers Syndicate)

**GLEASON WAS STAUNCH Defender of Game**

"Kid" Gleason, the famous old-time ball player who died recently, belonged to the old school of players who have few if any modern counterparts.

The "Kid" retained an unusually rugged constitution and superhuman strength until almost the day he died. Like Frank Bowerman, the old-time pitcher, Gleason at sixty could swing the ball around the diamond in spring training with most of the young fellows and never had a sore arm in his life.

Many tales are told of his fighting prowess. "On day in White Sox while he was managing the White Sox a taxi driver wandered into the hotel lobby and began running down ball players to Gleason, a benevolent, white haired, bespectacled figure sitting in a chair. It took five men to pull the "Kid" off the taxi-driver, who was glad to escape with his life.

"The man home of the League of Nations being built in Geneva, Switzerland, has a facade one-third of a mile long, an assembly hall to seat 2,000 persons, and a press gallery to seat 600 journalists.

Philadelphia, April 15.—Walter Beck made an auspicious National League debut, and Johnny Frederick made things look very tough for Hack Wilson's hopes of playing right field for Brooklyn, yesterday, as the Dodgers turned back the Phillies for the second time, 7 to 1.

The Dodgers, meanwhile, pounded their former teammate, Austin "Cy" Young, 10 to 1.

## TEAMS ENGAGE IN CUP SOCCER

Outer Wharf Rangers Draw and Lose in Pair of Tolmie Cup Fixtures

In the two Tolmie Cup football matches played yesterday at the lower Beacon Hill grounds the Macabees-Wards defeated the Outer Wharf Rangers 2 to 1 in the morning, while the afternoon match between the Jokers and Rangers ended in a 2-to-2 deadlock.

The morning fixture saw the Macabees-Wards score two goals through Jimmy Dickinson, centre-forward. Tommy Belford netted the lone counter for the Rangers. The match was a hard-fought affair throughout.

In the afternoon engagement Sale and Wyatt scored for the Jokers, while Taylor and Tommy Belford were responsible for the Rangers' counters.

Montreal, April 15.—With an ever-increasing number of Canadian-born riders, the eighth semi-annual six-day bicycle race will get under way here at one minute past midnight Monday morning. From then until 11 o'clock Saturday night, jumps, sprints and accidents will add their quota to one of sportsworld's most colorful events.

For the first time in Canada the crack "Red Devil" team of Alfred Letourner and Gerard Debeas, winners within the last few weeks of the New York and Chicago races, will compete.

This pair will enter the race as favorites over the Canadian team of William "Turkey" Peden, Victoria, and Lauren Gadou, Montreal.

Canada's contribution to the field, in addition to Peden and Gadou, includes Henri Lepage and Jules Aubry, both of Montreal; Reggie Fielding, Toronto, and Freddie Each, Verdun, Que.

"Polly" Parrott and Lew Rush, both of Victoria, and "Stonewall" Jackson, Canadian Olympic rider from Victoria, who is paired with Otto Petri, Germany.

Johnny's Right Hand Grip Is Not Loose

Beck's feat consisted of holding the heavy-hitting Phillies to seven hits and wiffing five of them while the Dodgers hammered out a 7 to 1 victory.

Robert Moses, Grove, the Athletics' stellar southpaw, still led the Senators' bats after two straight victories and gave the rebuilt Mackmen a 5 to 1 triumph.

Washington, April 15.—Shutting out Washington Senators for eight innings, Bob Grove yesterday led Philadelphia Athletics to a 5 to 1 victory and their first win of the season.

The lanky portlander scattered the six hits he allowed, and aided by the slugging of Fox and Higgins, kept Washington from making it three in a row.

Not until the last inning did the Griffins tally, when Goose Goslin, after doubling, scored on Schulte's single.

Stewart, starting his first game for Washington, allowed seven hits in eight innings. Higgins opened the fifth for Philadelphia with a homer over the right field fence.

In the eighth, Cochrane slammed out a triple, and after Fox was purposely passed, Bluege took Johnny's roller ball throw wild for a bases-clearing, tempted double play, Cochrane scored.

Philadelphia ..... 5 9 1  
Washington ..... 0 0 0  
Batteries—Grove, and Ooch; Rufing, Russell and Sewell.

New York, April 15.—Charley Ruffing put a story-book finish on a five-hit mound duel with Bob Weiland yesterday, and gave the Yankees their second straight victory over Boston Red Sox, 6 to 2. Lou Gehrig tied the score for the Yanks in the sixth with his second homer in two days.

R. H. E.  
Boston ..... 2 5 2  
New York ..... 6 2 0  
Batteries—Weiland and Ooch; Rufing, Russell and Sewell.

NATIONAL LEAGUE  
Philadelphia, April 15.—Walter Beck made an auspicious National League debut, and Johnny Frederick made things look very tough for Hack Wilson's hopes of playing right field for Brooklyn, yesterday, as the Dodgers turned back the Phillies for the second time, 7 to 1.

The Dodgers, meanwhile, pounded their former teammate, Austin "Cy" Young, 10 to 1.

## FOUR VICTORIA RIDERS ENTER

Peden, Parrott, Rush and Jackson Compete in Montreal Bike Race

Montreal, April 15.—With an ever-increasing number of Canadian-born riders, the eighth semi-annual six-day bicycle race will get under way here at one minute past midnight Monday morning.

From then until 11 o'clock Saturday night, jumps, sprints and accidents will add their quota to one of sportsworld's most colorful events.

For the first time in Canada the crack "Red Devil" team of Alfred Letourner and Gerard Debeas, winners within the last few weeks of the New York and Chicago races, will compete.

This pair will enter the race as favorites over the Canadian team of William "Turkey" Peden, Victoria, and Lauren Gadou, Montreal.

Canada's contribution to the field, in addition to Peden and Gadou, includes Henri Lepage and Jules Aubry, both of Montreal; Reggie Fielding, Toronto, and Freddie Each, Verdun, Que.

"Polly" Parrott and Lew Rush, both of Victoria, and "Stonewall" Jackson, Canadian Olympic rider from Victoria, who is paired with Otto Petri, Germany.

Johnny's Right Hand Grip Is Not Loose

Beck's feat consisted of holding the heavy-hitting Phillies to seven hits and wiffing five of them while the Dodgers hammered out a 7 to 1 victory.

Robert Moses, Grove, the Athletics' stellar southpaw, still led the Senators' bats after two straight victories and gave the rebuilt Mackmen a 5 to 1 triumph.

Washington, April 15.—Shutting out Washington Senators for eight innings, Bob Grove yesterday led Philadelphia Athletics to a 5 to 1 victory and their first win of the season.

The lanky portlander scattered the six hits he allowed, and aided by the slugging of Fox and Higgins, kept Washington from making it three in a row.

Not until the last inning did the Griffins tally, when Goose Goslin, after doubling, scored on Schulte's single.

Stewart, starting his first game for Washington, allowed seven hits in eight innings. Higgins opened the fifth for Philadelphia with a homer over the right field fence.

In the eighth, Cochrane slammed out a triple, and after Fox was purposely passed, Bluege took Johnny's roller ball throw wild for a bases-clearing, tempted double play, Cochrane scored.

Philadelphia ..... 5 9 1  
Washington ..... 0 0 0  
Batteries—Grove, and Ooch; Rufing, Russell and Sewell.

New York, April 15.—Charley Ruffing put a story-book finish on a five-hit mound duel with Bob Weiland yesterday, and gave the Yankees their second straight victory over Boston Red Sox, 6 to 2. Lou Gehrig tied the score for the Yanks in the sixth with his second homer in two days.

R. H. E.  
Boston ..... 2 5 2  
New York ..... 6 2 0  
Batteries—Weiland and Ooch; Rufing, Russell and Sewell.

NATIONAL LEAGUE  
Philadelphia, April 15.—Walter Beck made an auspicious National League debut, and Johnny Frederick made things look very tough for Hack Wilson's hopes of playing right field for Brooklyn, yesterday, as the Dodgers turned back the Phillies for the second time, 7 to 1.

The Dodgers, meanwhile, pounded their former teammate, Austin "Cy" Young, 10 to 1.

## CHAMPION U.S. HURDLER DEAD

George Saling, Olympic Winner, Dies From Injuries in Automobile Crash

St. Charles, Mo., April 15.—George Saling, twenty-three, famous Olympic hurdler of the University of Iowa, died here to-day of injuries received when his automobile crashed into a truck near Troy, Mo., at midnight yesterday evening.

He was one of the outstanding hurdlers in this country, and was a member of the United States Olympic team that made a clean sweep in the 110-metre hurdle, Saling won first place in the world record time of 14.6 seconds.

Saling and two companions, E. D. Youngblood, Kirksville, and Arthur Bumstead, Delaware, O., were driving to St. Louis where Saling was to give an exhibition of hurdling at the Maplewood relays to-day.

About ten miles out of Troy, Mo., the automobile, with Saling at the wheel, struck a truck which had run out of gasoline. Saling received four fractured ribs and his head, and his heart was displaced. His two companions were uninjured.

**BRILLIANT FORM SMOTHERS JACKS IN SECOND GAME**

(Continued from Page 14)

gave the Jacks two points. Kirkham counted with a free throw to make the totals, Victoria 21, Raymond 9. Reaching up to pick off a rebound Art Chapman scored on a lay-up, and the game was matched by another fine side-court shot by O'Brien. Nilsson dropped through a free shot and just before the half-time gun Lynn Patrick raced in from the floor in place of Art Chapman, and scored, giving the Ribbons a 25 to 12 margin at the interval.

**SECOND HALF**  
With the start of the second half the Jacks substituted Albert Hague for Nilsson at guard, the latter having three personal fouls against him. The Ribbons took no time in resuming their scoring spree, Little converting a pass from Muzz Patrick and Art Chapman tossing in a lay-up. The Ribbons countered with a long shot, but Lynn Patrick again found the mark from underneath. Art Chapman jumped up to slap a rebound, but O'Brien dropped in from the floor in place of Art Chapman, and scored, giving the Ribbons a 25 to 12 margin at the interval.

**GOOD SHOOTING GIVE ROYALS 5 TO 2 WIN**

(Continued from Page 14)

and booted back Sanford's clearances from close in. Six minutes after Victoria's second goal, Strang went in to take a first timer from West on the Royals' wing and drive it between the posts for the closing score.

As the game drew to a finish, Victoria went all out for a goal, but could not get organized. Morgan tried hard, but missed. Wagland hit the bar and Stewart returned the ball to the same place.

In between dust storms, the locals peppered in fair attempts, but they lacked steam and the Royals' custodian was safe.

Dave Swan refereed and the teams lined up as follows:  
New Westminster Royals—Sanford, Anderson, McKibbin, Rimmer, Stoddard, Delaney, Strang, Trotter, Hammond, Turner and Fidler. Reserves, Stoddard and West.

Victoria all-stars—De Costa, Joe Crow, Fred Gibbons, Williams, Joe Crow, T. Smith, R. Stewart, John Watt, Fred Price, Mike Wagland and Noel Morgan.

In the preliminary Spanish Thistles defeated Bequimault 2 to 1 in a second division game.

**DUSTY COOK IS SENT TO NEWARK**

New York, April 15.—Allen Dusty Cooke, outfielder, yesterday was released outright by the New York Yankees to their Newark farm club in the International League.

Cooke, who did not play last year because of an injured arm, played in twenty-seven games in 1931 and batted .335.

Moore, and his successors, Hansen and Grabowski, for fifteen hits. Frederick set the pace by pasting a homer and three singles in his first four trips to the plate.

# Dorothy Dix's Letter Box

**How Can a Wife Steer a Fair Course Between Overcomplaisance and Ill Temper?—Shy, Sensitive Man Is Really an Egoist—Has Wife Right to Shift Furniture to Suit Her Taste?**

DEAR MISS DIX—I am a girl of twenty-four, desperately in love with a young man who loves me even more, and we are soon to be married. I want our marriage to be a success. Please tell me the most logical way of making it one. The heart of divorce is because the wife is too good, too kind, making too great an effort to please her husband so that it gets monotonous. I hear of divorces because the wife is unreasonable, so ill-tempered that it gets unbearable. Isn't there some middle way that a woman can take? ANNABELLE.

Answer—I think that very few marriages would be failures if the husband and wife made an honest effort to make them successes. But they don't. They trust the most important thing in their whole lives to chance and then expect some miracle to be wrought that will make them happy in spite of their own shiftlessness and laziness.

Yet these same people who do nothing to make their marriage a success wouldn't plant a garden and expect it to produce flowers unless they worked it and watered it and tended it. They wouldn't expect a business to prosper if they neglected it and used no intelligence and judgment in its management. But they expect a marriage to prosper and bring them a million per cent dividends in happiness by simply chucking it into the lap of Lady Luck.

So if you and your husband want to make your marriage a success you can do it if you are willing to work together and put your hearts in it, and if you are willing to put one-tenth of the thought in it you would make a success in any other line. But you have to work together. Neither one can do it alone. No business can prosper if one partner is a slacker and a quitter.

But if one partner has to be more on the job than the other, it is the wife. Possibly this isn't fair, but it is the way things are, and, as Mr. Cleveland observed, it is a condition and not a theory that confronts us and we have to deal with it on that basis.

On the wisdom, the sportsmanship, the common sense, the self-control and the tact of every woman hangs the success of her marriage, unless the man is a degenerate or a brute, and not many men are villains. The average man is in love with the woman when he marries and honestly means to make her happy. And he is good husband material if his wife knows how to work him and has patience to turn out a good job.

So if I were giving any general rule to a woman for making marriage a success I would say: First, study your man. Find out how to handle him and then, instead of bumping into all the angles of his disposition, guess at them. If your husband is vain and egotistical, jolly him along. Make your homelife of flattery so much stronger than any other woman compounds that he will never go abroad in search of it.

Every man desires above everything else on earth to have his wife admire him, for her to think he is the wisest, handsomest, strongest, bravest man in the world, and as long as she does this his interest in her and his affection for her never wanes.

If your husband has the head-of-the-house complex, let him have the empty honor. Don't dispute it with him. As long as you ask his advice about everything he will never notice whether you take it or not.

If your husband is of a gay and pleasure-loving disposition, grab your hat and go whenever he wants to step out. A man who loves to play has to have a playfellow, and if his wife won't play with him there are plenty of other girls who will.

Drive with a light rein if you want to keep your husband from bolting. Don't make your home a jail if you expect your husband to stay in it of his own accord, nor constitute yourself his jailer if you expect him to love you.

Don't quarrel. Don't argue. Don't nag. Don't interfere with all of your husband's personal habits. He was a grown man with established tastes and ways before he married you, and you interfere with these at your peril.

Make your husband a comfortable home. Feed him well. Respect his individuality and make him respect yours. Play the game fairly and squarely and you need not fear that your marriage will be a failure. DOROTHY DIX.

DEAR MISS DIX—What can you do with a man who is so shy and sensitive that unless he is sure you like him you can't get any rise out of him, and, on the other hand, so loves his freedom that he takes fright if you show any enthusiasm for him? Being impersonally friendly is the way to get along pleasantly with him, but that doesn't lead to anything. Looks to me as if this desire to eat his cake and have it too, was going to be as successful in keeping him single as it has many another bachelor. Is there any way to beat this combination? I should certainly appreciate it, for I am

ONE WHO WOULD LIKE TO.

Answer—I don't think there is any way to beat the combination of selfishness and egotism, and there are two reasons why a woman is foolish to waste her time in trying to do it. One is that it can't be done, and the second is that it isn't worth doing, because that kind of man is incapable of really loving a woman. His one grand passion is for himself and he sacrifices everybody and everything to it.

Observe how it works out in your own case. The reason he is shy and sensitive is because all of his thoughts are morbidly centered on himself. He isn't happy unless somebody is burning incense before him in the way of trying to draw him out and flatter and please him. He makes you do all of the kotowing and love-making, and then when he is afraid you might really inveigle him into matrimony he runs away.

He wants to have a woman love him. He desires the pleasure of her society, but he doesn't want to pay for it by assuming the burdens and responsibilities of marriage. He wants to get all and give nothing, and if that isn't a mean playboyish spirit, I don't know what is.

And he doesn't care a rap about the rotten deal he is handing you. He doesn't feel that it is dishonorable to fill a girl's heart so full of love for him that it will never have room in it for any other man, and he doesn't mean to be anything but a transient guest in it. He doesn't think that it is beastly unfair to monopolize a girl through the springtime of her youth and beauty, when she would have her best chances of marrying, and then give her the air when she has got a little passé. No. All he thinks about is himself.

Why you want to marry a selfish, self-centered man, goodness only knows, but if you do, remember that the only way that you can appeal to him is through his selfishness. Make yourself necessary to his comfort and happiness and entertainment, and then leave him flat. If he misses you enough, he will buy your companionship, even at the price of a wedding ring. DOROTHY DIX.

DEAR MISS DIX—My husband and I are always having trouble over the house and the furniture. He wants everything to please him and nothing to please me. If I move a table he fusses until it is moved back into the same old place. I am a good housekeeper and take a lot of pride in my home, but I get so disgusted that I think I will never do another thing. What do you advise? WIFE.

Answer—I advise your husband to keep his fingers out of your pie. A woman lives in the house all the time. A man is in it merely to eat and sleep. So it is far more important that she should have things in it to please her than it is for him to have things in it to please him. A woman's home is her castle, and in it she has a right to her own taste for furniture and to shift it about as much as she likes. DOROTHY DIX.

OKAY, YOUNG LADY—OKAY!

I SUPPOSE YOU CAME HERE TONIGHT TO WATCH THE FOUNTAIN?

NO, SIR! I CAME HERE HOPEING I'D MEET A CERTAIN GIRL. GIVE ME A BREAK, WON'T YOU? I DON'T CHASE ME!

TOO BAD THOSE KIDS WEREN'T AT THE SAME PLACE IN THE PARK! I'D HAVE INTRODUCED THEM TO EACH OTHER AND THEY COULD HAVE SPENT THE REST OF THEIR LIVES WATCHING FAITHFULNESS!

AND FATE GOES MERRILY ON ITS WAY LAUGHING CRAZILY AT THE TRICK IT PLAYED...

## Music Lovers Visit Wagner Birthplace

A music-loving world still honors Richard Wagner, the great German composer, who died 50 years ago. To commemorate the fiftieth anniversary of Richard Wagner's death, the city of Bayreuth, Germany, has organized a series of events. The city, which the world virtually owes its existence to the memory of Richard Wagner and his immortal music, has a bulletin from the National Geographic Society.

designed for Wagner, resounds to the strains of "Parsifal" and other of his masterpieces, and for those two months Bayreuth is all bustle and stir. The town's shops carry a complete line of Wagneriana in addition to their regular stock. They show souvenir postcards and photographs of everything relating to the life of Wagner, books about him and his works, and even a complete set of his operas. A newspaper devoted entirely to one man and his affairs. Shop windows display little busts of Wagner and steels are named for the composer or his operas. Few visitors leave Bayreuth without first paying tribute before the great slab of marble, unmarked by inscription or design, that covers the master composer's grave. The grave is in the garden of Villa Wahnfried, Wagner's refuge of peace, on Richard-Wagner-Strasse. A few days after Wagner was buried in the tomb which he had prepared, his good friend, King Ludwig of Bavaria, rode to Bayreuth alone in

the dead of night to pay his last respects. Wagner's home is now occupied by his son's wife and her children. "Wagner City" is just off the route to anywhere. Its very isolation endeared it to Wagner. Many cities offered to do homage to the master's opera as long as there were listeners to hear, but Wagner chose Bayreuth. It lies in mountainous south-central Germany, on the edge of the Black Forest, on the map and you will find it. Nuremberg is another forty miles south of Bayreuth. An airplane journey from Nuremberg to the metropolis of Leipzig would take a sixty-eight-hour right over Bayreuth, but the forested mountains that close around it compel the main line railroad to seek a valley further east. "Bayreuth, little known before Wagner's residence there, is the capital of the Bavarian State of Upper Franconia. Its industries include spinning and weaving, and the manufacture of machinery, porcelain and furniture."

## Versailles Treaty Terms Under Fire As Europe's Resurging Nationalistic Forces Push Demands For Revision

Pre-war Europe

Post-Versailles Europe

## Pact That Remade Map Attacked At Sore Spots; New Borders Are "Fronts"

LONDON—Dictatorship of Adolf Hitler in Germany, new peace plans of Premier MacDonald and Mussolini, Japan's withdrawal from the League of Nations and determination to retain mandated South Sea islands—all these, together with numerous international incidents—point to early revision of the Treaty of Versailles, the treaty which remade the map of Europe and defined the terms of peace between Germany and the allied powers after the World War.

The Treaty of Versailles was signed on June 28, 1919, and came into force six months later. Its basis was the speech of President Woodrow Wilson on January 18, 1918, in which he announced the famous "Fourteen Points," and his later addresses. The powers accepted the Wilson programme with the exception of Point 2 relating to "freedom of the seas," although the allies secretly had negotiated treaties of settlement among themselves.

Wilson's programme was broad and revolutionary, unlike anything before considered by European diplomats. He asked for open diplomacy and an end to secret treaties, disarmament, peace and machinery for keeping peace, an end to alliances, and creation of the League of Nations.

Point 3 provided for removal of economic barriers, and Point 4 for reduction of armaments to the "lowest point consistent with domestic safety." These issues are now the cause of much of the ill-feeling in Europe.

### ARBITRATION CLAUSE

The treaty set up the League of Nations, whose covenant united its members to guarantee each other's territorial independence and integrity. Members bound themselves not to go to war until after three months of inquiry and arbitration.

The League was empowered to assume the lead in disarmament and did so in 1926, although little in that direction has been accomplished. Under the League a Permanent Court of International Justice was set up.

The League is governed by a council of nine, which originally was to include the United States, but the latter country would not ratify the treaty nor enter the League, although in re-

cent years it has participated "unofficially" in League activities.

Japan, a member of this council, has withdrawn, and under terms of the covenant the resignation will be effective in two years. France, Great Britain and Italy, members of the council, and Germany was given a permanent seat in 1926. Other members are elected by the League Assembly, which is composed of the smaller member states and meets annually.

### RULE GERMANY'S COLONIES

One of the most important functions of the League is supervision of the government of Germany's ceded territories in Africa and elsewhere, through the Mandates Commission, which inspects the annual reports of governments to which colonies were assigned.

The question of mandates and the ultimate disposition of the former German colonies will figure largely in any discussion of treaty revision. Germany's colonial empire comprised 1,027,000 square miles of territory in Africa, in the South Seas and in the Shantung peninsula in China, with a total population of nearly 15,000,000 and an estimated invested capital of half a billion marks. German leaders continue to have demanded restoration of at least a part of the colonies.

Another territorial problem created by the Versailles Treaty and now regarded as one of the greatest dangers to peace is the Polish Corridor, which severs East Prussia from the rest of Germany, and makes Danzig a free city governed by the League.

### POLAND VERSUS GERMANY

Poland insists she must have this territory to have access to the sea, and aroused apprehension when troops were

## Noble Ancestors Cheap at Auction; Forty For £300

London—Forty noble ancestors and ancestors of the nineteenth-century-old Earl of Esmont were disposed of by auction at Christie's, London, recently, and this gallery of portraits, some by famous artists, brought not quite £300, or less than \$1,000.

They ran the whole range of the family, from the first baronet, Sir John Percival, of the seventeenth century, through the first Earl and Baron of Arden, of the eighteenth, down to the tenth earl, who died in Canada last year as the "Rancher Earl." There were women, too, some pious, some frail, some beautiful and frail, a few beautiful and pious, but all destined to be knocked down at what the auctioneer said were "dub" prices. According to one account of the sale the auctioneer was rather laconic than enthusiastic and the audience was obviously bored.

"Forty portraits of the Percivals, the family of the Earl of Esmont, were being sold," wrote Denis Dunn of the Daily Mail.

There is something strangely indecent about the sale of a past. Watch the buyers. Shrewd dealers, hats on the back of their heads, bidding with a flick of a finger or twitch of nostril.

"Lot 52. Portrait of Margaret Elizabeth, Baroness Arden, in black decollete dress with cameo brooch and necklace. The auctioneer waited."

"One guinea?"

"One guinea . . . one guinea . . . one more . . . one guinea. Bang!"

"The prices were pitiful. Lawrence went for three guineas, a Lady for £40, and a Kneller for £12 12s. 6d."

"People don't want the stuff nowadays," whispered a dealer. One can understand it. Relatives are hardly rare and other people's not extremely edifying. Hudson's Countess of Esmont, 1758, reached the peak price, £39 18s.

"Who buys other people's ancestors? What do they do with them when they have bought them? Will Caroline Francis Percival, in whose face dress with brown cloak and coral necklace, 23 1/2, 119 inches, end up on the wall of some foreign millionaire as his great auntie Minnie?"

The treaty also forbade union of Germany and Austria, now being agitated. The war left Austria a country of 6,000,000 German-speaking people, unable to support herself economically, and with an army limited to 30,000.

## Sacred Soil of Palestine Escapes World Depression; Treasury Surplus And No Unemployment In Holy Land

LONDON—Palestine—sacred soil of the Old and New Testaments—Holy Land for the Christian, the Jew and the Moslem—has a new title to fame—it is the one country in the world which is not suffering from economic depression. It has no unemployment problem, no dole, no income tax, no deficit in its budget.

These things were proudly asserted the other night at a Zionist banquet in London, attended by many non-Jewish cabinet ministers, government officials and members of Parliament.

### \$4,500,000 SURPLUS

An examination of recent statistics and reports seems to bear this out to the letter. Not only do things seem to be as stated above, but, whereas most of the big nations of the world are struggling with budget deficits, Palestine has a surplus of nearly \$4,500,000 in its treasury. Its income tax comes mainly from land taxation, taxes on tobacco and liquor and from a protective tariff on imports. The officials appointed to rule the interests of Palestine as a British mandated territory are investigating the subject of instituting an income tax, but this is bitterly opposed by Arab and Jewish interests, who claim that the present situation is satisfactory.

### HELPS SUPPORT TOMMIES

It has often been claimed by British opponents of the establishment of a home for Jews in Palestine that it is costing the British taxpayers a lot of money. The Zionist leaders point out that Palestine is self-supporting. The counter-claim is that it costs England a lot to have troops there to stop fighting between the Arabs and the Jews. The reply is that if those British regiments were not stationed there, they would be in barracks in some other place; that they are in Palestine, not only to maintain order in the country, but to guard the Suez Canal in case of need; and, lastly, that the difference of the cost of keeping the troops there, as against stationing them in England, is borne by the Palestine treasury.

### IMMIGRANTS BRING MONEY

According to all available figures, Palestine is about the only country in the world that is enjoying something like business prosperity. This is particularly due to the immigration of Jews backed by their own and Zionist money, which in the past ten years has brought over \$200,000,000 of fresh money into the little country. Jewish farmers have planted big acreages of orange groves. Their Arab neighbors have vied with them. They have gone in for planting grape fruit and vines, and here again the Arabs have followed. They have introduced modern methods of irrigation, swamp drainage, soil fertilization and farm implements. Many of the Arabs have been quick to follow.

### POPULATION SOARING

The population of the country is now 1,000,000, an increase of 30 per cent in ten years. Seventeen per cent of the people are Jewish. Not only have new farms been established, but the urban population has greatly increased. Jerusalem is a city of nearly 100,000, of whom 60 per cent are Jewish. On the outskirts of the old Holy City there are now new suburban districts with wide streets and modern buildings. In ten years Tel-Aviv, which started as a Jewish suburb of Jaffa, has come to be the only all-Jewish city in the world, with shops, theatres, film houses, growing industries and a thorough school system. Even the bus drivers and the traffic cops are Hebrews. Almost every country in the world shows a decrease in exports and imports. Palestine's exports have doubled in value in the past two years and the

Advances in industry, commerce and agriculture have transformed the Palestine of old into a thriving, prosperous country. Upper left: Silk-worm culture is studied in an experimental laboratory. Upper right: Business booms on ancient Jerusalem's David Street; left, the towering Jerusalem home of the Y.M.C.A. awaiting dedication.

## HEAVIEST MAN IN BRITAIN DEAD

He Was So Fat He Had Been Unable to Get Outside House For Twelve Years

London—George Lovatt, reputed to be the heaviest man in England, who for nearly twelve years had been unable to leave his house because of his size, died at the age of sixty-four at his home at Bentley Hill, Staffordshire.

The last time he was weighed he turned the scales at thirty-eight stone, but just before his death he claimed to weigh more than forty stone.

Although his mother weighed 23 stone, his father was only of medium size.

Mr. Lovatt was one of the finest examples in support of the general belief that fat men are always jolly men. His appearance, and the jokes it provoked,

apparently gave him as much enjoyment as anyone.

Politics were of special interest to him, and it was to enable him to visit the polling booths during an election that he had built the special outside trap which he always used afterwards in the town.

Another interest which claimed much of his leisure was the breeding of pigeons, and he won many prizes.

### "COME AND FETCH ME"

His size made service with the army during the war an impossibility. He was in bed following an accident to his leg when he was summoned to appear before a medical board. He sent a message that if they wanted him they must go and get him—a message that was appreciated more by the local residents than the members of the board, who had never seen him.

Mr. Lovatt always told with great glee of a visit he paid to London where he went to a theatre.

Unable to find a seat large enough he sat down in the gangway, to the despair of the attendants, and refused to move until a chair of suitable proportions had been provided. When he left the theatre he engaged a cab. It was not constructed for such fares, and on the way the bottom dropped out.

## GEORGE BERNARD SHAW:-- Past Civilizations Collapsed Through Education

GEORGE BERNARD SHAW, currently on a tour of the world aboard the Canadian Pacific liner Empress of Britain, addressed the members of the faculty, their guests and the students of the University of Hongkong as the guests of Principal Sir William Hornell of the university, and said:

"YOU ARE RATHER rash (laughter) in asking me to speak. Somebody asked me a moment ago would I say a few words. The result of asking me to say a few words is generally that I speak for three hours, and before the second hour is over they become very sorry that they had asked me! (Laughter.)"

It is quite impossible for me to make a speech to you this evening. I will tell you why. Almost everybody in Asia has far asked me to speak; I have been invited to innumerable luncheons and universities there are many who have asked me to speak. I am making a private tour, and I am not taking public engagements of any kind. If I make a speech to you I shall get into trouble with all the rest, and they will ask, "What is this revolutionary element in the university?"—And there is another reason which makes it impossible for me to make a speech here. I am here as a guest of the university. I have a very strong opinion that every-

thing you can do with such a man is to bury him. (Laughter.) But such a man is worth something. He is an encyclopedia. If you want a date, go to him. Never mind the opinion of the man who remembers everything; he never has any. (Laughter.) Remember valuation of things worth remembering and forget the rest or you will get into trouble. Your valuation. You may be wrong, but in this world, if you are going to do anything, you must make up your mind. Being a fallible human being, one may act disastrously, but it is still more disastrous to have no opinion at all. (Laughter.)"

Now, I hope you are thoroughly educated and will not regret making me break my promise to Mrs. Shaw and to the others by addressing you. (Laughter.)"

MR. SHAW was given a tremendous ovation at the conclusion of his speech. The audience, consisting of three cheers and a tiger, and a "tigger" to Mrs. Shaw.

While the gathering was dispersing an undergraduate sided up to Mr. Shaw with an autograph album. Mr. Shaw immediately called the audience back to him and said: "On behalf of Mrs. Shaw and myself I have to thank you for the very hearty and resounding cheers you have given us, but there is one man here who has asked me for an autograph. Take him out and lynch him!"

THAT WAS made by people with different education. (Laughter.) There are really two dangerous classes in the world. There are the half-educated, who have destroyed one-half of civilization, and there are the wholly educated, who have nearly destroyed the world. (Laughter.) You ought very carefully to study the works of Professor Plinders Petrie. When I was young, which was an incredible number of years ago, no body knew anything about old civiliza-

Well, now you will say that holding three opinions, it is unbecoming of me. As the guest of Sir William Hornell, to come and express them, I must not say these things. I can only beg you not to listen any further. Of course, what you are going to do, I don't know. You may say, "Shall I leave the university?" (Laughter.) "Shall I go into the street?"

WELL, I don't know. There is something to be got from the university. You get a training in communal life which is advantageous, and I should recommend to a son of mine. If I had a son, I should send him to a university and say to him: "Be very careful about letting them put an artificial mind in you. Read, don't read them. (Laughter.)"

Professor Brown—They never do. (Great laughter.)

Mr. Shaw—Well, that's very encouraging. (More laughter.) A school text book is, by definition, an unreadable book. The fact that I am an entirely uneducated man is due to the fact that I never could read school books of any kind. The time I was supposed to devote to reading school books was reading real books—books written by people who could really write, which is never the case with the authors of text books.

BE CAREFUL, I am going to read the text books and just do enough of your text books to prevent your being ignominiously kicked out of the university. Read the good books, the real books, and sleep yourselves in all the revolutionary books. Go up to your neck in communalism and everything of the kind. If you don't begin to be a revolutionist at the age of twenty, then at fifty you will be so much impressed old fossil. (Laughter.) If you are a revolutionist at the age of twenty you

have some chance of being up to date when you are forty! I can only say to all of you, "Go ahead in the direction I have indicated. Always argue with your teacher. If possible, if you have a professor of history who gives you his view on history, what you have got to say is, 'Now, look here, we have heard your views, but what we are going to do is to find another professor of history who disagrees with you.' (You will find that very easily.) Now, let us hear you two argue it out, and if you can join to the debate a working man agitator, if you can find such a man in Hongkong, so much the better. Always learn things controversially. You will find there is a continual plot to teach you one side of a thing dogmatically."

In England, for instance, in the medical profession—also in the navy—I have to pass an examination. It is necessary to take the students in the medical school and to teach them the most advanced practice and then they have to get them through their examinations, and that means for two months before the examinations they have to teach them all the obsolete practice, all the wrong answers (loud laughter), in order that when they get before the old gentlemen they can get through. (Laughter.) The same thing in the navy. You don't want all the modern navigation, strategy, etc. You will have to satisfy an admiral of the examination, studied and imbibed the ideas of twenty years ago, they will come in very useful, twenty years hence. Now, I was going to say that I am not going to detain you longer, but really I think you must not detain any longer. (Laughter.) I hope I have said enough to make Sir William

regret that he ever asked me to speak. I am glad of the opportunity I have had of instilling this poison into you (laughter), and I hope it will keep you amused, but that you will forget it in a week.

The power to forget is valuable. You have a mass of things to learn and assimilate, and you have to do your own salvation. In my young days I was a critic. I used to criticize the pictures and the theatres for a weekly paper. When I went into a picture gallery, say into an exhibition at the Royal Academy, I realized that I could only write one article about it. At most I could only write two, and they were about two or three thousand pictures. What I had to do was to go rapidly through them and so select the twelve or fifteen pictures, which were above the "unmentionable" line.

THAT IS what you have to do. I want your professors and teachers to do some facts before you all occasion-ally, you have got to say, "Nothing doing; that is not worth remembering. Like a rag-picker going over the dust heaps of history, you have to evaluate what you find, keep the sound things and forget the rest as completely as possible. Then you will go about like an educated man; you will go about with a few things worth remembering. The man who keeps everything not remembering often attains the highest university degree. (Laughter.) The

any thing you can do with such a man is to bury him. (Laughter.)

But such a man is worth something. He is an encyclopedia. If you want a date, go to him. Never mind the opinion of the man who remembers everything; he never has any. (Laughter.) Remember valuation of things worth remembering and forget the rest or you will get into trouble. Your valuation. You may be wrong, but in this world, if you are going to do anything, you must make up your mind. Being a fallible human being, one may act disastrously, but it is still more disastrous to have no opinion at all. (Laughter.)"

Now, I hope you are thoroughly educated and will not regret making me break my promise to Mrs. Shaw and to the others by addressing you. (Laughter.)"

MR. SHAW was given a tremendous ovation at the conclusion of his speech. The audience, consisting of three cheers and a tiger, and a "tigger" to Mrs. Shaw.

While the gathering was dispersing an undergraduate sided up to Mr. Shaw with an autograph album. Mr. Shaw immediately called the audience back to him and said: "On behalf of Mrs. Shaw and myself I have to thank you for the very hearty and resounding cheers you have given us, but there is one man here who has asked me for an autograph. Take him out and lynch him!"

# A PAGE FOR THE CHILDREN

## The Broken Easter Egg

By Betty Lamont

It was Easter morning and for the first time in the five long years of his life Bobby was going to walk; out the front door, down the long steps and across the green lawn.

You see, Bobby had a crooked leg and until now he had to be carried or wheeled in a big chair wherever he wanted to go. A short time before a new doctor came to live on the hill. He did things to Bobby's leg with his big gentle hands, smiled at the little boy with his kindly blue eyes and now, on Easter morning, Bobby was walking, with a brave new crutch under his arm to help him along.

Bobby knew where he was going when he walked down the long steps. His eyes were shining with excitement when he thought of the funny little letter he had found on his pillow so early in the morning. So early, there was just a grey streak of light in the sky. It was from old Cotton Bobtail, the rabbit that lived in the hollow stump at the foot of the hill. Mother read it to Bobby. . . . He was to look under the daffodils that nodded so gaily on the other side of the green lawn. He would find something, the letter told him, something old Cotton Tail Bob had left there for him.

"Hurry, Mom!" Bobby cried.

He swung his little crutch excitedly as he hobbled toward the bright yellow flowers.

"See something, Look, Mom, look . . . it's a basket . . ."

Mother knelt beside him. "It's a basket of Easter eggs, dear. Remember, I told you the rabbits were very busy delivering eggs to all the little boys and girls at Easter time. Old Cottontail didn't forget you."

Bobby's round face shone as his little hands touched the bright basket. Red eggs, blue eggs, green eggs, they were all there. Bobby picked each one up and turned it over lovingly. Suddenly his little face sobered.

"Mom, look! The red one's broken," he said.

Tucked in the very corner of the basket, the big red egg looked just whole and perfect, but when you touched it . . . it fell apart in two big pieces.

"How did it get broken, Mom? Did old Cottontail do it?"

Mother touched it with her pretty fingers. "Wonder, Bobby."

Mother didn't know how the big red egg got broken, but I know and if you will listen I'll tell you just how it happened.

Mamma Cotton Bobtail shut the back door in the old hollow stump with a sigh of relief. She had been watching old Cotton Bob himself go trotting off through the leaves with a huge basket of Easter eggs on his arm.

They had been working very hard to get the eggs finished. There were so many little boys and girls to remember, so many different places to leave the eggs. Under big cabbage leaves, in birds' nests, under nodding flowers in the garden, even some had to be put in egg cups right on the kitchen table. That was old Cotton Bob's work. He was pretty clever and out of old pieces with his basket of eggs for a good many Easter mornings.

Mamma Cotton Bobtail turned back into the little room with a tired sigh. It was in a terrible mess. Big acorn cups full of colored paints were on the mossy floor. The paint was splashed everywhere.

In the corner where Specky Bobtail was painting an egg to suit himself and he had made a grand mound of things. He was painting from head to foot.

"Specky, leave that egg alone," Mamma Cotton Bob squeaked. "I'm so tired, I can't even give you a spanking."

Specky wiggled his whiskers and went on painting.

Old Cotton Bob had a way of painting eggs that none of the other rabbits in the hollow could ever copy. He painted the white eggs in two halves, filled them full of little candles, he collected during the year, then clapped the two pieces together and painted a bright pattern around the centre.

When he was through you couldn't tell where the eggs had been joined.

Little Specky was trying hard to paint an egg like his Daddy did. He had the two halves all colored a bright shiny red but he just couldn't get them to stick together. While his mother swept broken egg shells into the pine cone fire, piled extra white eggs in a corner of the little room, put the acorn paint pots in a row on a long shelf in the rafters, he struggled. When he got one side up on its end the other fell down. He ran around and around the big egg until he was tired right out. His little feet and his tiny dot of a tail just ached to curl up and have a sleep. Even his whiskers wouldn't wiggle, so finally he gave up trying to stick the big egg together.

He just crawled in the nice warm nest and curled up and went to sleep. Mamma Cotton Bobtail was tired too and because Specky was quiet she didn't bother about him. She sat down on a low stool and by the fire. Her head nodded. She had been up nearly all night helping old Cotton Bob to get his big basket loaded.

It was all very quiet and peaceful and in one minute she would have been sound asleep. That minute never came for suddenly the back door flew open with a terrible bang. A brisk little breeze rippled along the oak leaf floor and Mamma Cotton Bob woke up in a hurry.

Old Cotton Bobtail came rushing at her. His whiskers were all askew and the kink had gone out of his tail. He was all out of breath from running. His basket was empty.

"Mamma," he shouted, "we've got to have more eggs. A dozen at least, I just heard . . ."

"Not another one, Cotton Bob."

Mamma Cotton Bobtail wrapped her paws in her big white apron and stood still beside the fire.

"I've put the acorn cups away."

She nodded toward the big shelves over her heads.

"But Mamma, I've just heard about Bobby . . ."

"Bobby or no Bobby, I'm not going to clean up all that mess over again . . ."

She stamped her hind foot, but Old Cotton Bob did not stop to listen. He was pulling down the acorn pots.

"It's the wee laddie on the hill, Mamma. The little lame boy. He's walking . . ."

"What?"

Mamma Cotton Bob came to life at once. Her soft little nose quivered excitedly.

"Why didn't you tell me who it was?"

She poked up the fire and laid a fresh pine cone in the centre of the dull glow.

"Give me the acorn pots. I'll heat up the paint."

"I was trying to tell you, Mamma. Old Cotton Bob scamped across the room to the pile of white eggs."

"Here's a nice round one."

He juggled it in his paws for a minute, then with an expert little twist broke it in two even halves.

"We'll color it blue, like the sky, Mamma. The little chap's walking for the first time."

He trotted over to the blue acorn pot.

"It's wonderful!"

Mamma's pink ears quivered as she took it from him, and held it over the fire to dry.

"I left a note on his pillow."

Old Bob painted a little as he scamped back and forth to the egg pile.

"I told him to look under the daffodils in the garden. Why, Mamma, here's a red egg all ready."

He was standing beside Specky's painted egg.

"There isn't a nip of candy left. I'll just dip it together."

He gave the two halves a quick turn and he never even looked inside.

"The silver paint, Mamma. I'll touch it up with a wiggle or two."

"That's Specky's egg."

Mamma Cotton Bob wiped her

fingers on her apron and went to the little door.

"I wonder where the little dicken has gone. You left the door open, Cotton Bob. He's skittered out."

She peered uncertainly into the pearly glow of the early morning.

"He's all right Mamma. I'll have a look for him as I go. There . . ."

He arranged a blue and a green and a yellow egg, then a pink and a purple one in a tiny basket. The red one he pushed down in the corner almost under the others.

"That will do, Mamma."

He wiggled his whiskers at her as he turned toward the door.

"Got to scamper, it's getting late."

He shouldered the basket and rushed out into the morning.

The sun was just making its appearance over the tops of the trees. Soft golden light shone over the dew drops on the grass as old Cotton Bob went quickly along the tiny trail from the hollow.

His bright beady eyes were watching for Specky for although he had told Mamma not to worry he wondered a little where the bunny had gone.

Specky was not in the habit of running about.

Old Cotton Bob jogged along through the bushes, sniffed under an old acorn and trotted up until he came to the garden where Bobby lived.

Suddenly he stopped and cocked his head over on one side. His little eyes glanced here and there. He thought he heard Specky calling. The little voice seemed very far away and yet when he stood still it seemed very near.

The sun was getting warmer, so he had to hurry on. A worried wrinkle curled between his soft pink ears. Where was that little rascal? Old Cotton Bob muttered angrily as he wriggled through a green hedge and out on a big lawn.

The blades were still down in the big white house and he heaved a sigh of relief. He would not have disappeared little Bobby even if he had to get in the basket himself. His whiskers wiggled with sudden mischief as he thought of Bobby's surprise if he found a big grey rabbit sitting in the centre of the gay basket under the daffodils.

"Mamma! Mamma!"

A faint call came to Old Cotton Bob's ears.

He stopped and looked around the big garden. How had Specky got away up here? He was frightened, too, by the sound of things. After the basket was safely under the daffodils, Cotton Bob would find the little scamp, give him a wiggle and take him safely home.

He put the basket carefully down under the big tall leaves. It looked so pretty. The blue and green and yellow eggs glistened in the early morning sun.

Suddenly Cotton Bob's eyes fairly popped out of his head. The red egg that he had pushed so hard down into the end of the bark basket, the red egg that Specky had painted, was wobbling about as though it was alive.

Cotton Bob hopped in three quick hops across the green lawn to the hedge. He had never had an egg act like that before. Even his whiskers shivered with fright.

He squinted back over his tail. The red egg was wobbling about on the very edge of the basket and even as he looked it popped over the side and

landed with a soft thud in the black earth.

"Mamma! Mamma!"

That faint frightened cry came from somewhere very close to the big red egg.

Old Cotton Bob stopped and stiffened his tail. Specky was back there and red egg or no red egg he was going back to get him. With quick jerky hops he went toward the basket.

He looked under the green leaves but no soft pink ears could he see. He looked behind the basket. The red egg gave a queer roll and he leapt back from it.

## BEDTIME STORY Uncle Wiggily's Boat Ride

(By HOWARD R. GARIS)

"My goodness!" squeaked Nurse Jane Fuzzy Wuzzy one morning. "Just take a look, Mrs. Longears!"

"At what?" asked the rabbit lady.

"At your husband," said Miss Fuzzy Wuzzy. "Just look at him, would you?" Mrs. Longears looked and saw Uncle Wiggily hopping around with a sharp little hatchet in one paw.

"Wiggily Wiggily!" exclaimed his wife, calling to him through an open window, for Mr. Longears sat out in the yard. "What are you doing? Are you trying to be an Indian?"

"Well, maybe I do look like a wild Indian with this hatchet," said the bunny rabbit gentleman with a laugh. "But I am not. Though I am going to do something with this hatchet that Indians do."

"Goodness me! I hope you aren't going to chop anybody," said the muskrat lady housekeeper with a laugh, for well she knew that Uncle Wiggily would do nothing like that.

"The only thing I am going to chop is some bark off a birch tree," said Uncle Wiggily, hopping up and down because he felt so jolly. "You know Indians make boats, or canoes, of birch bark and I am going to do the same and I will take you two ladies for a boat ride. I am going to use the hatchet to chop pieces of bark off the tree. Then I will fasten the pieces of bark together and make the boat. Get ready to ride with me pretty soon, ladies."

"That's very kind of you," said Nurse Jane.

"I want to see what kind of a boat Wiggily makes before I promise to go riding with him," said Mrs. Longears. "I must be sure it is a safe boat that will not leak."

"Oh, I hardly think Uncle Wiggily would ask us to go riding in a leaky boat," spoke the muskrat lady. "You needn't ask what Wiggily will do when he starts cutting up," said the rabbit wife with a smile.

Mrs. Longears went back to her work of playing the piano, while Nurse Jane washed the breakfast dishes, there being many of them left when the rabbit children had hurried away to school. Meanwhile, Uncle Wiggily had hopped to the woods with his sharp little hatchet, like an Indian's, and, finding

exclaimed Uncle Wiggily when it was finished. "It looks like an Indian canoe and now I must push it over to the duck pond to see if it will float."

The bark canoe was very light but strong and Uncle Wiggily did not have much trouble in getting it over to the duck pond. Into the water he shoved his canoe and he was delighted to find that it floated nicely and as light as a feather.

There were no ducks on the pond just now, for Lulu, Alice and Jimmie Wobble had gone to school. Nor were any of the other animal boys and girls about for which Uncle Wiggily was glad.

"I'm not so good at paddling a canoe," said Mr. Longears to himself, "and I am just as well pleased that no one is here to watch me. I might make a mistake."

He leaned over and nuzzled the baby bunny's whiskers.

"You were playing ducks and drakes with your Mamma and me, eh?"

"No! No!" the little bunny sobbed. "I went to sleep. I did. I painted it red and I couldn't close it up. I got tired and I went to sleep."

A queer twinkle flickered in Old Cotton Bob's eyes as he snuggled his nose closer to the soft baby side.

"Get up, lad. You're all right. Never cry over spilt milk. You've had a big adventure. So-a-hi!"

He crouched down in the centre of the daffodil flowers.

"Look," he squeaked, "here comes Bobby."

Down the long steps a little boy was hurrying as fast as a big crutch and the anxious hands of his mother would let him.

"See, Specky," Old Cotton Bob's whiskers wiggled excitedly. "He's walking."

With a quick little hop he took the two pieces of red egg in his paws. A quick twist and he put the egg together and pushed it down in the end of the basket.

"There's your egg, lad, as good as new again. Come, Specky, we'd better move."

## THE TWINKLES

(READ THE STORY, THEN COLOR THE PICTURE)

The rushing herd of buffaloes kept Duncy right up on his toes. In fact, he ran much faster than he'd ever run before.

He'd turn to look back, now and then, and quickly pick up speed again. I only wish I knew, thought he, what they are running for.

I'm sure that something's gone amiss, or why would they chase me like this? A lot of other thoughts passed through the little fellow's mind.

It wasn't long until he grew a real tired, and wondered what to do. He tried to find a great big tree which he could hide behind.

However, all the trees seemed small. Said Duncy, "They won't do, at all. I'll just keep right on going till I flop upon the ground."

"Course that will be the end of me. Gee, I'm as scared as I can be. He then saw that the beasts were gaining, as he looked around.

About a half a mile away, the

other Twinkles, still at play, were wondering why Duncy didn't come back to the bunch.

"We'd better start to look around, and search until the lad is found," said Scouty. And the others thought this was a real wise hunch.

They walked and walked, and walked some more. Then one said, "Listen to that roar."

"Say! That's a herd of buffaloes," the Midget Man replied.

"Come on, we'll climb up in a tree where we can very plainly see the beasts as they go dashing by." And then the beasts were spied.

"There's Duncy, too, and he's a trim. Hey, Duncy, grab a big long limb and swing up in the air," exclaimed wee Windy.

"It's a trick!"

Poor Duncy did that very thing and, as he gave his legs a swing, the animals dashed underneath him. It worked out real slick.

## Holidays Here No Plans Made But Good Times Seem Close By

Willie Is Glad Easter Comes or He Thinks Everyone Would Fail in Their Exams in Summer; Some of the Gang in the Musical Festival and Skinny and Rosy Carter Hold Hands so Gertie Robinson Says

By WILLIE WINKLE

Gee, what a relief, Easter holidays! All I hope is that we have swell weather and I guess we should 'cause Easter is late this year. For a couple of days it got so warm I thought I'd be able to wear my bathing suit and perhaps have a swim, but I don't think I'll get that brave.

These Easter holidays sure give a fellow a breathing spell. I don't know what us kids would do if we had to go from New Year's to our summer holidays without a break. I guess we'd all fail for sure in the summer exams.

I don't know just what I'm going to do in these holidays but I'll let you know next week. I wouldn't be surprised but what Skinny or Jack doesn't get some swell idea for us to do something.

But I want to tell you some of us went in the Musical Festival and some of us didn't. I'm suppose to have a sweet voice, that's what a lady said, but I'm going to start making it rough so as to scare the kids more. You know these kids with the nice voices they're sort of laughed at by some of the kids. Fat Turnbull, he's in my class you know, he wasn't picked to sing 'cause his voice sounds like when you're cutting wood and strike a nail with a saw; sort of sends the shivers down your back. When Fat saw me get picked out with four or five other boys and have to stand up with most of the girls why he gave me a razzing after school. There's no trouble to get girls for the festival, but the boys they seem so shy.

MISSY SHOWS THEM

"Hello alsey," says Fat when I met him after school.

"Who's a sis?" I asks and I knew he meant me so I leaped on him and knocked him flat on his back in a vacant lot and there wasn't any more alsey.

And can you beat it Skinny was in the festival and he stood next to Rosy Carter and Gertie Robinson says Rosy and Skinny held hands all the time.

They were in the back row. I guess that's why Skinny stuck in the choir after lots of the other guys dropped out. But they said Skinny had a lovely voice. I guess he developed it by bawling at us when we was building Granmie Brown's fence.

"Suppose you'll be joining a lady's choir next Skinny!" said Jack next day at school.

"Sure will if they'll let me in. Can't think of anything nice," says Skinny who seems all changed. Not the same old kick in him.

"Yeh, if Rosy Carter's in the choir," says Jack.

"Now cut that," says Skinny and I see he's the same wild old Skinny.

"Don't go bringing any lady's name into this, particularly a certain lady."

"He's got it bad," I says to Jack.

ROSY APPEARS

"Ah, go brush your hair and pull up your socks," says a female voice behind us and lo and behold it's Rosy Carter. Skinny touches his cap and Rosy goes up to him.

"Sing us a duet," I asks them.

"Sure," Rosy replies. "What would you like?" In a puff-puff puff for two or 'Meet me to-night as Five Points!" says Jack.

"I guess you wouldn't either, not if I knowed it," pops back Skinny. "I'll look after Rosy." And with that off they went.

"Tra-la-la girls," shouts Jack. Skinny turns around and sure looks mad but Rosy leads him along and it looks as though Skinny going to be lost to our gang for awhile. But he'll be back; women ain't true for long they say and I guess Rosy will be smitten with some other kid before long and Skinny will have a broken heart. Oh, boy, what a shame.

Has 'em Fuzzled

Teacher—What does your father do in the evening when his work is done, Philip?

Boy—That's just what mother wants to know, teacher.

They Change Often

Coyotes have special places to meet and sing their weird songs after night-fall, but they never use the same meeting ground two nights in succession.

## THIS CURIOUS WORLD

ONLY FOUR COLORS ARE NECESSARY IN ORDER TO COLOR THE MOST COMPLICATED MAP SO THAT CONTIGUOUS SIDES OF DISTRICTS SHALL NOT HAVE THE SAME COLOR.

DESIGNS for DRESS GOODS AND WALL-PAPER ARE BEING COPIED FROM ENLARGED MICRO-photographs OF GERMS.

The latest in dress design brings forth many unusual patterns, but patterns which cannot be called new, for Mother Nature has furnished the designs from her own wonderland, and they have been in use for hundreds of thousands of years. Microscopic sections of hairs, plants, wings of insects, enlarged photographs of germs, diseased tissues and acid-crystals are some of the objects that have gone into the design of modern dress and wall-paper patterns.

Yawn Heartily

Yawning is a distinct benefit to a human being. It tends to restore the equilibrium of the air pressure between the middle ear and the outside air and often produces a feeling of relaxation.

One-Fourth Coinage

About one-fourth of the gold produced is used as coinage. The remainder is consumed in dentistry, jewelry, gliding and gold leaf work.

Big Comet

The head of Halley's comet is much larger than the earth. On May 5, 1910, the length of the comet's tail was reported to be 37,000,000 miles.

Happy Thoughts

Uncle—Now, my boy, I'm giving you this money box for your birthday present, and I hope you'll make good use of it. No getting money out of it with a penknife, mind!

Nephew—Of course not, uncle. But I say, you do have some jolly fine ideas, don't you?

# "Run, Little Children" Rises To New Heights of Stage Achievement

## Negro Drama Achieves Successful Dramatization of the Spiritual

By PAUL HARRISON

"Run, little chillun, run!  
"Fo' de devil's done loose in de lan!"

AND SO, like the old spiritual, runs the power and the fervor of Chorister Hall Johnson's negro folk drama which has won the critical acens of theatre lovers in New York.

For here at last is a successful dramatization of the spiritual. Other producers—two of them this season—have tried and failed to translate this art form to the stage. Even "Deep River" and "Porgy" furnished only meagre suggestions of the spiritual's function. And "The Green Pastures" employed it as atmosphere incidental to a depiction of the time when "de Lawd walked de earth like a nat'chul man."

But Hall Johnson's play is a play of today, an unpretentious account of ordinary negroes in a little southern town, and their vacillation between the revivalist faith and the primitive call of a voodooish sect. If the plot is none too strong, with dialogue none too adequate, it at least does not detract from the play's elemental theme. If the actors occasionally skid out of their assumed dialect, into

Hall Johnson

Harlem diction, it is only proof of their own deep feeling. And when the Hall Johnson Choir, sings—well, then you know what spirituals mean to them.

**R**UN, LITTLE CHILLUN" is being called a worthy successor to "The Green Pastures." It may, in fact, succeed to the Pulitzer Prize once won by the Roark Bradford-Marc Connelly play. And it may live as long in New York and on the road as has "The Green Pastures," which, incidentally, is now in Canada and still prospering. But there are no other com-

parisons, except that both furnish some masterful pageantry.

In the first of the four scenes in "Run, Little Chillun," you find a delegation of deacons and members of the ladies auxiliary of the Hope Baptist Church waiting upon old Pastor Jones with a demand that something be done about a pagan cult that is holding meetings nearby and luring away the Baptists' revivalist converts. Here, too, you learn that Pastor Jones's son, Jim, a newly ordained minister in his own right, and married to a righteous woman named Ella, is more than stricken with the charms of a café-au-lait strumpet called Sulam. Also it is no secret that she is a regular attendant at the orgiastic revels of the New Day Pilgrims, the cult across the river.

**D**EIFYING gossip and the certainty of breaking the hearts of his wife and father, Jim goes with Sulam to a meeting of the Pilgrims. And there is a scene. White and purple robes under the trees and the moon. Mystic chants swelling to songs of

jungle fury. . . . Ceremonials, weird and primitive. . . . Dancing that leads from languid grace to a crescendo of savagery incarnate. . . .

Then there is an interlude: almost a necessary respite from the fierce tension of the voodoo orgy. And you learn that Brother Moses, priest of the Pilgrims, has become enamored of Sulam. She agrees to flee with him that night, having just declined a similar proposal from Jim.

An amazingly realistic revival meeting in the Hope Church comes next—a scene as stirring and impressive as the ritual under the trees. Here, however, the prayer-chants and hal-lalujahs, the exhortations and the spirituals, the convulsive spinning and the cataleptic twitching are all in the name of civilized religious ecstasy.

Jim, of course, finally comes in to pray and be saved, and to be reunited with his wife. And Sulam comes too, only to be struck dead by a bolt of lightning at the very door of the church as Brother Moses stalks in to take her away with him.

**S**OME notable negro performers are included in the cast of 175, most of whom are members of Johnson's choir. Sulam is Fred Washington of "Shuffle Along," "Great Day" and other Broadway shows. . . . Edna Thomas, who plays the role of Ella, Jim's wife, has been cast in plays of Shakespeare, Oscar Wilde and Eugene O'Neill. . . . And Jim himself is Alston Burleigh, son of the composer of "Deep River." He has appeared in a long list of hits that include the Pulitzer Prize-winning "In Abraham's Bosom." . . . Olga Burgoyne, the Pilgrims' "Mother Kanda," once danced before Czar Nicholas, spent a dozen years on Broadway, and left the operatic version of "The Emperor Jones" at the Metropolitan to appear in "Run, Little Chillun."

Hall Johnson is first and last a musician. He was born in Athens, Ga., forty-five years ago, the son of a minister who later became president of Allen University at Columbia, S.C. His education was completed at the University of Pennsylvania and the Institute of Musical Arts in New York. Fascinated by the theatre, he turned

White and purple robes under the trees and the moon . . . mystic chants swelling to songs of jungle fury . . . The procession of the "New Day Pilgrims" in "Run, Little Children."

down teaching offers to play a first concert outside Harlem. And the rest is musical history. Johnson had no serious intention of becoming a playwright. He created "Run, Little Chillun" as an experi-

ment in providing dramatic substance for the work of his choir. But on the opening night, as he stood with tears streaming down his face and took bow after bow, he must have realized how fully he had succeeded.

# Frances Perkins Tells What She Means By a "New Deal" For Labor

## Roosevelt's Woman Cabinet Minister Views Herself as Envoy of Wage-Earners

By RODNEY DUTCHER

Copyright, 1933

**WASHINGTON**—The Department of Labor, says Miss Frances Perkins, its new boss, ought to give real service to working people by helping them in their problems of making a living.

"Labor's need must be considered during the reconstruction period and we are entering the reconstruction period right now," the secretary of labor declared in one of her first interviews since she became the first woman member of a presidential cabinet.

How does she regard her job? Here is her answer:

**T**HERE are two functions. One is to administer the department with its various bureaus. The other is to express the needs and aspirations of wage-earning groups to the president, to Congress and to the community.

"My duty is to bring the needs of the wage earners to the government's conference table. There will be others there to represent the farmers, the business men and other groups."

The "New Deal" is nowhere more impressively apparent than in the vicinity of Miss Perkins. No man in the cabinet had been getting more done than this active-minded, smiling, earnest, middle-aged woman who sits

behind her large piled desk wearing her now famous tricorn hat, her dark-tinted glasses, pince-nez dangling from a chain.

### SHE STICKS TO THE JOB

**S**HE HAS begun reorganization of the employment, alien and statistics services of the department. She has the largest share of responsibility in the Roosevelt unemployment relief programme with its plan for conservation of work camps and other measures. She has called an unprecedented emergency conference of labor leaders on short notice so she may have their views before she urges upon the president programmes for emergency relief and permanent improvement of labor and industrial standards.

She begrudges all demands on her time which distract her from these big jobs. Cabinet meetings she finds interesting and important, but they cramp her energy in the department.

**S**HE IS expert on an infinite variety of labor problems. She hopes one result of the labor conference will be to "get the small home owner, especially the unemployed ones, into the picture" as well as the mortgaged farmers. On the emergency agenda, she also wants to know what labor thinks can be done on relief through shorter working hours, public works, wages and increased purchasing power, unemployment insurance and reabsorption of labor into its normal employment.

And a dozen items on the long-time agenda include industrial health and safety, workmen's compensation, industrial relations and conciliation measures. She hopes the conference will provide for further study of these problems by labor itself.

A survey of the federal employment service has been begun under her direction by outside experts. The employment service has long been getting out a voluminous monthly bulletin

purporting to survey employment conditions. This publication has been notoriously misleading, its assertions often at variance with the bald, honest figures of the department's Bureau of Labor Statistics. As New York's industrial commissioner, Miss Perkins fearlessly exposed the optimistic misstatements.

### I HAVE CANNED THAT

"I HAVE canned that," says Miss Perkins, referring to the publication. "We will give the figures from the Bureau of Labor Statistics along with informative, interpretive, factual material which will enable the wage earners and the country to know just what they mean."

"I feel this department should become a labor services department," she continued. "Labor's problems of hours and wages are extremely important of course, but there are also problems of health with which we will deal. Much of our industrial disease and accident occurrence is due to ignorance."

"We should build up other information services for workers. They should be able to call on an impartial government source for information as to the condition of their trade generally

and factors bearing upon it, so they may talk to their employers on the basis of accurate knowledge."

"None of these services are being rendered on a general scale except for the work of the Bureau of Labor Statistics, the excellent achievements of the Children's Bureau and the Women's Bureau for children and women in industry."

### BACKS THIRTY-HOUR WEEK

**L**ABOR laws have not been repealed in the depression and Miss Perkins thinks the emergence of sweat shops with starvation wages have impressed states with the need of maintaining and perhaps strengthening them. It has started New York on the way toward a minimum wage law—which Miss Perkins urged in her last public statement as a New York official.

Madame Secretary's advocacy of other progressive labor measures is well known. Prior to her appointment to the cabinet she was on record for a thirty-hour week, substitution of men for machines where possible, a national system of employment bureaus, increased and more varied vocational training, prohibition of child labor and stabilization of industry in a programme for meeting the depression.

Fighting for President Roosevelt's forestation plan to create a "job army," Secretary of Labor Frances Perkins is shown as she testified before the joint session of the House and Senate Labor Committees. She stands between Senators David I. Walsh, left, and Royal S. Copeland.

# Fame Of Her Sons Establishes Peel County As Keystone Of Pioneer Ontario

By WILLIAM PERKINS BULL, K.C.

**PEEL** HAS established its claim to fame in a hundred different lines. The keystone county, it was last settled and last organized of that pioneer arch, stretching along the north shore of Lake Ontario. The southern part was rejected by the first settlers because the ground was too swampy to be used for farming and the northern because it was rocky and difficult of access.

The county has been handicapped by its proximity to York and by the neglect of its harbor, Port Credit. In spite of these difficulties it has prospered.

The chief pride of Peel is in her sons and daughters, many of whom have remained in the county and many more who have left its confines. Well-known names include those of Hon. Frank Oliver, Edmonton, Alberta, M.P. for several years, Minister of the Interior in the Laurier Government, and a member of the Board of Railway Commissioners, 1922.

Sir James Aikens, Lieutenant-Governor of Manitoba and senator.

Hon. J. C. Aikens, Winnipeg, Manitoba, Lieutenant-Governor of Manitoba.

Hon. T. C. Norris, formerly Premier of Manitoba, Winnipeg, Manitoba.

Hon. W. F. Ferdue, Chief Justice of Manitoba.

Rev. J. H. Riddell, principal of Wesley College, Regina.

Mr. Justice Embury, Regina.

Chief Justice Scott, Alberta.

Taylor Statten, vocational adviser to Pickering College and well-known authority on boys' work.

**L**ITERALLY scores of names are listed in the projected History of Peel, where it is hoped to have a record of every major woman who was born in Peel County and of his or her descendants.

Perhaps the final residence of every man is more or less accidental. Certainly an amusing story told in connection with Sandgrove in Peel County indicates as much. Originally this station was known as Edmonton, but there had been a good deal of confusion in the mails owing to an aggressive young western city having pre-

when he was Governor-General, secured his horses from Cyrus Brown of Meadowvale. It was in Peel, also, that Lundy bred and exhibited the famous Jumbo horse, twenty hands three inches high, weighing 2,760 pounds, thirty-four and a half inches across the hindquarters, eleven feet four inches long. For this horse Barnum in vain offered \$5,000 or 750 acres of land.

**I**N INDUSTRY, too, Peel has established several records. Port Credit was known to the French as the Rivière aux Cèdres, and was a centre for the fur trade long before Port Rouille was established on the site now occupied by the city of Toronto. A great deal of shipping went through it in the early days of the English settlement on account of the excellent natural harbor at the mouth of the Credit; and, indeed, one directory of the 1840's described Toronto as a harbor near Port Credit.

Toronto city had to come to Peel County for the flagpole before its city hall, and stone was brought from the quarries on the Credit River for the old parliament buildings, Hart House in the University of Toronto, Trinity College, Burwash Hall (men's residence of Victoria College), King College, the museum, Governor Simcoe's monument at Exhibition Park, and many churches and other buildings.

Toronto, by the bye, owes a greater debt to Peel County than that for stone and timber. It received its very name from its western neighbor. "In the old days when the Mississaugas came down the Credit and the Huron-Rivers from the Toronto region around Lake Simcoe, they spoke of such rivers as the Toronto rivers, meaning that they gave access to this district. Toronto, which was first surveyed in 1805, retained the ancient name, but the city did not receive it until 1834, when it was incorporated, having been previously known as Little or Muddy York."

**T**O RETURN to industry—in manufacturing, as well as in other branches, Peel has attained pre-emi-

nence. The Haggert foundry in Brampton used to produce the famous Cornish engine and threshing machine, the Royce reaper and mower, the Balmoral stove and the Credit Valley heater. The first threshing machines shipped to the western provinces went from the Haggert foundry, as did also that selected by the Canadian Government for exhibition in Sydney, Australia.

It has been said that the first sheet of paper manufactured in Canada was made near Streetville in Peel County, and whether or not this is true, it is certain that of the factories operated by Crooks and by the Barbours, who learned their business from him, those in Peel County were considered the most important.

In the production and use of power, too, Peel has led the way. A power plant very early operated by the Deagles at Cataract, was among the first in Canada, and installed the first revolving field generator designed and built in the country.

**I**N SOCIAL and intellectual lines as well as in material progress, Peel has excelled. When the misgovernment of the Family Compact became a by-word in Upper Canada, the second riding of York, comprising the future Peel County, returned William Lyon Mackenzie time after time in defiance of his repeated expulsions by parliament. As long as he used constitutional means towards obtaining the desired reforms the people of the future Peel County led the province in supporting him. But while Upper Canada desired reform it would not sanction revolution and in 1838, when Mackenzie's utterance had become openly seditious, he was defeated in his old reliable riding by Colonel Ed Thompson of Toronto township, a loyal supporter of law and order and a member of the local militia. If Mackenzie had observed the omen he would have seen that his cause was foredoomed to failure, Peel being as it undoubtedly was at that date, the political barometer of the province.

John Coyne, who moved the reply to the Speech from the Throne in the first Legislature in Ontario after the British North America Act, dealt intelligently and powerfully with many abuses or follies which were not remedied until a much later date. He urged forest conservation and reforestation, government control of liquor licenses, liquidation of Municipal Loan Fund, and above all that expenditure of all money should receive the sanction of the House.

Peel was long a banner Orange county. The Grahams, Beattys, Reids—Irishmen who came to settle in Toronto and Chinguacousy townships in 1819-20—brought a traveling warrant with them. Their lodge, although its Canadian number is only five, due to delay in application when the Canadian Grand Lodge was formed, is probably the oldest in Ontario; and such well-known Grand Lodge officers as George L. Allen, for many years grand secretary and grand master; John Coyne, provincial grand master; John Hilliard Cameron grand master; R. J. MacGeorge and Robert Arnold, at various times grand chaplains; Michael Crawford, for many years county master and grand councillor; and a score of others, were born and had their first lodge connections in Peel.

The same thing holds in the case of other fraternal orders, in all of which Peel citizens have played a striking part.

**F**ROM Elinor Glyn to Mazo de la Roche is a far cry but the literary of Peel take it without a murmur. Elinor Glyn was one of the Sutherlands of Woodburn, near Clarkson, and it was in Clarkson, near Benares, the home of the Harries, that Mazo de la Roche wrote "Jalna," the story of an English family who named their homestead after a British station in India. It is not generally known that Brock Selton Thompson spent much of his young manhood at the home of his aunt, Mrs. Schreiber (Charlotte Morrell), the well-known painter at Erinville, and that the setting of "Springdale" and "Silver Spot, the Crow," and others of his famous animal stories, is in Peel County. Other writers resident in Peel County have included the

Livesays—Florence Randal and Dorothy—the late Dr. Albert Watson and Thos. O'Hagan.

Peel County has been equally attractive to painters since Paul Kane painted a portrait of Chinguacousy, the Indian chief for whom the central township of the county was named. George Chavignaud, Curtis Williamson, Fred Haines and J. W. L. Forster are native sons of Peel, while other painters such as Herbert Palmer, Owen P. Staples and W. St. Thomas Smith, have visited the county in the summer, charmed by its natural advantages of pleasant climate and varied and picturesque scenery.

**W**HAT wonder with such leaders as those mentioned that the percentage of illiterates in Peel is the third lowest in Canada.

In moral and spiritual matters Peel has achieved distinction. Few people know that the early Catholic missionaries touched Peel. Fathers Jean Brebeuf and Joseph Chaboussat, in their missionary journeys among the Hurons and Neutrals, passed through the northern part of Peel County; indeed, Kandocho, their southernmost point of work, is supposed to have been near Brampton. Also in Peel County, at Erinville, then known as the Anglican clergyman west of York.

Among the ignorant and degraded Mississaugas at the mouth of the Credit, Egerton Ryerson, later the first superintendent of education for Ontario, spent his first year as a probationer in the Methodist ministry. It was while here that, like David going out to battle with Goliath, Ryerson entered upon his strenuously successful career. Betrayed by the experienced and influential archdeacon, later Bishop Strachan, on the question of the clergy reserves, at Brampton resided William Lawson, a venerable class leader of Brampton, England, who first established primitive Methodism in Canada and in Brampton were held the first and last conferences of this church.

**I**N THE agitation for temperance as in religious life, Peel was foremost. In New England, supposedly the leader in temperance agitation, the first temperance society was not founded until 1829, but in 1827 we find the first organized in Peel in Toronto township.

Their intellectual and spiritual interests, however, never prevented the citizens of Peel from displaying their physical prowess in times both of peace and of war.

In sport for example, Peel is justly famed. Lacrosse was probably played on the banks of the Credit by the Mississaugas before it was played anywhere else in Canada. The Excelsior team has been playing in Brampton since 1871, reaching a climax in 1930 when it won the gold Mann cup, emblematic of the Canadian championship, the Globe Shield (also in 1913) and the Clare Leacock Trophy (also in 1926). In that same year (1930) George Sproule, manager of the Excelsiors, won the Murphy Memorial Trophy, and junior, intermediate and senior teams were alike champions in their respective classes.

Queen's Plate winners from Peel have included horses owned by William Duck of Port Credit, and Archie Franks of Caledon East, while Dr. Hopkins's "Jim McKerron" or some time held the Canadian trotting record. Joe Lawson in the late eighties won the Dominion championship at quoits, while Albert J. McCaffrey, born at Caledon in 1893, was the first man in the history of sport in the world who ever played on both amateur and professional world champion teams. The Rev. J. D. Morrow, born in Churchville in 1903, set the world's record (forty-nine and three-fifths seconds) for 440 yards dash for McGill University, and unless this record has been broken within the past year, his name will stand practically every type of sport which has ever been played in Canada has had its devotees in Peel County.

**S**PORTSMEN are generally among the first to answer the call to arms, and the citizens of Peel County have been no exception to the rule. The

brave York Volunteers who followed Brock in his remote charge at Queens-town Heights, included men from Peel County. One, indeed, who had been charged with assault on a pathmaster the preceding year, was pardoned in absentia, since he was now "exercising his pugnacious instincts in useful and patriotic fashion."

The Lundy's of Lunry Lane later moved to Peel County and used to delight and horrify their neighbors with accounts of that battle when two of the women had carried provisions and bandages to the troops, and a rail fence they were climbing had been shattered by a cannon ball, throwing them on the grass and causing them to spill a large pail of milk, at which, nothing daunted, the daughter had continued with the rest of the supplies while the mother returned for a fresh pail of milk.

**A**NOTHER heroine of the war of 1812 may justly be claimed for Peel. Laura Secord was the daughter of Col. Ingersoll who kept a postmaster's inn and ferry at the Credit mouth from 1805, when Toronto township was first surveyed, until his death some years later.

Thomas Scott, a victim of Louis Riel, was a member of a Peel family, and the country was greatly stirred over his death, a cousin of the murdered man. It is said, having lost his mind as the result of grief and rage, Definite records have been found of 176 Peel men who participated in the war of 1812, and 180 in the rebellion of 1837, eleven being rebels and 169 government supporters. Two hundred and forty-seven Peel men enlisted at the time of the Fenian Raids, and 1,983 in the Great War.

Alum upon columns and page upon page could be filled with Peel's claim to a unique place among the counties of Canada. For white robins, her sea-serpents, her frogs a foot long, her haunted roads and bridges, her record yields of field crops, her schools, and her modern improvements, could all be mentioned.

# To Bob Or Not To Bob; Science Goes Into The Problem Of Hair Cutting

## Will Women Raise Beards Like Men If They Continue To Shear Tresses

By HELEN WELSHIMER

WHETHER or not the continued practice of bobbing hair is going to produce bearded ladies is puzzling science at present. The anthropologists would like to know — to say nothing of the ladies with the shorn tresses!

Within a few more generations nobody will pay a quarter to see the bearded lady at the circus if Dr. Bruno Oettinger, eminent anthropologist and lecturer at Columbia University, New York City, is right.

"If women continue to bob their hair," he says, "they will develop hairy chests, like men. When it leaves the scalp it looks for another place of reproduction. It is bound to appear in some other area on the body."

However, if Charles Jundt, more familiarly known as Charles of the Ritz, internationally famous hairdresser, who has a staff of research scientists engaged in the same type of anthropological study, is correct, no woman's hair will lose its touchable qualities though she bob and bob!

### MUST HAVE OUTLET

The discussion began when Dr. Oettinger told the American Association for the Advancement of Science, at its

recent convention, that hair, that is, on the head must find another outlet.

"Hair emigrates from the scalp more in men than in women," he insists. "Men have cut their hair for a long time. Factors which influence this migration are concerned, too, with the texture and the strength of hair. Naturally if the stimulus to the hair is lost, the follicles weaken."

"Hair on the neck, chest and limbs is caused by the practice of cutting the hair on the scalp. If women insist on cutting their hair, in several more generations they will have hairy chests and arms and legs."

"Hair prefers the head, but when the hair is cut the hair follicles must be stimulated by the growth of the hair on the body, because the parts of the body have no relation."

### CHARLES SAYS IT'S WRONG

And a smooth, satiny, soft and lus-

Dr. Bruno Oettinger

trous cheek is a favorite place, he believes he has discovered.

But Charles of the Ritz, who has been studying the same question for thirty-five years, disagrees. You may open your scissors and let the hair fall where it may, so far as complexion troubles are concerned, he says.

"Hair on the face is disconnected from hair on the scalp," says Charles. "A man may not have a single hair on his head and yet grow a beard. I absolutely take exception to the statement that cutting the hair on the head stimulates its growth on other parts of the body, because the parts of the body have no relation."

"Women may cut their hair all that they want to and have no fear about their complexions. Their skin will stay as smooth as though they were the tresses right on the tops of their heads."

"When people have diseases such as scarlet fever frequently they shave their heads. The hair comes in more abund-

antly and more luxuriously and no hair grows on other parts of the body as a result. Cutting the hair tends to improve its thickness and texture, not retard it."

### TROPIC GIRLS BEAUTIFUL

"In the tropics native girls have the habit of cutting their hair very closely all the time. Their skins are among the smoothest, most beautiful in the world, although this practice has been going on for generations."

"Primitive men didn't cut their hair, yet its thickness ranked with that of the gorilla. They had beards although they never cut the hair on the scalp."

"There are religious sects to-day which do not permit the men to cut their hair. Although this practice has been in vogue for a long time, these men continue to raise beards. Cutting the hair on the head has nothing to do with the increase or decrease of hair

on other parts of the body, experimentation and research show."

If Dr. Oettinger and his associates are right, posterity is going to have a bearded appearance, judging from present progress. Smooth faced pictures, pasted in the family album, will be passed over with a smile.

Women would lose some of their femininity if they had beards and mustaches, Charles believes. It wouldn't affect their charm so much if everyone had one, his opponent says.

Just the same, it is doubtful if the poets, who have made up verses about women's hair ever since they discovered that moon and time, and hair and fair have something in common, could do much for a mustache. A dimple hidden under a beard would lose its effect. And sheer chiffon hose weren't made for hair exposure.

But whether we will have beards or not we won't have beards—they won't come in for a few more generations.

# Priestley's 200th Anniversary Recalls His Discovery Of Oxygen

By Robert Connell

Noted Island Naturalist

OVER in England they have just been celebrating the two hundredth anniversary of the birth of Dr. Joseph Priestley, one of those pioneers to whom we are indebted for much of our modern knowledge and our modern liberty, political, religious and intellectual. With the simplest of home-made apparatus he made discoveries that are now cornerstones of elementary chemistry, organic and inorganic. Against ecclesiastical and civil prejudice he asserted the right of independent thought, the supreme place of the people's good in the sphere of government, and the complete responsibility of rulers to the governed. Frederick Harrison said of him: "If we choose one man as a type of the intellectual energy of the eighteenth century we could hardly find a better than Joseph Priestley, though he was not the greatest mind of the century. His versatility, eagerness, activity and humanity; the immense range of his curiosity in all things, physical, moral or social; his place in science, in theology, in philosophy and in politics; his peculiar relation to the Revolution, and the pathetic story of his unmerited sufferings, may make him the hero of the eighteenth century."

Priestley was born in the West Riding of Yorkshire on March 24, 1733. The place of his birth was the little hamlet of Hillhead, not far from Birstall and half a dozen miles from Leeds. The hamlet has been gone for more than a century, but a drawing of it from old sources shows a quaint stone building situated on what we should call a "corner lot." It faces a road whose upward rise is reflected in the architecture. First comes a single-roomed shed; next, the principal section with two storeys whose long row of windows downstairs suggests the weaver's shop. Then two other two-storeyed sections follow, each about half the length of the principal one. The four roof-ridges thus success each other like the steps in an ascending garden path. All is done in the stone and slate of the North Country; the sole brightness being the bushes that creep above the enclosing wall. Here the Priestleys lived for two centuries or more, carrying on in succession the business of hand-loom weaving and dressing of woollen cloth. In these far-off days before the Industrial Revolution all the country between Leeds and Bradford was dotted with such hamlets as Fieldhead, where the domestic manufacture of cloth was carried on. The inhabitants were a people of singular independence and ritual, and we may say that their economic freedom was productive of their sense of religious and political freedom. The religious bodies dissenting from the doctrines of the Church of England or refusing to conform to its worship and ritual were numerous. Later in the century another religious movement established itself firmly among these hills and moors. When Priestley was a boy of nine John Wesley stood on Birstall Hill and began a "revival" that has left its mark on the very

country in the gray stone chapels that still gather within their walls by thousands the "people called Methodists."

When a boy of thirteen I was once sent on an errand to Birstall. As my memory sees it through the years the open door of the house to which I went looked out on a broad village green. A shoemaker by occupation, there sat Samuel Bywater, widely and lovingly known as a "local preacher" and a man of irresistible power. Religion was his supreme interest in life, and all his mental faculties were devoted to it. The originality of thought and expression revealed itself in his sermons, and the stock from which Priestley sprang, and that under the impulse of greater knowledge, a fuller education, and a freer environment flourished in the marvelous activity of Priestley's mind and range of his interests.

At six years of age Priestley was taken at his mother's death to the home of an aunt who had married a man of some wealth for whose parents and times, and under her kindly care he received a good education. In spite of ill-health by thirteen he had read the common Latin authors and had some knowledge of Greek and Hebrew. His aunt wished him to enter the ministry of the Presbyterian Church, but the state of his health seemed to put that out of the question, so he prepared to enter upon a business career by learning French, Italian and German, all of which he mastered at home by self-tuition. In addition he took lessons in various branches of mathematics from a neighboring minister, went on from his modern languages to Chaldean and Syriac, with a taste of Arabic, and gave lessons in Hebrew to a Baptist minister. These studies—only a part of his self-appointed curriculum—gave us a pretty good idea of the mettle of the lad.

THE more unconfined life of his aunt's home so built up his health that it was again possible to consider his ministerial training, and in his nineteenth year he was enrolled at the Academy at Davenport in Cheshire founded by the famous Goodridge. As a training place for a youth eager to learn, it was a fine one. Contrary to our general notions of theological colleges this one allowed the fullest and freest discussion of every article of theology, and of the history of the church. Three years later he began his new career in the little town of Needham Market in Suffolk.

Now Priestley had a physical handicap which from the first created a prejudice against him in his small congregation—he stammered. Many years afterwards he came back to Needham Market, where his name was a familiar one both in the church and in the great world outside. Nonconformity was his lot, and he was a man of words. Such only too often, is popular judgment. From Suffolk he went to Nantwich, in Cheshire, where his relations with his people were pleasant. He opened a small private school, began to interest himself in science, and learned

to play the flute. Then he was offered a post at Werrington Academy, in Lancashire. Some idea of his varied abilities may be had from the subjects he undertook to teach: Latin, Greek, Hebrew, French and Italian; and the courses of lectures he gave on logic, elocution, theory of language, oratory and criticism, history and general policy, civil law, and anatomy. He entered upon a very pleasant part of his life here, with agreeable colleagues and society.

THE PRINCIPAL Dr. Aikin, had a daughter, Anna, who lives in English literature as Mrs. Barbauld. Crabb Robinson, the celebrated diarist, tells a little story of one of her poems and its effect on Wordsworth: "It was after her death that Lucy Aikin (her niece) published Mrs. Barbauld's collected works, of which I gave a copy to Miss Wordsworth. Among the poems is a stanza to Life, written in extreme old age. It was long after I gave these works to Miss Wordsworth that her brother said, 'Repeat me that stanza by Mrs. Barbauld.' I did so. He made me repeat it again. 'And so he learnt it by heart.' He was at that time walking in his sitting-room at Rydal, with his hands behind him; and I heard him mutter to himself, 'I am not in the habit of grudging people their good things, but I wish I had written those lines:'

"Life! We've been long together.  
Through pleasant and through cloudy weather;  
'Tis hard to part when friends are dear.  
Perhaps 'twill cost me a sigh, a tear.  
Then steal away, give little warning,  
Choose thine own time;  
Say not good night, but in a happier clime  
Bid me good morning!"

But in these Warrington days Priestley made a friend who gave his career a new direction, one without whom he would probably have long since been lost to fame among the host of ministers, teachers and writers of the eighteenth century. This friend was Benjamin Franklin, then colonial agent for Pennsylvania in Great Britain. This great American, at once philosopher, statesman, scientist and author, it is well to remember, was an ardent Unitarian and the mother country took place. It is said of him by one of his first biographers: "It was one of Franklin's most cherished opinions that the greatness of England and the happiness of America depended chiefly upon their being united. He was not an Englishman nor an American, but the great and glorious Empire which these two united to form."

FRANKLIN was one of the first experimenters with electricity, and perceiving the peculiar ability of Priestley as teacher and writer and his still infant taste for physical science, he suggested that he write a history of electricity. This was the discovery of the Leyden jar, that time had been the Transactions of the Royal Society, in the pages of which were collected the research work

of all countries. As a result Priestley was elected a member of the society and took a definite place in the world of science.

Priestley married while at Warrington, and the responsibilities of a household compelled him to seek a new field of work. So he went for six years to Mill Hill Chapel, Leeds. Here he began his great work of investigating the properties of gases. It was the fact that his house in Leeds adjoined a brewery that led him to begin with carbonic acid or carbon dioxide, then known as "fixed air." He knew little of chemistry except what he had picked up in a more or less desultory manner from one of his associates at Warrington, and he had no equipment, even of the simple kind then in vogue. Furthermore, his financial condition made it impossible to buy any. But our Yorkshire philosopher was not discouraged by such limitations; he set to work to make his own. In this way he made the first "phlogisticated" air, a piece of equipment still indispensable in the study of gases. Priestley's trough was simply a common earthenware washbasin fitted with a self-containing suitable holes for his inverted jars.

Having obtained his "fixed air" he discovered that it gave a "pleasant sedulous taste" to water, and that he could produce by its means a "glass of exceedingly pleasant sparkling water which could hardly be distinguished from very good Pyramont, or rather seltzer water." He goes on to say in his account of the experiment that he "does not doubt but that by the help of a condensing engine, water might be much more highly impregnated with the virtues of the Pyramont spring, and it would not be very difficult to contrive a method of doing it."

Thus Priestley was the discoverer of the beverage we know as soda-water and its army of practical mind, put the new water on the market as Berkeley's Julep or "acidulous soda-water," which he prepared with carbonate of soda as a means of increasing the absorption and retention of the carbonic acid gas in the water treated.

PRIESTLEY came very near being attached to Captain Cook's second expedition to the South Seas, owing to his recommendation of soda-water as a remedy for scurvy, a recommendation supported by the Royal Society. But a better sphere of usefulness opened to him in 1772, when Lord Shelburne, afterwards first Marquis of Lansdown, offered him the nominal position of librarian at Bowood whether he had retired after his dismissal from Pitt's government or not. In this position of freedom he pursued with even greater vigor his researches into the nature and origin of gases. Among his discoveries was the effect of vegetation in purifying the atmosphere from carbon dioxide and restoring to it oxygen; "plants, instead of affecting air in the

same manner with animal respiration, reverse the effects of breathing and tend to keep the atmosphere sweet and wholesome when it becomes noxious in consequence of animals either living or dying or putrefying in it."

He discovered some seven new gases, including nitric oxide, nitrous oxide, hydrogen chloride, ammonia, sulphur dioxide, silicon, fluorine and oxygen. His discovery of oxygen is exceedingly interesting because it throws light on Priestley's limitations. Excellent as an experimenter, he failed in drawing correct conclusions, or perhaps it may be better said that he was blinded by the effects of a dogma. The older chemists held that there was a principle of burning or inflammability which made the difference between objects that take fire and objects that do not. This "principle of inflammability" they called "phlogiston," from a Greek word, meaning "that which is burned up." Stahl, the chief promoter of the idea, called it pure fire or fire in a state of rest as distinguished from fire in action or in the act of burning. It was really a theory of combustion, but it was brought into the field of science among chemists as an actual though intangible substance.

Priestley accepted this theory fully and without question. Perhaps his sense of ignorance in chemistry made him the reader to put himself at the disposal of the older chemists. At any rate all wholeheartedly under the yoke. As they saw all his explanations of what he observed are colored by his idea of phlogiston. Thus, when he discovered oxygen he did not recognize it for the important gas it is, but called it "dephlogisticated air," just as he gave the title of "phlogisticated air" to nitrogen. He described fully and accurately its chief properties, noting that "the dipping of a lighted candle into a jar filled with dephlogisticated air is alone a very beautiful experiment. The strength and vivacity of the flame is striking, and the heat produced by the flame is not so great as that of a candle in air. He goes on to say that he has observed that covered oxygen he did not recognize it for the important gas it is, but called it "dephlogisticated air," just as he gave the title of "phlogisticated air" to nitrogen. He described fully and accurately its chief properties, noting that "the dipping of a lighted candle into a jar filled with dephlogisticated air is alone a very beautiful experiment. # Spring Jackets, Coats and Capes Step Out Smartly For Easter Parade

Three handsome Easter choices: The Gibson Girl blue suit (left) with wide shoulders and a pert pepum. It is topped by the latest go-to-fer hat. Softly dressmaker, is this chartreuse green and grey striped woolen suit (centre), with short sleeves. Very new is this black gigolo suit (right), with diminutive fitted jacket with great pointed revers, faced with the red, black and white printed silk of the blouse. The hat is the new Maria Guy coachman's model.

By JULIA BLANSHARD

**E**ASTER suits carry youthful zest into the fashion parade this year. You can be man-tailored, you can wear a soft dressmaker suit or you can have some of the mannish suit-ables that combine clear-cut lines with the latest wide-shouldered silhouette.

Skirts are more or less inconspicuous. It is the jackets that count for individuality. You can go in for having that so-called "coat-hanger" look to you and be a knock-out. You can have a box coat that just hangs, or a fitted coat or one that is a little mess jacket.

## EYE-CATCHING BLOUSE WITH EVERY SUIT

The woollens that go into these suits are handloomed. Some of the fabrics that look like woollens are really flax. Others are novelty cotton weaves that have the feel and look of wool, not to mention the price. All new suits have eye-catching blouses, whether they are gleaming white satins that feature unusual sleeves and tie under the chin, or are of striped linen, woven flax, printed silks or what.

New suits play up blue as a first choice this Easter. Black always suits some women perfectly. Neutral grey and string look like Easter, as it is a late Easter this year. Striped suits have many different color combinations.

## WRONG HAT WILL SPOIL THE ENSEMBLE

Hats, particularly, must go well with the suits or your whole ensemble is ruined. If it is one of the latest high-styled suits you are buying, try the new high hats with it! They were made with that sort of suit in mind. You'll probably find one that was made with you in mind.

Inspired by the gay nineteen hundreds, a smart fine felt navy wool suit flaunts a pert pepum, and has

the new Gibson Girl silhouette. Its shoulders are padded and puffed to exaggerate their width, with the express purpose, of course, of minimizing your hips and making your limbs look slender and tapering. It has wide, flaring lapels and buttons right down the front, with a very narrow leather belt around a high waistline, to emphasize the pepum. The skirt has little godets in front to repeat the pepum's flare.

## GIGOLO SUIT IS CHIC AND UNUSUAL

With this the new Maria Guy go-to-fer hat is done in white, with a little stand-offish ribbon fancy at one side, the color of the suit. White gloves, blue pumps with stitched stripes, a blue purse and a soft, white satin blouse with a tie collar complete the smart Easter picture.

Very original is a black gigolo suit, neat, smart, unusual. Its diminutive jacket is fitted, has very wide shoulders and tight, straight sleeves. The trim skirt fits up to a high waistline and buttons down the side with the buttonholes outlined in the novelty red, white and black printed silk that fashions the blouse and the great pointed revers of the coat. This print also lines the coat.

With this is worn the new Maria Guy coachman hat that is such a furor.

If a girl is the kind who can wear it, it is smart as no other hat is smart this year. Oxford, of trim, tailored cut, with the new punchwork holes for decoration, make a suitable addition to this suit's appearance.

## DRESSMAKER SUIT IS EASY TO WEAR

Much easier to wear than either of these suits is a chartreuse green and grey striped woolen dressmaker one. It has a simple skirt, and its silk blouse is the chartreuse. The coat is an easy surprise cut, with the new short sleeves that let the blouse show for cuffs. It fastens with a single button on the wrist.

The hat is the new forward-movement beret, made with a band across the back to pitch it forward more than ever. It has a quill that accents this movement, giving it a dashing look.

## FULL-LENGTH COATS

Nothing sets a woman up more than a grand looking spring coat. You can wear it over woolen dresses, over silk ones, over a printed silk suit, over a skirt and blouse. Top it with the right hat, put on the right shoes, gloves and carry the right bag and you'll hold your head high in the spring fashion parade.

Your lightweight coat can be any length, three-quarter ones being very good this year. But if you want full wear from it, and that pleasure a woman gets from knowing she looks very smart, the full-length coat is the best bet, because your frocks under it is not so important.

The only place the man's topcoat is appropriate is over the mannish tailored suit with which you wear a shirt, four-in-hand and fedora. However, if you do like tailored things, there are many fitted, tailored coats, with just

Spring coats solve many Easter problems. Beige and brown soft tweed, beautifully tailored with a shoulder cape, makes the classically simple Easter coat at the left. Brown accessories and a gay scarf complete the picture. White pique revers, with matching white pique gloves and a white pique hatband, make the tailored blue coat (centre) a handsome spring addition to any wardrobe. Dressed and luxurious is this full-length beige wool coat at the right, with upstanding tan fox collar. Its sleeves have handsome detail for elbow fullness. Its accessories are beige and grege.

## DOUBLE-BREADED STYLE

Such a coat is a navy blue crepe wool coat, double-breasted, with wide revers of white pique. It is fitted meticulously, with a care to having the skirt part lap over enough so that it does not part company when you sit down. Its shoulders are beautifully fitted, its sleeves tailored and slender. It carries its own white pique gloves with it, to match the pique revers and collar.

These gloves, as all good gloves this spring, should be considered part and parcel of the coat. They are gauntlet pull-ons, with a little pleated frill of the pique finishing the top. Every time your revers and collars are washed, these too are made fresh and immaculate. You might even have a couple of pairs, because gloves do soil so quickly.

With this coat goes a blue sailor hat, with narrow white pique banding, and a little light veil that adds its note of femininity.

## FUR-TRIMMED SMARTNESS

If you are the kind of woman who never goes in for strictly tailored things, then you will be interested in one of the new fur-trimmed coats. The way they wear their fur this year is very interesting. Some have Peter Pan collars, others almost capes of fur (often detachable), others wear their fur proudly, like a lei, while still others have fur only for lapels or epaulettes. One coat that is infinitely lovely in

its good taste is a handsome dressy beige wool coat with upstanding collar of tan fox. The sleeves are elegant, both in their restraint as to size and in the fine detail that gives elbow fullness.

A little beige straw turban is trimmed with dark brown gros-grain ribbon, making a bow at the side, and a brown nose veil. Beige suede one-eyelid ties have fine pin tucks across the vamp, a new wrinkle in shoe fashion this spring.

## TWEED FOR SIMPLICITY

The purse and gloves are grege, as are the hose, making a harmonious outfit for the Easter parade, combining as it does, beige, brown and grege, which is a beige with a grey tone to it.

For the woman who loves classic simplicity, there is a tan and brown soft tweed coat with an elbow-length cape of the tweed that fits the shoulders to a "T". There are brown buttons all up the front of the coat and up the sides of the sleeves, giving it a trim that is plain and yet a decoration.

With this a beige felt hat, brown gloves, brown purse and brown warm-up pumps carry out the restrained taste of the coat. At the neck a bright silk scarf gives a note of color, and it can be the scarf collar of your silk dress under the coat, just as well as a separate scarf.

## CAPE'S SMARTEST INNOVATION

ON WITH the new this Easter! There is new hope in the country—let your clothes prove that you are in the same buoyant mood!

Capes are distinctly new this spring. They have a leisure-class-something that women love. Combine them with new prints and you have a knock-out costume. Their very swing gives you dash and youth and the best part about many of them is that they can be worn over various costumes and prove very, very useful for that reason.

If you want real dash to your cape costume, have a contrast of some kind in its color scheme. This is where prints come in at a premium.

Checks, dots, stripes and plaids are the pepper to your wardrobe concoction. The right bit of printed yoke, scarf, blouse or upper to a dress can simply make you a new woman.

## CAPE IN WIDE VARIETY

There is tremendous variety in cape costumes this Easter. You can have a wool suit with a cape instead of a jacket. You can have it just waist-length, so that your blouse sleeves show beneath. You can have a three-quarter swag cape with your suit. You can have a dress and a little shoulder cape that comes off; you can have a plain skirt and shoulder cape with a surprise blouse or tunic that makes a rather formal costume and a very attractive one.

With most of these you can create an illusion of several costumes by changing things about a bit. Nothing is more adaptable than the cape. Wear your cape suit with a different skirt, a lighter toned one, and it is another costume altogether. Wear a wool cape over a print dress and nobody will realize it is only the

Black smoothstone silk and chartreuse silk crepe make this cape costume. The surprise vest of chartreuse has matching flowers and a sash, tying on the hip.

This cape-suit is of grey rabbit hair wool, the cape buttoning to the skirt. The blouse is of mustard-yellow, eggplant and white plaid taffeta.

top of your suit that you are wearing. And add a plaid taffeta blouse to a silk suit that originally had a white satin one or a white pique. You have one more possibility of great change.

Exquisitely simple but possessing real dignity and beauty, is a black smooth tone silk suit combined with chartreuse crepe. The suit will stand you in good stead for the whole summer.

There is a straight-line skirt, with kick pleats, and a little waistlength silk jacket. Then, for formal wear, the top of the skirt is of the same black, with long sleeves, and a chartreuse crepe surprise vest that ties in a sash over one hip, with chartreuse flowers down the front.

Later on you can lift off this black top altogether, if you want, don a crisp white organdy, puffed sleeved blouse, and there you are, all made over into a summer outfit.

## SNAPPINESS IN GREY

That hat that goes with the suit for Easter is a stunning little high-backed model, with chartreuse grosgrain ribbon lining the halo top.

For a spring suit, a grey rabbit-hair wool combines with plaid taffeta in mustard-yellow, eggplant and white in a harmonious, snappy costume. The skirt is made with a high fitted waistline. The cape fastens down the front with metal buttons and the bottom two hitch it to the skirt.

The long-sleeved plaid taffeta blouse has its own scarf collar that ties in a bow in front, fluffing out over the neckline of the cape. Of course you can wear any blouse you want with this. But this plaid one, with its use of two new colors, eggplant and mustard-yellow, makes an original looking outfit for Easter morn.

The hat is one of the new fez type, particularly flattering because of its self-bow right in front.

## POLKA DOTS SMART

Polka dotted silk, in a new color combination of green and white dots against grey, combines with grey Lezur, an imported wool, to make a very springlike costume. The top of the dress is of the polka dotted silk. So

Polka dots in green and white dot the grey silk that makes the top of the grey wool dress of this costume, and the yoke and ties of the shoulder cape.

is the shoulder part of the little cape and the tie ends of the cape. These can be worn Ascot, or in a bow, as you wish.

The dress is short-sleeved and the cape hits at about elbow length, rounding up in front to show the printed top of the dress.

# Treat That Sweet Tooth To This Luscious Parfait

## Pineapple and Butterscotch Blend in Its Flavor

**O**LD-FASHIONED women trusted their instinctive feeling that the way to a man's heart was through his stomach.

Modern women may feel that this is much too simple a formula to be relied upon exclusively. However, there is scarcely a woman who has not realized that she usually can get somewhere by catering to a man's sweet tooth!

Delicious desserts catch a man's eye and make him expansive, even before he tastes them. Particularly if you have been serving a spring stew, meat pie, pot roast or other inexpensive main course, the real gauge of your meal is your dessert.

## CHILLED DESSERTS APPROPRIATE

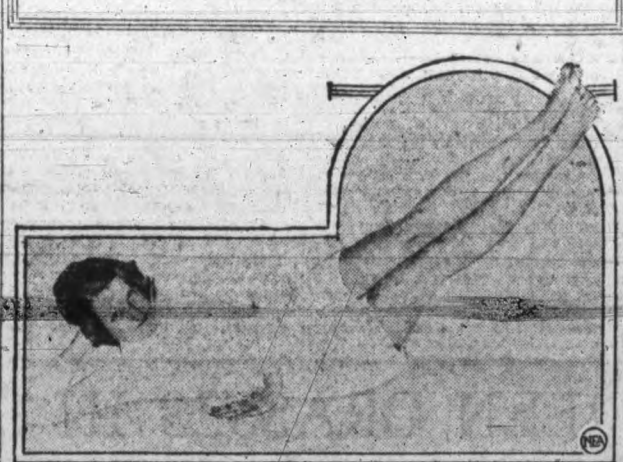

With spring in the air, chilled desserts are particularly appropriate. Men, women and children all love the festive mood that luscious parfaits or other fancy desserts put them in. One particularly toothsome dessert, recommended highly as his favorite dessert by Edward Johnson, Metropolitan Opera singer, is pineapple butterscotch parfait.

## PINEAPPLE BUTTERSCOTCH PARFAIT

One-half cup sugar, 1-2 cup light brown sugar, 1-2 cup water, 2 table-spoons butter, 2 egg whites, 1 teaspoon vanilla extract, 1-2 pint (1 cup) cream (whipped), 1-2 cups canned crushed pineapple (drained), 1-2 teaspoons granulated gelatin, 1-4-cup cold water.

# Getting Down To Slender Lines For Spring Styles

## Lesson No. 6

Lateral leg-raising . . . to reduce waist and thighs.

By JAC AUER

**D**O YOU crave a pinched-in-waistline? Do you exercise works directly for that. It also does its bit toward further reducing your thighs. It consists of raising both your legs, knees tight together, toes pointing downward, and swinging your legs in as near an arc as you can manage, without letting them touch the floor.

Balance yourself on one side, one arm flat on the floor, hand supporting your head. Place your other hand in front of you on the floor, where it gives you the greatest brace. Now lift both legs together, toes pointed, and try to swing them up, around and to the back. The first day you may scarcely be able to get them off the floor without tipping over. Keep at it. This exercise calls for determination. Persevere each day until you actually can manipulate the double leg swing in as high an arc as shown in the picture.

After trying the swing twice on your right side, roll over, brace yourself on your left side and swing in reverse direction.

This exercise calls into play all the back muscles through your waistline and your thigh muscles. It gives them a chance to work as they do not usually have the opportunity to work in so doing, they build up a co-ordination and a poise that makes for grace. And at the same time, when you get all your muscles working correctly, fat will just melt away.

## GARNISH WITH WHIPPED CREAM

Soften the gelatin in cold water or pineapple juice, dissolve over boiling water and add the dissolved gelatin to the mixture. Pour into a refrigerator tray or chill in a bowl of iced water for two hours. Serve in sherbet or parfait glasses, with a garnish of whipped cream and maraschino cherries.

## Lesson No. 7

Hip roll . . . with opposite arm-swing.

Concentrate to-day on your hips and abdomen. Reducing your hips gives you the slender-form you want.

Toning up the abdomen is helpful, not only in reducing the waistline, but also is excellent for toning up your whole system because it works towards the complete elimination of the system which is essential to health itself, as well as an exuberant, lulling figure.

This exercise is a double one. You swing your shoulders one way, your legs another. It is a particularly fine abdominal squeeze that you get by this opposite swing. Sit up, straight on the floor and rock back as far as you need to get proper balance to lift your feet slightly off the floor, ankles crossed. Your arms

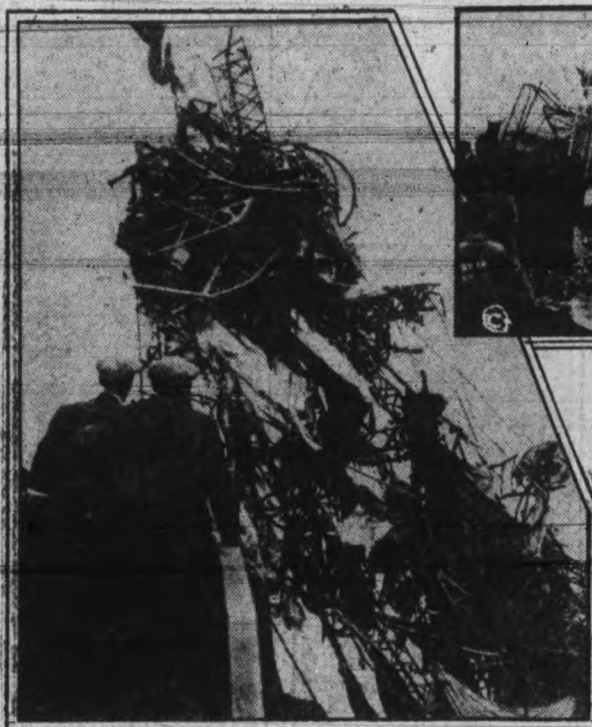

instinctly will go out to your sides to balance you. Keep them as near shoulder level as you can, and parallel.

Now swing your legs off the floor to the left side as you swing your arms forcibly to the right side, keeping them at shoulder height. Rest. Now swing your legs off the floor to the right and your arms to the left. Try it a couple of times, resting in between.

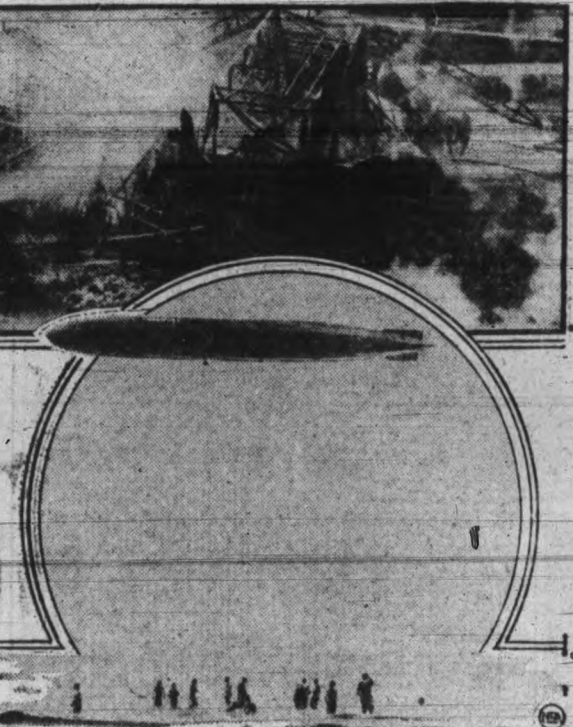

Now swing first to one side with your feet, arms in opposite direction, then reverse, completing the exercise. Do it several times, until you can feel your abdomen getting the squeeze. This exercise works directly on your hips too, and your buttocks. It is an invaluable aid towards complete co-ordination of your body and limbs muscles which make for perfect poise.

# Camera Portrays Grim Record of Lighter-than-air Craft

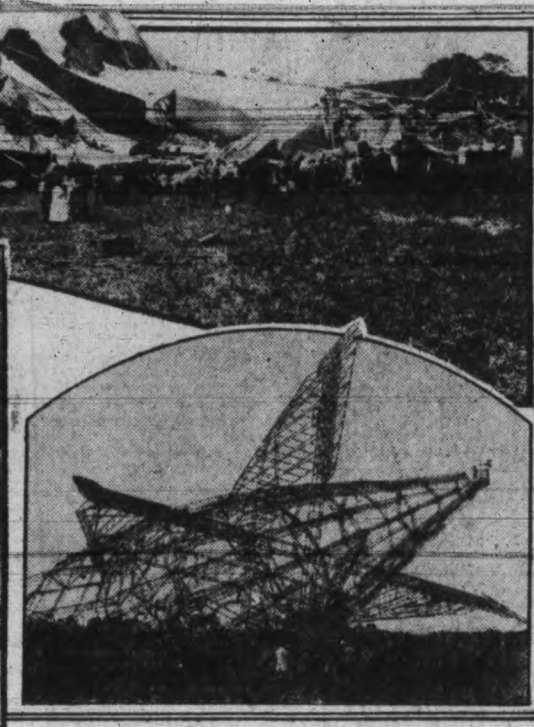

The world's major aeronautical disasters have included the destruction of seven dirigibles within the past dozen years, with the loss of more than 280 lives. Scenes from these costly tragedies are pictured here. Above you see the wreckage of the ZR-2, a dirigible built in England for America, being raised from the sea. On a trial flight over Hull, England, on August

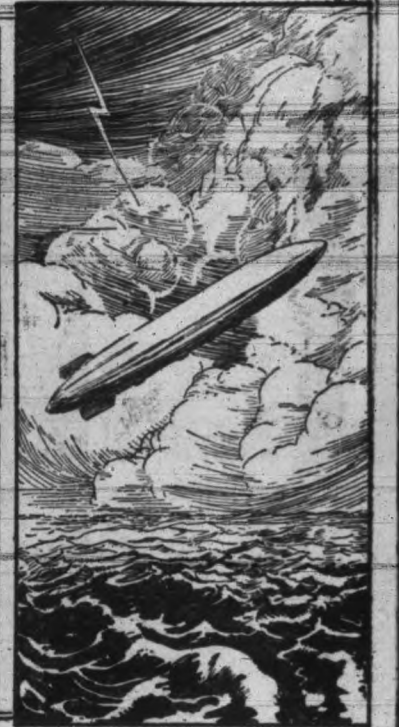

24, 1921. It burst into flames and forty-four persons, including sixteen Americans, plunged to their death. Next, above, are shown the smoldering ruins of the Roma, purchased from Italy by the United States. Thirty-four men died in it when, on February 1, 1922, it caught fire at Hampton Roads, Va. Below is the last glimpse of the French dirigible Dixmude as it started its ill-fated flight over the Mediterranean in 1923. The craft

is believed to have exploded, killing fifty-two men. At right, above, is shown the end of the U.S.S. Shenandoah, sister ship of the Los Angeles. It was ripped apart by a thunder squall and crashed near Caldwell, O., on September 3, 1925. Fourteen men lost their lives. In May, 1928, the Italian dirigible Italia (below, left) was destroyed in the Arctic wastes and most of the explorers and their aides were killed. At right is shown

the gaunt skeleton of the British R-101 near Beauvais, France, on October 4, 1930. Flying low through a fog, it crashed into a hill, then burned, with a toll of forty-eight lives. At extreme right is an artist's conception of the greatest of all air tragedies—when the mighty Akron, caught in a violent storm off the New Jersey Coast, was forced down by the stern and demolished, with seventy-three lives apparently lost.

## Credocracy Hailed As Latest Plan To Bring Happiness and Contentment

No Taxes, No Misery, No Want, No Unemployment, No Offensive Wars, No Depression, No Crises, And No Need For Money Are Among Its Promises

By A. C. Hinton

I AM GOING to make a startling statement!

I am about to show, by means of an economic plan which I have named "Credocracy," how this world we live in may find peace and how we may lift the load of encumbered debt off our shoulders for all time.

I claim, and justly so I believe, that Credocracy can give Peace, Happiness, and Contentment to all.

My plan is original and unique. It is the only plan that offers: No unemployment, no offensive wars, no taxes. It is basic and fundamental in its conception and character. No depression, no misery, no crises, no want, and no money as we understand that term, are the foundations upon which Credocracy has been built.

Credocracy does not outlaw war. It goes a step farther and outlaws the government that desires offensive war.

Mark you! I am only one of many who has a plan, a solution for this depression. I claim, however, that my plan is the only one whose medium of exchange is not based upon gold or silver.

Credocracy is effort capitalized. Its values lie in an exchange of services. The value, to be expressed more definitely, of anything is measured by the amount of time that mental or physical energy uses up in its production.

PEOPLE will condemn me, I dare say, for being an idealist, and say that I talk like a Chelsea intellectualist, one of those people you understand who has ideas but nothing else. Whether I am or not signifies nothing. But I am one who assumes that reason can overcome any of the seven deadly sins, or any of the fierce passions which have blighted this world while I do not forget the past, nor what it teaches. I do not fail to acknowledge that the true way to philosophy is to reflect upon history. I am not insensible to history nor to what it teaches. I remember that history was made by the minority for the majority. Under Credocracy the majority rule through the minority it is true, but that minority can never spend the people's blood nor their money.

To have the arithmetical proof—calculate about laws over which philosophers and economists have quarreled for centuries, or to discuss elaborate tables of figures—might confuse you in your analysis of my plan. I would also rob me of your judgment. I therefore marshal no facts other than the basic ones. I quote no figures other than those of wages and trade. I make no statement about economics whatsoever. Instead I appeal directly to your reason. The essential facts will be visible enough to anyone who cares to reason the thing out.

I am going, therefore, for the purpose of illustration, to assume that Credocracy exists. I shall endeavor to take you, step by step, from the child at school to the minister who administers the plan. I shall not make any word pictures, extravagant or otherwise. Each picture will be different and

to do real work. In grade 7 or 8, when the child is really conscious of its tendency, it is told that for the remainder of its school life meaning elementary, high and university, it will learn only those things which bear either directly or indirectly upon the job it will have in industry. It is another phase of education—that industry looks to the schools to supply it with personnel, and not as at present from the ranks of the unemployed.

Any schoolroom under Credocracy would be a joyful thing to behold. No longer would the teacher be haunted by the fear of a cut in wages. No longer would the payment of taxes be a nightmare. No longer would there be a fear about anything at all, so long as the job was done satisfactorily. The minimum wage for teachers is 150 units per month, for twelve months. On retirement the teacher receives 50 per cent of the salary he was in receipt of at retirement.

School boards would estimate their requirements regardless of cost. Everything necessary for the mental, spiritual and physical welfare of the child would be done under Credocracy. Every school board would estimate all its needs to the city comptroller, who in turn would draw the necessary amount of credit from the bank. In due course of time, wages and any other expenditures would be debited against this credit and the account closed—balanced.

THE HOME UNDER Soviet rule there is no home life.

The Russian life is described graphically and I believe truly by Hindus, Durand and Chamberlain. I am almost persuaded to include Shaw. Even in Canada many of our homes are miserable and wretched—nearly all of them filled with fear for the future. I feel that this wretchedness and misery are not wholly imposed by the parents. In some cases yes! But in the majority of cases it is lack of money that lets the wolf in. For the first time in civilization the housewife under Credocracy gets paid a real wage. Seventy-five units a month, for so long as she is a housewife in the true meaning of the word, is her reward under this plan.

Grasp the significance of this! Instead of housework being a drudgery, something that has to be done, but without any monetary compensation other than what the husband cares to give or can give, housework becomes a real job with real wages. Look at the hundreds of wives there are who have children, but who for some reason or other, are not supported by their husbands. Instead of being dependent upon charity for food, clothing and a home, the wife will at last be able to carry on and give to herself, and her children the security and comfort which seventy-five units would bring. Every housewife would, of course, be responsible for any debt incurred according to her share of the household's earnings.

What an incentive there would be

against his goods, the price would be less than wages. I gave out in the first place that the value of anything was measured by time. This does not mean that time has a wages cost. No, it means that time must be measured by something else than wages. Time, therefore, is treated as a commodity and is valued under Credocracy at one unit per hour. Let us now compare prices:

Wage-price of an article is wage cost, rent, taxes, interest, light, etc.

Time price of an article is one unit per hour, rent, light, etc. In figuring out the price of an article I came to the conclusion that under Credocracy the price is cut almost in half.

THE INTERNAL SYSTEM

THE VALUE of the unit is one hour's mental or physical energy. The medium of exchange is the unit. It has no monetary value. It would not be quoted on the exchange in any country. It has been made equivalent to the dollar. The gold at present held in banks and by the government would be used to establish funds in centres of countries where goods were bought a dollar by Credocracy. The domestic debt would be liquidated by an issue of credit. Gold is not used for internal purposes and serves only as stated above and for uses of manufacture.

All social services, and by this I mean schools, hospitals, etc., would be absolutely free to the people. Under Credocracy they need no money. The people would receive from the bank an issue of credit to cover these costs. Expenditures against that credit are in due course certified by accountants and the account is closed. It is like getting a loan from the bank but instead of paying it back you show certified debts.

Social utility services, such as railways, street cars, etc., are treated in the same way. I cannot reconcile services to the people, no matter how much I study the matter, with profit. I am of the opinion that all public utilities should be socialized. Light, power and transportation, under Credocracy, are operated solely to give service without profit. The charges are again made on the time basis and would be much less than at present.

Business is different, of course—I call the business of buying and selling anything other than social utilities, pure business. The business man is left alone. No one worries him about taxes, interest or wages. He is free to devote all his time to his goods, to his customers, to his buying and selling. So long as he conducts his business honestly and makes a fair profit for himself, to long will he be left to his own. Wages are drawn from the bank. The monthly return would show certified signatures against the credits concerned. Wages would be paid in cash or by cheque. There would be ten unit bills, five and so on, while the change would be halves, quarters, ten and five unit pieces.

There would be no gold backing against these tokens.

It is said that our present currency is backed with gold, and this is what makes it valuable. Finance and speculators make money, I believe, although I have never made any, on the rise and fall of currency. If the dollar is worth a dollar in other countries, so well so good for trade. But we know that dollars are sometimes not worth their face value, notwithstanding that they represent so many ounces of fine gold. We all remember the German mark and the British pound after the war. There is no need for any comment upon them. I want to make this fact plain—that currency, even if backed with gold, is not always worth what it is represented to be.

Now take the unit. It has no gold backing. It is valueless except in the country of its issue. It is worth one hour of work. Work one hour and you will get one unit. The basic scale of time values, and the highest scale of wages paid to a laborer (the lowest form of unskilled labor) represents forty-four units per week, one for each hour.

SAVINGS, CONVERSIONS, PENSIONS

TO INSURE against the evils of unlicensed speculation, the Credocrat will receive from the bank 10 per cent on his savings. What inducement, therefore, is there to invest funds elsewhere?

Nothing is repudiated or confiscated under Credocracy. Everyone is the gainer. Holders of government or municipal bonds will receive an issue of credit for their holdings. The domestic debt is taken up in this way, and as no further loans are made or required, the conversion from gold to credit liquidates it. The national debt could be liquidated by gold payments made to those abroad out of the production of gold alone.

All workers at the age of retirement will receive 50 per cent of their last annual income. Those physically incapable of manual labor, but capable of mental effort will be helped. Those mentally incapable will be kept by the state.

TRADE

TO PROTECT trade, the nations of the world expend billions annually. Notwithstanding the subsidies given to trade in the shape of concessions, tariffs, armies and navies, it has a nasty habit of dying a slow death. The period of dissolution is a trying one, and mortification is only prevented by the people helping each other. That is the bugbear of the whole question. Yet we find governments and other local bodies driving demand away further and further by decreasing the purchasing power of the people. Under Credocracy no such state exists. Demand increases all the time as population increases. According to the Statesman's Year Book, 1932, Canada has been more of a seller than a buyer since the United Kingdom was concerned. On the contrary Can-

ada buys more from the United States than she sells to them. This trade is restricted, as you will agree, by depression, wars, tariffs and unemployment. Credocracy removes all those restrictions, as she removes taxes and interest. Trade is therefore free, and needs no subsidies. Under Credocracy any attempts to manufacture those goods, or the equivalent of them at any rate, could be made, which she could not purchase.

Then there is science to be taken into account. What could be accomplished by science in the field of manufacture has not yet been found out. Under Credocracy the ablest scientists of the country would have unlimited scope for research work. With no financial difficulties of any kind hampering their ability, scientists would have been given to the world during the last two decades. With an increasing, persistent demand for commodities of all kinds, trade would flourish to such an extent that the billions recorded in the Statesman's Year Book would be multiplied by billions.

IMPORTS—WAR

ECONOMISTS, however, would have to place a value on the goods imported. As the pound sterling and the dollar are based on gold, and the unit is based on time, I fancy that economists would have difficulty in placing a value upon imported goods. Goods produced in a Credocrat country would, of course, be cheaper than those produced under the monetary system. The only goods imported would be those which cannot be produced or manufactured in a Credocrat country. Imported goods would be dearer in price relatively. Commodities such as sugar, tea, coffee, fruits, etc., are in their way cheap enough. Under Credocracy they would be cheaper still for there would not be any charges against them other than those of handling and transportation charges.

Since 1925 Canada has exported roughly \$710,000,000 of merchandise over what the imports in merchandise. Since 1927 she has exported roughly \$600,000,000 of products over what she has imported in produce. So Canada has had exports over imports in merchandise and in produce of \$1,340,000,000 since 1925-27. Her gold production is roughly \$40,000,000 a year and she has in bullion in bank and elsewhere (1927) about \$74,000,000. These figures show that Canada would be pre-eminently secure under Credocracy where production would be increased ten fold. Canada's net debt on December, 1931, was about \$1,996,630,000. As she would not want any loans under Credocracy this debt would be paid off in fifty years by means of increased production in gold alone. Just imagine! No national debt in 1983.

The history of the world since 1914 records the fact that responsible government has wished for peace. Unfortunately, in outlying war governments have forgotten the United Kingdom was concerned. On the contrary Can-

war is not outlawed, but the government desiring an offensive war is. The statute not only is plain regarding dissolution of parliament immediately it attempts to enlist citizens for such a war, but the statute cannot be amended.

THE MINISTER OF CREDIT

OSTENSIBLY for the purpose of administering and instructing the credit banks, this minister works hand in hand with the Ministers of Education and Industry. He has to arrange for the crediting (financing) of industries to absorb those coming out of the schools. He has to supervise the issue of credit, its distribution and its expenditure. He has to credit all the social utility services, giving the public a service of usefulness at a small charge. He has to liquidate the domestic debt and to arrange for the gold production to take up the national debt, as well as making arrangements for trade in other countries. He has to help the Minister of Education prepare the way for the people to be useful in the development of the country by giving credits to new institutions. He is not concerned with the cost of anything. His is the job of governing the life of the nation and directing it by means of unlimited credits into ways of usefulness and achievement. He is not responsible to parliament for any usuries or usages. Not a thought is given to a budget which in the past was swollen by taxes from rich and poor alike. Instead every penny is given to the feeling the educational pulse of the nation as it affects industry, and supplying the impetus by means of unlimited credit. The minister is not conscious nor sensible of any acts of misdeeds in regard to those whose business it is to distribute credit. He is aware that while any person may rob, not a single one can convert his credits into other currency without answering question which would be most confusing. Any accumulation of credits without a legitimate cause would mean confiscation and punishment.

To attempt in this to give a full idea of what could be accomplished under Credocracy is impossible. There is no cost to anything except in time. I do not think that the period of transition between monetarism and Credocracy would be a difficult one. Things, as far as business detail as concerned would remain the same. Dollars would be converted into credit, and the dollars used to trade with other countries.

I think I have given you some idea of how the thing works. Certainly under Credocracy everything is possible. It fosters private enterprise in pure business. It offers no detail as one for the base of the plan is work. It aims to make the people happy and contented, if not spiritually at least mentally and physically, and in conclusion it inspires everybody to prepare for their place in industry so that they may become useful to the state and achieve without fear. But here work. Can anyone wish for more?

## SOUND AND SONG OF THE GREEN GRASSES IN SPRING—BY ROBERT CONNELL

NATURE is full of sounds that escape our ordinary hearing through inattention or inability. Lying in the grass on a summer day, we are at times conscious of a great under-current, faint yet distinct, made up of innumerable sounds that we cannot individually distinguish; try we never so hard, there is always that irrefragable orchestra of insect music. The simpler people we call savages seem from the narratives of travelers to hear these sounds. It is the people of the civilized world who are deaf to them. It is the people of the civilized world who are deaf to them. It is the people of the civilized world who are deaf to them.

Animals, the higher ones at least, have a keener sense of hearing than man. The dog is aware of the distant footstep before we are, even recognizing its character, whether it is domestic or stranger. You may deceive a kitten with your imitation of a mouse's scratching, but hardly an old cat. Horses recognize sounds of danger or the approach of a friend; human or of their own kind, almost uncannily. Yet, of many sounds, the most beautiful and the most haunting, is that of the green grass. It is the sound of life, of growth, of the earth's pulse. It is the sound of the earth's pulse. It is the sound of the earth's pulse.

what the world would be like if our range of hearing permitted us awareness by the cry of the rush of sap through stem and leaf, the daylight transformation of gas and water into sugars, the ceaseless production of living matter, the construction, storage, enlargement of plant, in short, the almost bewildering activity that goes on within what we often describe as "only a weed." Given a sufficient delicacy of auditory nerve, a human being could hear the life of the world. It is the sound of the earth's pulse. It is the sound of the earth's pulse. It is the sound of the earth's pulse.

the reader for a journey of adventure among the "green leaf music" of blades of grass. The writer pictures the blade enlarged to a thickness of thirty or forty feet, so that it may be possible for the visitor to descend into its recesses by any of the many man-holes or stomata. The blade is therefore by this enlargement several miles long. You see the visitor standing by the side of plant-cell more than twice his height as he examines the life-like structure. It is a world of such color and such life that the visitor is almost taken the place of the familiar "white." You see him wandering about the irregular corridors of the interior as he examines stage by stage the intricacies of the gigantic sugar-factory. Strangely, nothing is said about the sound of the myriad activities; instead the writer speaks of the "noiseless," "silent" machinery. Yet with such a vast magnification to the eye surely the ear would testify to the labor of the mills, and hear their joyous song.

Thoughts such as these about hearing the plants come to one in spring when the green of Nature's factories is spreading itself anew over the landscape. A visitor from the north the other day spoke of the increasing greenness as his car sped along the miles from the Courtenay country southward. More even than the flowers this growth of green grass, this spreading of green leafy across the thickets, and the woods is the note of spring. It is the sound of the earth's pulse. It is the sound of the earth's pulse. It is the sound of the earth's pulse.

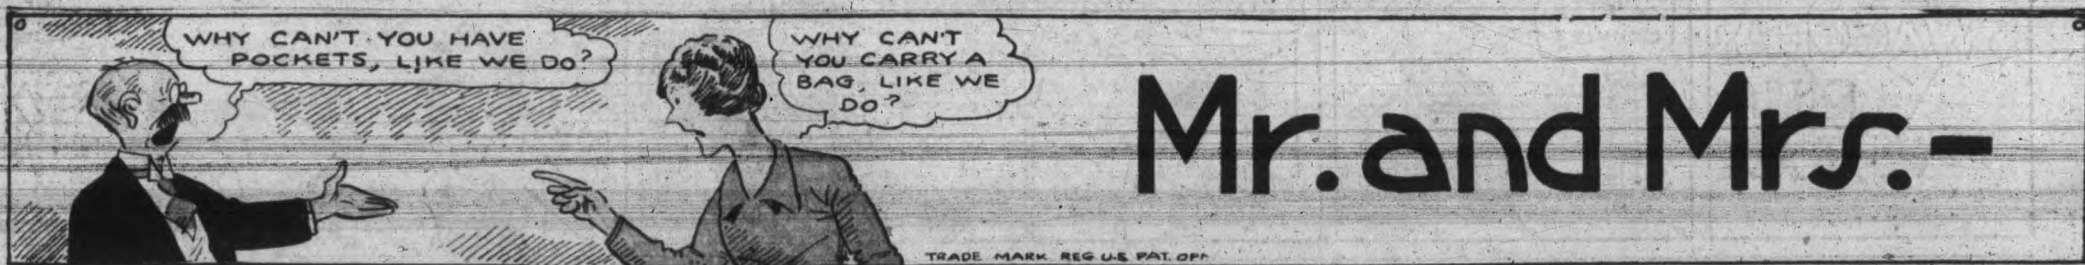

And thrills to see the trees break into bud. And skies break into stars. And joys that earth is green with eager grass. After all, perhaps it is better that we cannot hear the voice of the plants, for thus we are thrown back on ourselves. It is within our own heart sympathetically attuned that Nature's songs arise "songs without words," for most of us, the poet says, "the words are not words, but the things themselves." "Think me not unkind or rude. That I walk alone in the grove and gleam. I go to the god of the wood. To fetch his word to men. One harvest from thy field. Homeward brought the oxen strong. A second crop thine acres yield. Which I gather in a song."

## Mr. and Mrs. -

# THE VAN SWAGGERS

By RUSS WESTOVER

Registered U. S. Patent Office.

## Tillie the Toiler

Registered U. S. Patent Office

# Rosie's BEAU

by  
Geo. McManus

ROSIE-I DON'T BLAME YOU IF YOU NEVER SPEAK TO ME- BUT I HAD TO TAKE THIS JOB- AS A SAILOR TO GET BACK TO THE UNITED STATES- THE FIRM I REPRESENTED WENT BROKE- PLEASE DON'T SCOLD ME-

BUT, ARCHIE-

OH-I KNOW THIS MEANS GOOD-BYE- LIFE IS SO CRUEL-

ARCHIE-YOU DARLING-I'M PROUD OF YOU- IT SHOWS WHAT A GREAT MAN YOU ARE- AND YOU'RE NOT AFRAID TO WORK

I'M GOING DOWN ON THE PROMENADE DECK FOR A STROLL-

AYE CAPTAIN

WHAT'S THIS? ONE OF MY SAILORS SPOONING ON DECK- WITH ONE OF THE PASSENGERS- HEY! YOU-

IF THE CAPTAIN WOULD ONLY LET ME EXPLAIN- BUT-PSHAW! TROUBLE IS MY MIDDLE NAME-

## Bringing Up Father

Registered U. S. Patent Office

WELL-NOW FER A NICE REST- I'LL NOT BE BOTHERED BY MAGGIE-DAUGHTER OR THE SERVANTS- THIS IS A GOOD IDEA OF MINE TO RENT A HOTEL ROOM FER THE AFTERNOON FER A LITTLE NAP-

PARDON-SIR-IF YOU WANT SOME-THING- JUST CALL ME-NUMBER SIX-

IF YOU DON'T SHUT THAT DOOR-I'LL CALL YOU SOME-THING AN' IT WON'T BE NUMBER SIX-

OH-I DIDN'T KNOW ANY ONE WAS IN MAY-I PUT SOME TOWELS IN THE BATH?

IF THEY WANT TO BATHE-GO AHEAD-

EXCUSE ME-I WUZ SENT UP TO FIX THE RADIATOR- KIN I COME IN?

YOU'RE IN ALREADY- DON'T BOTHER ME-

HERE'S SOME FLOWERS-SIR-THE PROPRIETOR SENT 'EM UP- WHERE'LL I PUT 'EM-SIR?

I WISH YOU'D PUT 'EM ON HIS CHEST-

PARDON ME-I'M THE WINDOW-CLEANER-

DID YOU COME IN HERE JUST TO TELL ME THAT?

OH-I THOUGHT YOU SENT FOR A WAITER-

IF YOU GOT PAID FER THINKIN' YOU'D BE IN DEBT- GIT OUT OF HERE- I'M FREEZIN'-

WHAT? NO! THIS AIN'T THE BRONX ZOO- BUT THERE'S A LOT OF PEOPLE HERE WHO OUGHT TO BE OUT THERE- GOOD-BYE-

BY GOLLY-I'VE GOT THE DOOR LOCKED- NOW MAYBE I KIN TAKE A NAP- WHAT'S THAT? SOMEONE'S TRYIN A KEY IN THE DOOR-

BY GOLLY-I'LL PUT A STOP TO THIS- HOME AIN'T ANY WORSE THAN THIS-

EEK!

WHAT'S THE MATTER WITH YOU-LADY?

SORRY-SIR-BUT YOU'RE IN THE WRONG ROOM- THIS ROOM BELONGS TO MRS. HERTRAIN-

BY GOLLY-I WUZ BEGINNIN TO THINK IT WUZ A RAILWAY DEPOT- EVERYBODY'S BEEN HERE-
